The words and expressions used but not defined in this Draft Red Herring Prospectus will have the same meaning as assigned to such terms under the Companies Act, 2013, the Securities and Exchange Board of India Act, 1992 (the “SEBI Act”), the SCRA, SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 the Depositories Act and the rules and regulations made thereunder.

Notwithstanding the foregoing, terms in “Main Provisions of the Articles of Association”, “Statement of Possible Tax Benefits”, “Our Industry”, “Regulations and Policies in India”, “Financial Statements as Restated of the Company”, “Outstanding Litigations and Material Developments” and “Offer Procedure”, will have the meaning ascribed to such terms in these respective sections.

CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF FINANCIAL PRESENTATION

In this Draft Red Herring Prospectus, the terms “we”, “us”, “our”, the “Company”, “our Company” and “M P K Steels (I) Limited”, “M P K”, unless the context otherwise indicates or implies, refers to M P K Steels (I) Limited.

CERTAIN CONVENTION

All references in this Draft Red Herring Prospectus to “India” are to the Republic of India. In this Draft Red Herring Prospectus, our Company has presented numerical information in “lakhs” units. One lakh represents 1,00,000.

FINANCIAL DATA

Unless stated otherwise, the financial data in this Draft Red Herring Prospectus is derived from our Restated Financial Statements of Assets and Liabilities, Profit and Loss and Cash Flow Statement of our Company for the half year ended on September 30, 2024 and for the Financial Year ended on March 31, 2024; March 31, 2023 and March 31, 2022 prepared in accordance with Indian GAAP, the Companies Act and restated in accordance with the SEBI (ICDR) Regulations, Guidance Note on “*Reports in Company Prospectus (Revised 2019)*” issued by ICAI and the Indian GAAP which are included in this Draft Red Herring Prospectus, and set out in “*Financial Statements as Restated*” on page 230 of this Draft Red Herring Prospectus.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sum of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the two decimal place and all percentage figures have been rounded off to two decimal places and accordingly there may be consequential changes in this Draft Red Herring Prospectus.

Our Company’s Financial Year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that calendar year, so all references to a particular financial year are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year.

There are significant differences between Indian GAAP and IND (AS). Accordingly, the degree to which the Restated Financial Statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices, Indian GAAP, IND (AS), the Companies Act and the SEBI (ICDR) Regulations, on the Restated Financial Statements presented in this Draft Red Herring Prospectus should accordingly be limited. Although we have included a summary of qualitative and quantitative differences between Indian GAAP and IND (AS), our financial statements reported under IND (AS) in future accounting periods may not be directly comparable with our financial statements historically prepared in accordance with Indian GAAP, including disclosed in this Draft Red Herring Prospectus. You should consult your own advisors regarding such differences and their impact on our financial data.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” and elsewhere in this Draft Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Statutory Auditor, set out in the section titled “*Financial Statements as Restated*” beginning on page 230 of this Draft Red Herring Prospectus.

For additional definitions used in this Draft Red Herring Prospectus, see the section “*Definitions and Abbreviations*” on page 4 of this Draft Red Herring Prospectus. In the section titled “*Main Provisions of the Articles of Association*”, on page 330 of the Draft Red Herring Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

CURRENCY AND UNITS OF PRESENTATION

In this Draft Red Herring Prospectus, unless the context otherwise requires, all references to

- ‘Rupees’ or ‘₹’ or ‘Rs.’ Or ‘INR’ are to Indian rupees, the official currency of the Republic of India;

All references to the word ‘Lakh’ or ‘Lakhs’, ‘Lac’ or ‘Lacs’, means ‘One hundred thousand’ and the word ‘Million’ means ‘Ten lakh’ and the word ‘Crore’ means ‘Ten Million’ and the word ‘Billion’ means ‘One Thousand Million’.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Our Business**”, “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” and elsewhere in this Draft Red Herring Prospectus, unless otherwise indicated, have been calculated based on our financial statements as restated prepared in accordance with Indian GAAP.

DEFINITIONS

*For definitions, please see the Chapter titled “**Definitions and Abbreviations**” on page 4 of this Draft Red Herring Prospectus. In the Section titled “**Main Provisions of Articles of Association**” beginning on page 330 of this Draft Red Herring Prospectus, defined terms have the meaning given to such terms in the Articles of Association.*

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry and market data used throughout this Draft Red Herring Prospectus has been obtained or derived from Internal Company reports and industry and Government publications, publicly available information and sources. Industry and Government publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed, and their reliability cannot be assured. Although, our Company believes that industry data used in this Draft Red Herring Prospectus is reliable, it has not been independently verified either by the Company or the Book Running Lead Manager or any of their respective affiliates or advisors.

Further, the extent to which the industry and market data presented in this Draft Red Herring Prospectus is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources. Accordingly, investment decisions should not be based solely on such information.

In accordance with the SEBI (ICDR) Regulations, “**Basis for Offer Price**” on page 108 of this Draft Red Herring Prospectus includes information relating to our peer group entities. Such information has been derived from publicly available sources, and neither we, nor the Book Running Lead Manager have independently verified such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “**Risk Factors**” on page 35 of this Draft Red Herring Prospectus.

TIME

All references to time in this Draft Red Herring Prospectus are to Indian Standard Time. Unless stated otherwise, or the context requires otherwise, all references to a “year” in this Draft Red Herring Prospectus are to a calendar year.

FORWARD LOOKING STATEMENTS

All statements contained in this Draft Red Herring Prospectus that are not statements of historical fact constitute forward-looking statements. All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward-looking statements. These forward-looking statements include statements with respect to our business strategy, our revenue and profitability, our projects and other matters discussed in this Draft Red Herring Prospectus regarding matters that are not historical facts. Investors can generally identify forward-looking statements by the use of terminology such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “may”, “will”, “will continue”, “will pursue”, “contemplate”, “future”, “goal”, “propose”, “will likely result”, “will seek to” or other words or phrases of similar import. All forward looking statements (whether made by us or any third party) are predictions and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect.

Further, the actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the our Sector in India where we have our businesses and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and overseas which have an impact on our business activities or investments, the monetary and fiscal policies of India and other jurisdictions in which we operate, inflation, deflation, unanticipated volatility in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in our industry and incidence of any natural calamities and / or acts of violence. Other important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. Any slowdown or shutdown in our manufacturing operations or strikes, work stoppages or increased wage demands by our employees that could interfere with our operations and cash flow.
2. Certain risks consequent to our operations involving the hazardous process that can cause injury;
3. Our operations are currently dependent on our Power and Fuel facility and any disruption in supply of power and fuel can lead to stoppage in production;
4. Geographical concentration of business and our ability to expand our geographical area of operation;
5. Under-utilisation of or Disruption in our Factory;
6. Our ability to effectively manage a variety of business, legal, regulatory, economic, social and political risks associated with our operations;
7. Changes in laws and regulations relating to the industries in which we operate;
8. Our ability to meet our working capital requirements;
9. Our ability to adapt to the changing technology in our industry of operation may adversely affect our business and financial condition;
10. Our ability to upgrade our product portfolio, from time to time;
11. Our ability to implement our growth strategy and expansion plan;
12. Effect of lack of infrastructure facilities on our business
13. The performance of the financial markets in India and globally;
14. Intensified competition in industries/sector in which we operate;

15. Inflation, deflation, unanticipated turbulence in interest rate, equity price or other rates or prices;
16. Concentration of ownership among our Promoters;
17. Significant increases in prices of, or shortages of, or disruption in supply of labour and raw materials;
18. Our ability to attract, retain and manage qualified personnel and skilled labour;
19. Our ability to make interest and principal payments on our existing debt obligations and satisfy the other covenants contained in our existing debt agreements.

For further discussions of factors that could cause our actual results to differ, please see the section titled “**Risk Factors**”, chapters titled “**Our Business**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on pages 35, 146 and 231 of this Draft Red Herring Prospectus, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

K. RISK FACTORS

Investors should read chapter titled **“Risk Factors”** beginning on page 35 of this Draft Red Herring Prospectus before taking an investment decision in the Offer. Details of our top 10 risk factors are set forth below:

1. Our factory is located at Rajasthan. Any delay in production at, or shutdown of, or any interruption for a significant period of time, in these facilities may in turn adversely affect our business, financial condition and results of operations.
2. Our Company is dependent on a few suppliers for purchases of raw materials and consumables. The loss of any of these large suppliers may affect our business operations.

3. We derive a majority portion of our revenue from operations from our top 10 customers, contributing towards our total gross sales.
4. The Company have made One Time Settlement (OTS) of Loan in the past which may affect its credibility in future to access funds from Banks and Financial Institutions.
5. The loss of or shutdown of operations of our Factory may have a material adverse effect on our business, financial condition and results of operations.
6. We rely heavily on the availability of key raw materials to procure them. As we have not established long-term arrangement with these suppliers, any inability to secure sufficient raw materials at competitive prices could adversely impact our business, financial condition, and operational results. Any fluctuations in prices, availability of raw material or storage in supply of raw material for manufacturing of our products would adversely impact our business.
7. We have experienced significant working capital requirements in past and may continue to experience in future also. If we experience insufficient cash flows from our operations or are unable to borrow to meet our working capital requirements, it may materially and adversely affect our business, cash flows and results of operations.
8. We have not entered into long-term contracts with our major dealers and typically operate on the basis of purchase orders, which could adversely impact our revenues and profitability.
9. Our Registered and Factory/ Corporate Office are not owned by us. In the event that we lose such rights or are required to renegotiate arrangements for such rights, our business results of operations, profitability and margins, cash flows and financial condition could be adversely affected.
10. Our Company has negative cash flows from its Operating activities for the half year ended on September 30, 2024 and For the FY 2023, investing activities for FY 2023 and financing activities for FY 2024 and 2022, details of which are given below. Sustained negative cash flow could impact our growth and business.

SECTION III: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this Offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, occur, our business, results of operations, and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment.

*Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our Restated financial statements for half year ended September 30, 2024 and financial years ended March 31, 2024, 2023 and 2022 prepared in accordance with Indian GAAP and the Companies Act, restated in accordance with the SEBI ICDR Regulations, 2018 and the Revised Guidance Note on Reports in Company Prospectuses (Revised 2019) Issued by the ICAI. To obtain a better understanding, you should read this section in conjunction with the chapters titled “**Our Business**” beginning on page 146, “**Our Industry**” beginning on page 120 and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on page 231 respectively, of this Draft Red Herring Prospectus as well as other financial information contained herein.*

The following factors have been considered for determining the materiality of Risk Factors:

- 1. Some events may not be material individually but may be found material collectively.*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material at present but may have material impact in future.*

*The financial and other related implications of the risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Red Herring Prospectus. For capitalized terms used but not defined in this chapter, refer to the chapter titled “**Definitions and Abbreviations**” beginning on page 4 of this Draft Red Herring Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.*

In this Draft Red Herring Prospectus, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

Unless the context otherwise requires, in this section, references to “we”, “us” and “our” or “our Company” refers to M P K Steels (I) Limited.

The risk factors are classified as Internal and External for clarity and better understanding.

INTERNAL RISKS

B. BUSINESS RELATED RISKS

- 1. Our factory is located at Rajasthan. Any delay in production at, or shutdown of, or any interruption for a significant period of time, in these facilities may in turn adversely affect our business, financial condition and results of operations.*

Our Company has its factory is located in Jaipur District in Rajasthan. Our success depends on our ability to successfully manufacture and deliver our products to meet our customer demand. Our Factory is susceptible to damage or interruption or operating risks, such as human error, power loss, breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, loss of services of our external contractors, terrorist attacks, acts of war, break-ins, earthquakes, other natural disasters and industrial accidents and similar events. Further, our Factory is also subject to operating risk arising from compliance with the directives of relevant government authorities. Operating risks may result in personal injury and property damage and in the imposition of civil and criminal

penalties. If our Company experiences delays in production or shutdowns due to any reason, including disruptions caused by disputes with its workforce or any external factors, our Company's operations will be significantly affected, which in turn would have a material adverse effect on its business, financial condition and results of operations.

2. Our Company is dependent on a few suppliers for purchases of raw materials and consumables. The loss of any of these large suppliers may affect our business operations.

Our top ten suppliers contribute 70.57%, 64.55%, 67.25% and 91.85% of our total purchase for the half year ended on September 30, 2024 and the Financial Year ended on March 31, 2024, March 31, 2023, and March 31, 2022, respectively based on Restated Financial Statements. The raw materials and consumables needed for our manufacturing are being supplied by limited vendors in the geographical region that we operate in and we cannot assure that we will be able to get the same quantum and quality of supplies, or any supplies at all, and the loss of supplies from one or more of them may adversely affect our purchases of stock and ultimately our revenue and results of operations. However, the composition and amount of purchase from these suppliers might change as we continue seeking new suppliers for our product for better quality and price in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new suppliers, there can be no assurance that we will be able to maintain long term relationships with such suppliers or find new suppliers in time. The details of contribution of top 10 suppliers as a percentage of total purchase is given below:

* Percentages have been calculated by dividing Materials purchased from respective Suppliers by the cost of total raw materials, consumables and traded goods purchased.

**We have not disclosed the name of Suppliers as we have not received No Objection Certificate from them.

3. We derive a majority portion of our revenue from operations from our top 10 customers, contributing towards our total gross sales.

Our company has been generating revenue from limited customers, the 72.37%, 75.88%, 78.22% & 79.96% of our total revenue for the half year ended September 30, 2024 and financial years ended March 31, 2024, 2023 and 2022 is from top ten customers and this dependency on limited number of customers would form a scenario in future where discontinuing of any of these customers would impact our financial position. Further, we do not have long-term agreements with our top 10 customers which also exposes us to the risk of obtaining regular orders from them. Our business operations are highly dependent on our top customers, which exposes us to a high risk of customer concentration. The following table summarizes the revenue proportion of our top customers for the respective period:

Note: Top-10 Customer for each period are considered separately.

* Percentages have been calculated by dividing Customer Sales by total Revenue from Operations.

**We have not disclosed the name of Customers as we have not received No Objection Certificate from them.

Loss of one or more of these customers or a reduction in the amount of business we obtain from them for any reason including due to loss of or failure to renew existing arrangements; adverse general economic conditions; disputes with such customers; decline in business of such customers; adverse changes in the financial condition of such customers; adverse change in any of such customers' supply chain strategies; or if such customers decide to choose our competitors over us, could have an adverse effect on our business, results of operations, financial condition and cash flows.

We cannot assure you that we will be able to maintain historic levels of business with our top customers or negotiate commercially favorable arrangements. Further, we may be reluctant to proceed against customers and strain the relations in the event of disagreements or disputes relating to our services.

4. The Company have made One Time Settlement (OTS) of Loan in the past which may affect its credibility in future to access funds from Banks and Financial Institutions.

During the financial year 2018-2019, the State Bank of India (the "Lender") entered into an Assignment Agreement with Assets Care and Reconstruction Enterprises Limited ("ACRE") on March 30, 2019. Under this agreement, ACRE took over the stressed loan extended to M P K Steels (I) Private Limited ("the Issuer Company") and its related parties— M. P. K. Ispat India Private Limited and M. P. K. Metal Private Limited (collectively referred to as "the Group"). The aggregate loan amount of ₹6,663.03 lakhs, as of March 30, 2019, was assigned at a consideration of ₹2,400.00 lakhs.

In the financial year 2019-2020, ACRE executed a Compromise Settlement Agreement ("Settlement Agreement") on May 31, 2019, with M P K Steels (I) Private Limited and its related parties.

Following the settlement of the outstanding balance with ACRE, the Company paid its share of liability and recognized the cessation of liability resulting from the settlement and the restructuring of borrowings, including interest, as per the resolution plan. The cessation of liability resulting from the settlement and the restructuring amounted to ₹1,149.52 lakhs. The Company settled its obligation due to ACRE and further obtained No dues certificate letter dated December 21, 2021.

The entire instance of OTS may have an effect on the credit credibility of the Issuer Company to access funds from Banks and Financial Institutions in future.

5. The loss of or shutdown of operations of our Factory may have a material adverse effect on our business, financial condition and results of operations.

Our manufacturing plant is situated at A - 195, RIICO Industrial Area Extension, Phase 2 Bagru, Jaipur, Rajasthan, India - 303007, which spans an area of approximately 10,393.75 square meters and is subject to operating risks, such as the breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, labour disputes, strikes, lockouts, earthquakes and other natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities. The occurrence of any of these risks may significantly affect our operating results. Although, we take precautions to minimize the risk of any significant operational problems at our facility such as carrying out planned shutdowns of our plant for maintenance.

However, there have been no such occurrence or instances of the disclosed event in the past. The risk mentioned above shows the risks which may or may not occur in future which could impact the business of our Company.

6. We rely heavily on the availability of key raw materials to procure them. As we have not established long-term arrangement with these suppliers, any inability to secure sufficient raw materials at competitive prices could adversely impact our business, financial condition, and operational results. Any fluctuations in prices, availability

of raw material or storage in supply of raw material for manufacturing of our products would adversely impact our business.

We do not have long term arrangements with our vendors/suppliers, and we operate on a verbal purchase order/ order to order basis. There is no long-term supply arrangement for our raw material and consumables. The availability of key raw materials, including Billets and Ingots, is essential for our operations, particularly in the production and other customized solutions. Disruptions in the supply chain, price fluctuations, and regulatory requirements related to environmental compliance present significant challenges in maintaining a stable and cost-efficient supply of these materials. Although there is seldom any delay in procurement and delivery due to good relationship with the vendors and dealers.

Our inability to obtain quality raw materials in a timely and cost-effective manner would cause delays in our production and delivery schedules besides increasing cost of production, which may result in us losing some customers and hence could lead to reduction in revenues. Hence, we also face market risks for each of these products. However, there have been no such occurrence or instances of the disclosed event in the past. The risk mentioned above shows the risks which may or may not occur in future which could impact the business of our Company.

7. We have experienced significant working capital requirements in past and may continue to experience in future also. If we experience insufficient cash flows from our operations or are unable to borrow to meet our working capital requirements, it may materially and adversely affect our business, cash flows and results of operations.

The business of our Company is working capital intensive. The successful operation of our business heavily relies on significant working capital, which is essential for various aspects, including financing project operations, inventory management, and the purchase of raw materials and may continue to so in future also. However, changes in credit terms and payment delays can adversely impact our working capital, resulting in lower cash flows and increased funding requirements. Inadequate financing of our working capital needs may arise due to several factors, such as delays in disbursements under financing arrangements, higher interest rates, increased insurance costs, or borrowing and lending restrictions. Such circumstances could have a material adverse effect on our overall business, financial condition, and prospects.

The Working capital requirement for the half year ended on September 30, 2024 and financial year ended on March 31, 2024, 2023 and 2022 as per Restated financial statement is as follows:

(₹ in Lakhs)

Particulars	For the half year ended on	For the financial year ended on		
	September 30, 2024	March 31, 2024	March 31, 2023	March 31, 2022
Total Current Assets (I)	5,921.92	5,075.46	3,942.26	3,141.20
Total Current Liabilities (II)	2,967.63	2,388.52	1,547.54	1,449.32
Net Working Capital (I)-(II)	2,954.29	2,686.94	2,394.72	1,691.88

We continually strive to enhance our financial management practices to effectively address working capital challenges. By closely monitoring credit terms, payment schedules, we aim to mitigate risks associated with fluctuations in working capital requirements. Additionally, prudent financial planning, exploring diverse financing options, and maintaining strong relationships with financial institutions are key factors in managing our working capital efficiently. Despite our proactive measures, there can be no assurance that working capital fluctuations will not impact our business operations or financial performance.

For details related to working capital requirement, please refer to chapter titled as ***“Object of the Offer”*** on page 96 of this Draft Red Herring Prospectus.

8. We have not entered into long-term contracts with our major dealers and typically operate on the basis of purchase orders, which could adversely impact our revenues and profitability.

Our sales are primarily driven by ongoing relationships with our dealers, as we do not enter into long-term contracts with them. Any change in the buying patterns of our end users or the disassociation of key dealers could negatively impact our business. The loss or disruption of business from a significant dealer or multiple key dealers, or the inability to consistently secure new orders, could adversely affect our revenues, cash flows, and overall operations. While we have had long-standing business relationships with our dealers and have received continuous orders in the past, there is no guarantee that this will persist in the future, which may impact our revenue and profitability. Additionally, the steel industry is subject to fluctuations in demand, raw material availability, and market competition, further adding to the risks associated with our dealer relationships and overall business stability.

Additionally, the absence of a confirmed order pipeline limits our ability to forecast revenues, plan production schedules, and manage inventory and working capital effectively. This could result in operational inefficiencies, the underutilization

of capacity, or an inability to meet unexpected demand spikes, ultimately affecting our profitability and industry reputation.

9. Our Registered and Factory/ Corporate Office are not owned by us. In the event that we lose such rights or are required to renegotiate arrangements for such rights, our business results of operations, profitability and margins, cash flows and financial condition could be adversely affected.

Our Registered Office and Factory/ Corporate Office have been leased by us from third parties. Set forth below are certain details with respect to our material real properties which have been rented/leased:

Sr. No.	Date of Agreement	Area	License / Leased / Owned	Period of Agreement	Location of the Property	Purpose	Rent Amount
1	July 01, 2024	565 sq. feet	Rented	12 months	House No. 87, Rajgarh Road, Silpukhuri, Kamrup, Gmc, Assam, India-781003	Registered Office	₹ 10,000 p.m.
2	January 10, 2005 (Amended on May 31, 2022)	10393.75 sqm	Leased	99 years	A - 195, RIICO Industrial Area Extension, Phase 2 Bagru, Jaipur, Rajasthan, India - 303007.	Factory/ Corporate Office	One-time payment of ₹ 24,29,328.00

For further details, see **“Our Properties”** under chapter **“Our Business”** beginning on page 146 of this Draft Red Herring Prospectus.

We cannot assure the uninterrupted renewal of the leave and license agreement in the future, and there exists a possibility that our Company may face challenges in securing alternate locations promptly if termination occurs. Further, we may be required to renegotiate the terms and conditions of such premises during their tenure. In the event of termination, we may be compelled to vacate the premises as mutually agreed between the parties, further complicating our ability to find suitable alternatives swiftly. The occurrence of any of the above events may have a material adverse effect on our business, results of operations, and financial condition.

Further, any regulatory changes, disputes between the primary contracting parties, or adverse modifications to the lease terms could impact the Company’s ability to function smoothly. A forced relocation due to legal or contractual issues could lead to additional financial burdens, such as relocation expenses, renegotiation of supplier and customer contracts, and potential downtime in manufacturing operations. In such a scenario, the Company may also face legal disputes, impacting its financial and reputational standing. Moreover, the uncertainty surrounding the long-term stability of the leasehold rights may affect investor confidence, financial planning, and strategic business decisions. Given these risks, the Company must proactively assess alternative options, secure contingency plans, and engage in discussions for an extension or transition well in advance to mitigate potential disruptions.

10. Our Company has negative cash flows from its Operating activities for the half year ended on September 30, 2024 and For the FY 2023, investing activities for FY 2023 and financing activities for FY 2024 and 2022, details of which are given below. Sustained negative cash flow could impact our growth and business.

Our Company had negative cash flows from its Operating activities, Investing activities and Financing activities in previous years as per the restated financial statements and the same are summarised as under:

(₹ in Lakhs)

Particulars	For the half year ended on September 30, 2024	For the Financial Year ended on		
		March 31, 2024	March 31, 2023	March 31, 2022

Cash and Cash Equivalents at the end of the Period	656.70	79.51	30.37	9.40

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

For further details of Cash Flows of our Company, please refer to the chapter titled “Financial Statements as Restated” beginning on page 230 of this Draft Red Herring Prospectus.

11. We derive a substantial portion of our revenue from the sale of key products and loss of sales due to reduction in demand for these products could adversely affect our business, financial condition, results of operations and cash flows.

We rely heavily on revenue generated from the sale of certain products, i.e., M.S. Channels. However, if there is a significant shift in the demand for M.S. Channels, or if our customers start relying on other suppliers, it could adversely affect our business, results of operations, cash flows and financial condition. While we have not experienced any material decline in our sale of finished products in past, there is no assurance that we will not face any such decline in the future. Further, the revenue derived from the sale of each product is as follows:

12. Our revenues and purchases of raw materials (Billets and Ingots) are concentrated in the state of Rajasthan. Any adverse changes in the conditions affecting the state and our inability to grow our business in new geographic markets may adversely impact our business, results of operations, profitability and margins, cash flows and financial condition.

Due to the geographic concentration of the sale of our products and purchase of our raw materials namely Billets and Ingots, our operations are susceptible to local and regional factors, such as economic and weather conditions, adverse social and political events, natural disasters, demographic changes, and other unforeseen events and circumstances. Consequently, any significant social, political or economic disruption, natural calamities or civil disruptions in these regions, changes in policies of the State or local governments or the Government of India or adverse developments related to competition in these regions, may adversely affect our business, results of operations, financial condition and cash flows. While we have not experienced any such instances which adversely impacted our business and results of operations in the last three Fiscals, we cannot assure you that such instances will not arise in the future.

13. Underutilization of current manufacturing capabilities along with ineffectively utilizing the expanded capacity can lead to negative impact on financial performance.

Our factory is currently not operating at an optimal utilization level of its installed capacity. If we are unable to increase utilization levels, our profitability and cash flows may be negatively impacted. If we are unable to increase sales and revenue, we may not be able to recover our costs, which could negatively impact our financial performance.

14. Our inability to collect receivables from our customers on time could result in the reduction of our profits and affect our cash flows.

We are exposed to counterparty credit risk in the usual course of our business due to the nature of, and the inherent risks involved in, dealings and arrangements with our customers who may delay or fail to make payments or perform other contractual obligations. The majority of our sales are to customers on an open credit basis, with standard payment terms of generally between 20 to 36 days.

Macroeconomic conditions could also result in financial difficulties, including insolvency or bankruptcy, for our customers, and as a result could cause customers to delay payments to us, request modifications to their payment arrangements, that could increase our receivables or affect our working capital requirements, or default on their payment obligations to us.

15. Our Company, our Promoters, Directors and Group Companies are involved in certain legal proceedings. Any adverse decision in such proceedings may render us/them liable to liabilities/penalties and may adversely affect our business and results of operations.

These legal proceedings are pending at different levels of adjudication before various courts, tribunals and forums. Mentioned below are the details of the proceedings involving our Company, our Promoters, Directors and our Group Companies as on the date of this Draft Red Herring Prospectus along with the amount involved, to the extent quantifiable, based on the materiality policy for litigations, as approved by the Company in its Board meeting held on February 25, 2025.

*The amount may be subject to additional interest/other charges being levied by the concerned authorities which are unascertainable as on date of this Draft Red Herring Prospectus.

There can be no assurance that these litigations will be decided in favour of our Company, our Promoters/Director and/or our Group Companies, respectively, and consequently it may divert the attention of our management and Promoters and waste our corporate resources and we may incur significant expenses in such proceedings and may have to make provisions in our financial statements, which could increase our expenses and liabilities. As on the date of this Draft Red Herring Prospectus, our Company has not created any provisions related to the above litigations filed against the Company.

If such claims are determined against us, there could be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares.

For further details, please refer to the chapter titled “**Outstanding Litigations and Material Developments**” on page 253 of this Draft Red Herring Prospectus.

16. ***Our Company logo  is not registered with Registrar of Trademark; any infringement of our brand name or failure to get it registered may adversely affect our business. Further, any kind of negative publicity or misuse of our brand name could hamper our brand building efforts and our future growth strategy could be adversely affected***

The company carrying out its business activities with logo  using it as our brand identity. We have applied for its registration under Class 06 of the Trademark Act, 1999, with application numbers 6634442, however the same is not yet registered. As of the date of this Draft Red Herring Prospectus, the status of application is "Formalities Check Pass". We are carrying out our business using our above referred logo, and have built a strong association between our logo and our company, earning recognition, trust among leading corporate houses and high-net-worth individuals.

Further, there are multiple companies in the market with names similar to “MPK” which may pose challenges in obtaining a trademark registration for our brand. The presence of similar or identical trademarks could lead to objections or opposition during the registration process, potentially delaying or preventing successful registration. If another company with a similar name has already secured trademark rights, we may face legal challenges, including cease-and desist notices or litigation, which could result in rebranding costs. The existence of similar names in the market may lead to consumer confusion, affecting brand recognition and diminishing the distinctiveness of our firm. If registration is denied or restricted, our ability to take legal action against infringers or misuse of our brand name may be weakened. In case of a trademark conflict, we may be required to modify our business name or branding, leading to financial and operational burdens.

17. ***The Restated Financial Statements have been provided by Peer Reviewed Chartered Accountants who is not Statutory Auditor of our Company.***

The Restated Financial Statements of our Company for the half year ended September 30, 2024 and for the financial years ended March 31, 2024, March 31, 2023, and March 31, 2022, have been certified by B D G & Co LLP, Chartered Accountants, who are Peer Reviewed firm but not the Statutory Auditors of our Company. The Financial Statements of our Company for the half year ended September 30, 2024, have been audited by M/s NLA & Associates, Chartered Accountants, who are the Statutory Auditors of our Company and for the financial years ended March 31, 2024, March 31, 2023, and March 31, 2022, have been audited by Saurabh Agarwal & Associates who were Statutory auditors of the company.

18. ***There may be potential conflict of interests between our Company and other venture or enterprises promoted by our promoter***

Our Promoter Mrs. Nidhi Upadhyay has a substantial interest of 36.36% in Sunidhi Steels Private Limited which is in the business of trading of Structural Steel Products. The main business object / activities of company permit it to undertake similar business to that of our business, which may create a potential conflict of interest and which in turn, may have an implication on our operations and profits. Conflicts of interests may arise in allocating business opportunities between our Company in circumstances where our respective interests diverge. Although we have entered into a non-compete agreement with the above mentioned entity, in cases of conflict, our Promoter may favour other companies in which our Promoter have interest.

19. ***The steel industry is highly cyclical and adverse variation in steel prices may have an adverse effect on the Company's results of operations and financial condition.***

Steel prices are volatile, reflecting the highly cyclical nature of the global steel industry. Steel prices fluctuate based on macroeconomic factors, including, amongst others, consumer confidence, employment rates, interest rates and inflation rates, in the economies in which the steel producers sell their products and are sensitive to the trends of particular industries, such as the automotive, construction, packaging, appliance, machinery, equipment and transportation industries, which are among the biggest consumers of steel products. When downturns occur in these economies or sectors, our Company may experience decreased demand for its products, which may lead to a decrease in steel prices which may ultimately affect profitability of our Company.

20. ***Our Promoter and Directors play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoter and Directors remain associated with us.***

Our success is significantly influenced by the expertise and services of our key managerial personnel. The ability to attract and retain such individuals is crucial to our operations. We benefit from the longstanding involvement of our Promoters and Directors, i.e. Mr. Manoj Upadhyay and Mr. Suresh Kumar Sharma who have played a pivotal role in the growth and strategic direction of our business. Since the inception of the Company, our Promoters and Directors have been actively engaged in day-to-day operations and management. Consequently, our performance is heavily reliant on their continued involvement. If our Promoter and Directors unable or unwilling to continue in their roles, it may be challenging or difficult to find suitable replacements.

Furthermore, we do not have key person insurance to mitigate the risk associated with the loss of crucial personnel. Over the years, our Promoter and Directors have established important relationships with dealers and other stakeholders. The loss of their services could hinder our ability to execute our business strategy, potentially leading to material adverse effects on our business, financial condition, results of operations, and future prospects.

21. Our manufacturing activities are dependent upon availability of skilled and unskilled labour.

We have made arrangement of labour requirements at our factory through our on-roll employees. Though our business has not experienced any disruptions due to non-availability of skilled or unskilled labour or any disputes with them in past, we cannot assure you the same in future which may affect our production schedule and timely delivery of our products to customers and result of operations. Our success is dependent on our ability to recruit, train and retain skilled manpower possessing a certain technical qualification as well as experience to operate the machines and equipments at the factory premises. Any high attrition or competition for manpower may limit our ability to attract and retain the skilled manpower necessary for our future growth requirements. We cannot assure you that skilled manpower will continue to be available in sufficient numbers suitable to our requirements or that we will be able to grow our workforce in a manner consistent with our growth objectives, which may affect our business, financial condition, results of operations and prospects. *For further details about business of our Company, please refer chapter titled “Our Business” beginning on page 146 of this Draft Red Herring Prospectus.*

22. A high employee attrition rate can significantly disrupt our business operations and hinder overall performance.

Employee turnover can disrupt operations, hinder our ability to scale effectively, and undermine investor confidence. The departure of key personnel may result in the loss of critical knowledge, experience, and relationships that are integral to the company's success. This could lead to delays in product development, operational inefficiencies, and diminished performance, which may negatively affect our financial results and growth prospects. Additionally, a high turnover rate can elevate recruitment and training costs, diverting resources that could otherwise be invested in enhancing business operations. As we move forward with our IPO, ensuring stability within our workforce is crucial to maintaining strong market perception, meeting strategic goals, and driving long-term growth. The attrition rate of employees for half year ended September 30, 2024 and FY 2024, 2023 and 2022 is 14.55%, 18.35%, 13.46%, and 21.57% respectively.

23. Lack of Formal Qualifications and Specialized Training in Leadership

The Chairman and Executive Director of the company Mr. Suresh Kumar Sharma, lack formal academic qualifications or professional certifications in any field. Additionally, he has not participated in any structured training or certification programs related to business management, governance, or industry-specific skills. However, it is important to note that Mr. Suresh Kumar Sharma brings significant practical experience in the steel industry, which adds value to the leadership of the company. Despite this experience, the absence of formal qualifications and specialized training could present challenges in areas such as informed decision-making, strategic planning, and compliance with evolving regulatory and industry standards. This lack of formal education may limit the promoters' ability to effectively navigate complex business environments, adapt to technological advancements, or implement best practices in corporate governance. As a result, the company faces potential risks related to operational inefficiencies, regulatory non-compliance, and a possible negative impact on investor confidence, which could affect its long-term growth, competitiveness, and overall stability.

24. Our business requires us to obtain and renew certain registrations, licenses and permits from government and regulatory authorities and the failure to obtain and renew them in a timely manner may adversely affect our business operations.

Our business operations require us to obtain and renew, from time to time, certain approvals, licenses, registrations and permits under central, state, and local government rules in India, generally for carrying out our business. Some of these approvals are granted for a limited duration which includes Bureau of Indian Standard, Factory License, Pollution Certificate – Consent to Operate, LEI Certificate, Fire NOC. While we are required to obtain several approvals for legally conducting our business operations and we submit the applications for renewal of such approvals, as and when required, during the course of our business operations, we cannot assure you that we will be able to obtain approvals in respect of such applications, or any application made by us in the future. Except for the approval towards the application for

registration of trademark, there are no government approvals which we have applied to the appropriate government authorities and are yet to receive approvals from them.

For details related to pending approval and its current status, please refer to page 261 of the Draft Red Herring Prospectus under chapter titled as “Government and Other Approvals”.

The introduction of additional government control or newly implemented laws and regulations, depending on the nature and extent thereof and our ability to make corresponding adjustments, may adversely affect our business, results of operations and financial conditions. These laws and regulations and the way in which they are implemented and enforced may change from time to time and there can be no assurance that future legislative or regulatory changes will not have an adverse effect on our business, financial condition, cash flows and results of operations.

In the future, we may also be required to obtain new permits and approvals for our proposed operations. While we believe that we will be able to obtain such permits and approvals as and when required, there can be no assurance that the relevant authorities will issue any of such permits or approvals in the timeframe anticipated by us or at all. Failure by us to maintain or obtain the required permits or approvals, may result in the interruption of our operations or delay or prevent our expansion plans and may have a material and adverse effect on our business, financial condition and results of operations.

25. *Our insurance coverage may not adequately protect us against losses, and successful claims against us that exceed our insurance coverage could harm our results of operations and diminish our financial position. .*

Our operations are subject to risks inherent in factory such as risk of equipment failure, work accidents, fire, burglary, earthquakes, flood and other force majeure events, acts of terrorism and explosions including hazards that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage. Our significant insurance policies consist of, among others, insurance policy of SBI General Insurance- Saral Bharat Laghu Udyam Suraksha which includes the Building, Structure, Plant and Machinery, Furniture, Fixture and Fittings, Stocks and any other Contents, assets, Various Vehicle Policies. Failure to effectively cover ourselves against the associated risks may potentially lead to material losses. There can be no assurance that our insurance policies will be adequate to cover the losses/ damages suffered or that such insurance coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. If we suffer a significant uninsured loss or if insurance claim in respect of the subject matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

For details on insurance policies taken by our Company please refer chapter titled “Our Business” on page 146 of this Draft Red Herring Prospectus.

26. *There are certain discrepancies / errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 1956 and Companies Act, 2013. Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of the Company to that extent.*

Following discrepancies have been identified in the forms filed by the Company with the Registrar of Companies under provisions of Companies Act, 1956 and Companies Act, 2013:

- a. **Non-Compliance with Appointment of Cost Auditor:** In the following financial years, the Company failed to appoint a cost auditor and file the prescribed form CRA-2 as per Rule 4 of Companies (Cost Records and Audit) Rules, 2014 despite meeting the prescribed turnover thresholds which mandate the appointment of a cost auditor:
 - Financial Year 2014-15: Turnover of ₹ 69,97,06,268.00 (CRA-2 not filed).
 - Financial Year 2015-16: Turnover of ₹ 76,45,66,947.00 (CRA-2 not filed).
 - Financial Year 2021-22: Turnover of ₹ 71,57,19,129.00 (CRA-2 not filed).
 - Financial Year 2022-23: Turnover of ₹ 69,55,29,089.00 (CRA-2 not filed).

Further, the Company has not filed Form CRA-4 for submission of cost audit records for aforesaid financial years.

The Company is in the process of filing Form CRA-2 for an appointment of Cost Auditor for the relevant financial years. Further, based on report issued by Cost Auditor, the Company shall file Form CRA-4 with ROC.

- b. The Annual Return for the Financial Year 2022-2023 mentioned the authorized capital as ₹1,50,00,000.00, whereas the authorized capital was increased to ₹3,50,00,000.00. A revised MGT-7 was filed on December 18, 2023 to reflect the increase.
- c. **Non-Traceable Forms and Documents:** The following forms and documents could not be traced:

- Increase in authorized share capital from ₹20,00,000.00 to ₹50,00,000.00 in the financial year 2005-06. While an application has been made to the Registrar of Companies (ROC) on March 12, 2025, for the same.
- Form 1 filed at the incorporation of the Company is not traceable. An application has been made to the ROC March 12, 2025 for the same.
- Form 32 for the regularization of additional directors (Mr. Manoj Upadhyay and Mr. Suresh Kumar Sharma) was not found.
- Form 2 filed for allotment of 1,35,420 Equity Shares during FY 2006-27 was not found.
- Form 23 filed in FY 2005-26, as specified in Form 66 (Compliance certificate).

The Company is in the process of finding out aforesaid documents through physical inspection with the Regional office of Registrar of Companies.

- d. A clerical error was found in the MGT 7 annual return, the transfer made by Mr. Sanjay Sharma to Mrs. Santosh Devi Sharma has been incorrectly recorded as a transfer made by Mr. Shyam Sharma to Mrs. Santosh Devi Sharma due to a clerical error in the transferor's name. However, the details are accurately reflected in the SH-4 form. Since the Company's shares have been dematerialized, rectifying the backdated records is not possible, potentially leading to complications in future regulatory filings.
- e. Non-filing of Form 8 for creation of charge in following cases of secured borrowings from Banks/ Financial Institutions:
 - In F.Y. 2006-07, Company has taken secured loan for purchase of vehicle.
 - In F.Y. 2009-10, Company has taken term loan SBBJ and vehicle loan from HDFC Bank Limited.
 - In F.Y. 2010-11, Company has taken secured loan HDFC Bank Limited.
 - In F.Y. 2011-12, Company has taken secured loan from Bajaj Finance Limited.
 - In F.Y. 2013-14, Company took secured loan from Religare Finvest Limited and Toyota Financial Services India Limited.

In all the above cases, the Company failed to file Form 8 for creation of charge. Further, the aforesaid term loans have been repaid by the Company in full and no longer reflects in the financial statements of the Company. The Company does not foresee any regulatory action in this regard. The above disclosures have been done keeping in view, complete transparency and best compliance practices.

27. Our financing arrangements contain restrictive covenants. This may limit our ability to pursue our business and limit our flexibility in planning for, or reacting to, changes in our business or industry including our plans for expansion and diversification.

Our Company's total outstanding borrowings as on September 30, 2024, were ₹ 1,813.77 Lakhs. For the borrowings availed from Fingrowth Co-Operative Bank Limited, there are a few restrictive covenants as mentioned below, which in case the company fails to meet, may lead to acceleration of amounts due under such facilities and triggering of cross default provisions:

"During the currency of the loan, the company will not without, the Bank's prior permission in writing:

- a) Borrow money, either secured or unsecured, from any other Bank or Financial Institution;
- b) Create any further Charge, Lien or encumbrance over the assets of the unit or property offered as collateral security;
- c) Sale, Mortgage or Dispose of fixed assets under charge of the bank."

If the obligations under any of our financing documents are accelerated, we may have to dedicate a portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes.

For further details, see "Financial Indebtedness" on page 251 of this Draft Red Herring Prospectus.

While we have received all relevant consents required for the purposes of this Offer, a failure to comply with such covenants in the future may restrict or delay certain actions or initiatives that we may propose to take from time to time. Certain of our secured borrowing facilities may also permit the lenders to recall the loan on demand. Such recalls on borrowed amounts may be contingent upon happening of an event beyond our control and there can be no assurance that we will be able to persuade our lenders to give us extensions or to refrain from exercising such recalls which may adversely affect our operations and cash flows.

28. The Company is yet to place orders for the Machineries & Dies and Solar Plant for our proposed object, as specified in the Objects of the Offer. Any delay in placing orders, procurement of plant & machineries may delay our implementation schedule and may also lead to increase in price of these plant & machineries, further affecting our revenue and profitability.

Our Company have identified the type of Machineries & Dies and Solar Plant required to be bought from the proceeds of the Initial Public Offer. However, we are yet to place orders for the Machinery & Dies and Solar Plant as detailed in the **“Objects of the Offer”** beginning on page 96 of this Draft Red Herring Prospectus. These are based on our estimates and on third-party quotations, which are subject to a number of variables, including possible cost overruns, changes in management’s views of the desirability of current plans, change in supplier of machineries & dies, solar plant among others, which may have an adverse effect on our business and results of operations. Further, we cannot assure that we would be able to procure these plant and machineries, or procure the same within budgeted costs and timelines. Delays in acquisition of the same could result in the cost and time overrun, which would have a material adverse effect on our business, results of operations and financial condition. *For further details, please refer to the chapter titled “Objects of the Offer” beginning on page 96 of this Draft Red Herring Prospectus.*

29. The objects of the offer have not been appraised by any bank or financial institution, and we cannot assure you that the objects of the offer will be achieved within the expected time frame, or at all, and any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval.

Our Company proposes to utilise the Net Proceeds towards the following objects:

(₹ in Lakhs)

Sr. No.	Particulars	Amount to be financed and deployed from Net IPO Proceeds by the Financial Year ended March 31, 2026
1	Capital Expenditure towards Purchase of Machinery and Dies	267.45
2	Capital Expenditure towards installation of Solar Plant	700.00
3	To meet Working Capital Requirements	918.00
4	General Corporate Purposes*	[●]
	Total	[●]

**To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC.*

**General Corporate Purpose shall not exceed 15% of the Gross Issue Proceeds or 10 crores whichever is lesser in accordance with Regulation 230(2) of the SEBI ICDR Regulation, 2018 read along with SEBI ICDR Regulation (Amendment) Regulations, 2025*

Our proposed objects of the Offer are set forth under **“Objects of the Offer”** on page 96 of this Draft Red Herring Prospectus. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Sections 13(8) and 27 of the Companies Act 2013, we cannot undertake any variation in the utilisation of the Net Proceeds without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to Shareholders who do not agree with our proposal to change the objects of the Offer or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter our Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI. In light of these factors, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Offer, if any, or vary the terms of any contract referred to in the Draft Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

30. The average cost of acquisition of Equity Shares by the Promoters may be less than the Offer price.

The average cost of acquisition of Equity Shares by the Promoters may be less than the Offer price. The details of the average cost of acquisition of Equity shares held by the Promoters are set out as below:

Name of the Promoters	Average Cost of Acquisition (₹) *
Mr. Manoj Upadhyay	3.44
Mr. Suresh Kumar Sharma	4.65
Mrs. Nidhi Upadhyay	3.50
Mrs. Santosh Devi Sharma	17.78
M/s. Suresh Kumar Sharma and Sons HUF	-
M/s. Manoj Kumar Upadhyay HUF	-

As certified by B D G & Co. LLP Chartered Accountants, pursuant to their certificate dated March 29, 2025.

* The average cost of acquisition of Equity Shares by our Promoters have been calculated by considering the amount paid by them to acquire and Shares allotted to them as reduced by amount received on sale of shares i.e., net of sale consideration is divided by net quantity of shares acquired.

31. We have significant power requirements for continuous running of our factories. Any disruption to our operations on account of interruption in power supply or any irregular or significant hike in power tariffs may have an effect on our business, results of operations and financial condition.

The consistent availability of power is critical to our business operations, particularly for the continuous functioning of our factories, which have significant electricity requirements. Our operations rely on a steady supply from the Jaipur Vidyut Vitran Nigam Limited. Any disruption in power delivery could adversely affect production schedules, impacting our profitability and turnover. While we have backup systems such as diesel generators in place to mitigate the risks of power outages, these come with limitations.

Additionally, our dependency on third-party electricity providers poses challenges. Unexpected hikes in electricity costs could raise production expenses, potentially impacting on our pricing competitiveness if these costs cannot be passed on to customers. Given our reliance on external power sources, any sustained interruption or sharp cost escalation could negatively impact our business performance, financial condition, and operational results. To maintain competitiveness and profitability, the company plans to partially utilise the Net proceeds from the offer towards capital expenditure to set up Solar Plant. For further details, please refer chapter “Objects of the Offer” on page 96 of this Draft Red Herring Prospectus.

32. There have been instances of delay / default in payments to MSME registered vendors in the last three Financial Years. Any continued delay / default may negatively impact our relationships, profitability, and cash flow.

Our Company has delayed payments to MSME Creditors, however, the delay was due to unforeseen circumstances and the same have been cleared with requisite interest, wherever applicable as per the terms of trade with such MSMEs. While this is a necessary step to adhere to legal requirements, it can significantly affect our cash flow and overall profitability. The interest paid to MSME vendors due to these delays may increase our operating expenses, further straining our financial resources. Additionally, delayed payments can lead to strained relationships with suppliers, resulting in disruptions in the supply chain and potential difficulties in obtaining necessary materials or services in the future. Furthermore, consistently late payments may compel vendors to impose stricter payment terms or, in some cases, refuse to continue business with us. This could adversely affect our operational efficiency and ability to meet customer demands.

33. We will continue to be controlled by our Promoters after the completion of the Issue.

As of the date of this Draft Red Herring Prospectus, our Promoters and Promoter Group hold 97.82% of the issued, subscribed and paid-up equity share capital of our Company. Upon completion of the issue, our Promoters and certain members of the Promoter Group together will own [●]% of our equity share capital, which will allow them to continue to control the outcome of matters submitted to our Board or shareholders for approval. After this Issue, our Promoters will continue to exercise significant control or exert significant influence over our business and major policy decisions, including but not limited to the following:

- Controlling the election of directors;
- Controlling the selection of senior management;
- Approving significant corporate transactions, including acquisitions and disposals of our assets or business, or change of control transactions;
- Making overall strategic and investment decisions;
- Approving our annual budgets; and
- Amending our Memorandum and Articles of Association. The interests of our Promoters and certain members of the Promoter Group may conflict with your interests and the interests of our other shareholders, and our Promoters and certain members of the Promoter Group could make decisions that may adversely affect our business operations and hence the value of your investment in the Equity Shares.

34. Our Promoters and Executive Directors hold Equity Shares in our Company and are therefore interested in the Company's performance in addition to their remuneration and reimbursement of expenses.

Our Promoters and Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. *For further information on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see "Our Management" on page 198 of this Draft Red Herring Prospectus.*

35. There have been certain instances of delays in payment of Employee State Insurance Contributions, Employee Provident Fund Contributions and other statutory dues by our Company in half year ended September 30, 2024, Financial Year ended 2024, 2023 and 2022.

Our Company, in the regular course of its operations, is required to pay the employee state insurance contributions, employee provident fund contributions and other statutory dues including the income tax payments, tax deductions at source, goods and services tax. However, there have been certain instances of delays in the past in payments of statutory & regulatory dues. The Company's inability to make timely payment of our statutory dues could require us to pay interest and penalty.

Except as set forth below, there have been no delays in depositing undisputed dues, including contribution towards provident fund, employees' state insurance, income tax, cess, goods and services tax and other material statutory dues applicable to our Company half year ended September 30, 2024, FY 2024, 2023 and 2022:

Particulars	No. of instances of delays				
	EPF	ESIC	TDS	TCS	GST
Half year ended September 30, 2024	1	1	-	1	3
Financial Year 2023-24	7	8	-	1	2
Financial Year 2022-23	8	8	-	-	1
Financial Year 2021-22	6	8	-	-	5

We cannot assure you that going forward we will be able to make payment of our statutory dues in a timely manner or at all, which could result in penal or other regulatory action including payment of interest on the delay in payment of statutory dues, which could adversely affect our business and our results of operations and financial condition.

Additionally, we have strengthened our internal compliance system by introducing the 'Maker Checker' System and have undertaken steps to update the internal database with latest circulars and amendments to ensure future compliance. In the event the Company fails to submit the requisite disclosures to the regulators in the future, then the Company may be penalised by the regulators and the same may affect our results of operations.

36. We have entered into related party transactions in the past and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

We have in the course of our business entered into several transactions with our related parties and will continue to do so in the future. We cannot assure you that we will receive similar terms in our related party transactions in the future. While we believe that all such related party transactions that we have entered in half year ended on September 30, 2024 and FY 2024, 2023 and 2022 are legitimate business transactions conducted on the arms' length basis, in compliance with the requirements stipulated in Companies Act, 2013, and relevant Accounting Standards and other statutory compliances. We cannot assure that more favourable terms would have been achieved if these transactions had been conducted with unrelated parties. Additionally, any future transactions with related parties may present potential conflicts of interest.

While we have not had any conflict of interest in relation to our equity shareholders in the past, we cannot assure you that such conflicts will not arise in the future. Further, we cannot assure you that such transactions, individually or in the aggregate, will not have any adverse effect on our business and financial results, including because of potential conflicts of interest or otherwise. We cannot assure you that we will be able to maintain the terms of such transactions, or that, in the event we enter into future transactions with related parties, the terms will be favourable to us.

For further information, see “**Financial Statements – Annexure XXXIII “Related Party Transactions”**” beginning on page 230 of this Draft Red Herring Prospectus.

37. The deployment of funds raised through this Offer shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of Our Company.

The Offer size is less than ₹ 5,000 Lakhs, hence, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Offer. The deployment of these funds raised from this Offer, is hence, at the discretion of the management and the Board of Directors of Our Company and Our Company’s management will have flexibility in applying the proceeds of the Offer and will not be subject to monitoring by any independent agency. However, our Audit Committee will monitor the utilization of the proceeds of this Offer and prepare the statement for utilization of the proceeds of this Offer. Also, in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Offer without the Company being authorized to do so by our shareholders by way of special resolution and other compliances as applicable in this regard. Our Promoters and controlling shareholders shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

38. Employee fraud or misconduct could harm us by impairing our ability to attract and retain clients and subject us to significant legal liability and reputational harm.

Our business is exposed to the risk of employee misappropriation, fraud or misconduct. Our employees could make improper use or disclose confidential information, which could result in regulatory sanctions and serious reputational or financial harm. While we strive to monitor, detect and prevent fraud or misappropriation by our employees, through various internal control measures, we may be unable to adequately prevent or deter such activities in all cases. Our dependence upon automated systems to record and process transactions may further increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect.

While we have not been able to identify such issues in the past, there could be instances of fraud and misconduct by our employees, which may go unnoticed for certain periods of time before corrective action is taken. In addition, we may be subject to regulatory or other proceedings, penalties or other actions in connection with any such unauthorized transaction, fraud or misappropriation by our agents or employees, which could adversely affect our goodwill, business prospects and future financial performance. We may also be required to make good any monetary loss to the affected party. Even when we identify instances of fraud and other misconduct and pursue legal recourse or file claims with our insurance carriers, we cannot assure you that we will recover any amounts lost through such fraud or other misconduct.

39. We face competition, including from other large and established competitors, and we may fail to compete successfully against existing or new competitors, which may reduce the demand for our Products which may lead to reduced prices, operating margins, profits and further result in loss of market share.

Our competitors may possess significantly greater brand recognition, longer operational histories, better financial resources, advanced product development capabilities, more robust sales and marketing strategies, experienced management teams, and access to lower-cost capital and other resources. Some may benefit from lower costs or offer a wider range of products at reduced prices to capture market share. Additionally, competitors might form strategic alliances or acquire other companies, including our dealers and distributors, enhancing their ability to meet customer needs and offer lower-cost alternatives, potentially impacting our sales negatively. New competitors could also emerge at any time. Our rivals might respond more swiftly to new technologies or customer demands and bring existing customer loyalties that could erode our market share.

There is no guarantee that we will have the necessary resources for these investments or the ability to achieve the technological advancements required to remain competitive. Failure to compete effectively, including delays in adapting to industry and market changes, might necessitate additional expenses for marketing campaigns, market research, and investment in new technologies and infrastructure. Increased competition could lead to a slowdown in corporate account growth, loss of market share, price reductions, and decreased demand for our products, lower revenue, and diminished profitability. Moreover, if our competitors consolidate and leverage their financial strength to secure favorable financing terms, they may undertake aggressive actions such as further acquisitions, enhanced product development, and capacity expansion, potentially displacing demand for our products. In a fragmented market, any trend toward consolidation could place us at a competitive disadvantage, materially and adversely affecting our business, operational results, financial condition, and future prospects.

40. If we fail to maintain an effective system of internal controls, we may not be able to successfully manage, or accurately report, our financial risks.

Effective internal controls are necessary for us to prepare reliable financial reports and effectively avoid fraud. Moreover, any internal controls that we have or may implement, or our level of compliance with such controls, may deteriorate over time due to evolving business conditions. Further, failure or absence of adequate internal control systems may also affect our business operations. There can be no assurance that deficiencies in our internal controls will not arise in the future, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls. Any inability on our part to adequately detect, rectify or mitigate any such deficiencies in our internal controls may adversely impact our ability to accurately report, or successfully manage, our financial risks, and to avoid fraud.

41. *Change of Surname and Potential Confusion in Identification of our Promoters i.e. Mr. Manoj Upadhyay and Mrs. Nidhi Upadhyay*

On April 23, 2009, Mr. Manoj Sharma and Mrs. Nidhi Sharma legally changed their surnames to Upadhyay for personal reasons. As a result, Mr. Manoj Sharma is now Mr. Manoj Upadhyay, and Mrs. Nidhi Sharma is now Mrs. Nidhi Upadhyay. This name change has also been updated in all their KYC (Know Your Customer) records.

Although this change is personal, it has the potential to cause confusion, particularly in the company's official records, legal documents, and interactions with stakeholders executed or entered before April 23, 2009. Such name change may cause confusion and could pose risks in areas like corporate governance, regulatory compliance, and accurate identification during business transactions.

42. *Brand recognition is important to the success of our business, and our inability to build and maintain our brand name will harm our business, financial condition and results of operation.*

Brand recognition is important to the success of our business. Establishing and maintaining our brand name in the industry or for people relying on services is critical to the success of the customer acquisition process of our business. Although, we expect to allocate significant number of resources, financial and otherwise, on establishing and maintaining our brands, no assurance can be given that our brand name will be effective in attracting and growing user and client base for our businesses or that such efforts will be cost-effective, which may negatively affect our business, financial condition and results of operations.

The Company's success significantly depends on its brand recognition and reputation within the M.S. Structural Steel manufacturing industry. Failure to build and maintain strong brand name could adversely impact the Company's business, financial condition, and operation results.

Customers are more likely to choose and remain loyal to companies they recognise and trust, leading to increased revenue and market share. Strong brand recognition may allow the Company to command premium prices for its services compared to less-known competitors. A respected brand attracts and retains skilled professionals, further enhancing the Company's competitiveness. A well-established brand requires less marketing and advertising expenditure to reach target customers. If the Company fails to reach its target audience with its marketing and branding efforts, it may not achieve the desired level of brand recognition. Any negative publicity or reputational damage, such as accidents, service failures, or ethical lapses, could significantly erode brand equity and customer trust. The Steel industry is highly competitive, and established brands may significantly challenge the Company's efforts to build brand recognition. Customer preferences can shift over time, and the Company's brand may become less relevant or appealing if it fails to adapt to changing market trends.

43. *The directors of our Company do not have any experience in the Listed Company.*

Our company's directors lack experience of being Director in listed companies. There might be a potential inadequacy in navigating the complexities of corporate governance and regulatory compliance specific to public entities. Without a solid understanding of the intricacies involved in managing a publicly traded company, these directors may struggle to fulfil their fiduciary responsibilities effectively. This lack of experience can hinder their ability to provide meaningful oversight of management, assess risks appropriately, and engage in strategic decision-making. Consequently, the board may face challenges in addressing issues related to financial reporting, regulatory obligations, and shareholder communications. Such deficiencies could lead to mismanagement, compliance breaches, and reputational harm, ultimately undermining investor confidence and adversely impacting the company's performance and market valuation.

Further, as a publicly listed company, the Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of the Company's disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, the Board of Directors of the Company may have to provide increased attention to such procedures and their attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and

financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

44. Some of the KMPs is associated with our company for less than one year.

Our Key Management Personnel, Company Secretary & Compliance Officers have been associated with the Company for less than one year therefore they may not have been accustomed to the company affairs to date. For details of Key Management Personnel and their appointment, please refer to the chapter “Our Management” beginning on the page 198 of this Draft Red Herring Prospectus.

45. Our inability to effectively manage our growth or to successfully implement our business plan and growth strategy could have an adverse effect on our business, results of operations and financial condition.

We have experienced considerable growth over the past years. The details of Financial Performance of our company for half year ended on September 30, 2024 and FY 2024, 2023 and 2022 is as follows:

(₹ in Lakhs)

Key Financial Performance	For the half year ended on	For the Financial Year ended on		
	September 30, 2024	March 31, 2024	March 31, 2023	March 31, 2022
Revenue from Operations ⁽¹⁾	10,777.92	18,660.54	13,754.67	6,955.29
EBITDA Margin (%) ⁽²⁾	4.20	1.76	1.39	0.92
PAT Margin (%) ⁽³⁾	3.21	1.67	1.31	6.65

Notes:

⁽¹⁾ Revenue from Operations means the Revenue from Operations as appearing in the Restated Financial Statements

⁽²⁾ ‘EBITDA Margin’ is calculated as EBITDA divided by Revenue from Operations.

⁽³⁾ ‘PAT Margin’ is calculated as PAT for the period/year divided by revenue from operations.

We cannot assure you that our growth strategy will continue to be successful or that we will be able to continue to expand further, or at the same rate. Our inability to manage our expansion effectively and execute our growth strategy in a timely manner, or within budget estimates or our inability to meet the expectations of our customers and other stakeholders could have an adverse effect on our business, results of operations and financial condition.

C. OFFER RELATED RISK:

37. The Equity Shares have never been publicly traded and the Offer may not result in an active or liquid market for the Equity Shares.

The price of the Equity Shares may be volatile, and the investors may be unable to resell the Equity Shares at or above the Offer price, or at all. Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the stock exchanges may not develop or be sustained after the Issue.

Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India and volatility in the Stock Exchanges and securities markets elsewhere in the world.

38. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Offer until the Offer receives appropriate trading permissions.

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Draft Red Herring Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

39. Any future issuance of Equity Shares may dilute your shareholding and sales of our Equity Shares by major shareholders may adversely affect the trading price of the Equity Shares.

After the completion of the offer, our Promoters will own, directly and indirectly, over [●]% of our outstanding Equity Shares. Any future equity issuances by us, including in a primary offering, may lead to the dilution of your shareholdings. Any future equity issuances by us or sales of our Equity Shares by major shareholders may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares. There can be no assurance that our Company will not issue shares or that our significant shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

40. The Offer Price may not be indicative of the market price of the Equity Shares after the Offer.

Further, the current market price of some securities listed pursuant to certain previous issues managed by the Book Running Lead Managers is below their respective offer prices. You may be unable to resell the Equity Shares you purchase in the Offer at or above the Offer Price or at all.

The Offer Price may not be indicative of the market price for the Equity Shares after the Offer. The market price of the Equity Shares may fluctuate as a result of, among other things, the following factors:

- quarterly variations in our results of operations;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- changes in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third-parties or governmental entities of significant claims or proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of Key Managerial Personnel and Senior Management;
- a downgrade in the Government's credit rating;

- changes in exchange rates;
- fluctuations in stock market prices and volumes; and
- general economic and stock market conditions

In addition to the above, the current market price of securities listed pursuant to certain previous initial public offerings managed by the Book Running Lead Manager is below their respective offer price. *For further details, see “Price information of past issues handled by the Book Running Lead Managers” under chapter titled “Other Regulatory and Statutory Disclosures” on page 265 of this Draft Red Herring Prospectus.*

41. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Individual Bidders, who applies for minimum application size, are not permitted to withdraw their Bids after Bid/Offer Closing Date.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Individual Bidders, who applies for minimum application size, can revise their Bids during the Bid/Offer Period and withdraw their Bids until Bid/Offer Closing Date. While our Company is required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on the Stock Exchanges within three Working Days from the Bid/Offer Closing Date, events affecting the Bidders’ decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, profitability and margins, cash flows and financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders’ ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

42. In the event there is any delay in the completion of the Issue, or delay in schedule of implementation, there would be a corresponding delay in the completion of the objects of this Offer which would in turn affect our revenues and results of operations.

The funds that we receive would be utilized for the objects of the Offer as has been stated in the chapter titled “*Objects of The Offer*” on Page 96 of this Draft Red Herring Prospectus. The proposed schedule of implementation of the objects of the Offer is based on our management’s estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, it may adversely affect our revenues and results of operations.

EXTERNAL RISKS

After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.

The price of the Equity Shares on the stock exchange may fluctuate as a result of the factors, including:

- Volatility in the India and global capital market;
- Company’s results of operations and financial performance;
- Performance of Company’s competitors;
- Adverse media reports on Company;
- Changes in our estimates of performance or recommendations by financial analysts;
- Significant developments in India’s economic and fiscal policies; and
- Significant developments in India’s environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

A. Industry Related Risks:

43. Adverse macroeconomic conditions in India and globally could adversely affect our business, results of operations, profitability and margins, cash flows and financial condition.

Adverse macroeconomic conditions, both in India and globally, can significantly impact our business. Economic slowdowns reduce demand from key sectors such as construction and infrastructure, leading to lower sales and potential pricing pressure. Additionally, rising inflation can increase the cost of raw materials like iron ore and coal, squeezing

profit margins if these higher costs cannot be passed on to customers. Interest rate hikes and tighter credit conditions may increase borrowing costs, limiting access to capital for expansion and project financing, further challenging profitability and cash flow.

Global supply chain disruptions, such as delays in logistics or trade restrictions, can affect the timely delivery of materials and products, raising costs and impacting production schedules. Geopolitical tensions and fluctuations in currency exchange rates also pose risks, particularly for companies engaged in international trade. These factors, combined with the potential for regulatory changes, can result in increased operational challenges and financial instability for our company, necessitating strategies to manage these external risks effectively.

Further, other factors which may adversely affect the Indian economy are scarcity of credit or other financing in India; volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges; changes in India's tax, trade, fiscal or monetary policies; political instability, terrorism or military conflict in India or in countries in the region or globally; the occurrence of natural or man-made disasters; prevailing regional or global economic conditions, including in India's principal export markets; and other significant regulatory or economic developments in or affecting India.

44. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

Similarly, changes in labor laws, such as minimum wage hikes or mandatory worker benefits, can increase our operational costs, especially if companies need to hire more workers or provide additional compensation. Additionally, tighter regulations on safety standards could lead to higher operational expenditures related to worker protection and training.

45. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations.

46. The emergence and effects related to a pandemic, epidemic or outbreak of an infectious disease could adversely affect our operations.

We might be adversely affected by events outside of our control, including widespread public health issues, such as epidemic or pandemic infectious diseases, natural disasters such as earthquakes, floods or severe weather, political events such as terrorism, military conflicts and trade wars, and other catastrophic events. We face risks related to health epidemics and pandemics, including risks related to any responses thereto by the government of India, as well as our customers and suppliers.

Any future disruption in our ability to service our customers could have an adverse effect on our revenue, results of operations, and cash flows. We also face risks related to a downturn in our customers' respective businesses, due to government restrictions such as lockdowns. An economic slowdown or recession due to health epidemics and pandemics, including the recurrence of the COVID-19 pandemic or a similar variant of the disease, may affect our customers' ability to obtain credit to finance their business on acceptable terms, which could result in reduced spending on our product offerings.

47. Malpractices by some players in the industry affect overall performance of emerging Companies

Unethical practices such as undercutting prices, using substandard materials, or falsifying certifications create unfair competition, making it difficult for companies to compete on a level playing field. These practices can lead to market distortions, where legitimate companies struggle to maintain profitability or grow due to artificially lowered prices or compromised product quality.

Furthermore, malpractices can erode customer trust and tarnish the reputation of the industry as a whole. Company, especially those focused on quality and transparency, may face challenges in building credibility in such an environment. Regulatory bodies may also impose stricter controls in response to these malpractices, increasing compliance costs and operational complexity for all players in the industry. Ultimately, these unethical behaviors can stifle innovation, reduce market share, and hinder the long-term growth prospects of the company.

48. *If inflation rises in India, increased costs could result in a decline in profits.*

If inflation rises in India, it could lead to increased costs for key inputs in our business, such as raw materials (iron ore, coal, steel scrap), energy, and labor. Higher raw material costs would directly impact production expenses, and if these costs cannot be fully passed on to customers due to competitive pricing pressures, profit margins could shrink. Additionally, inflation may lead to higher transportation and logistics costs, further exacerbating the financial strain on business.

In such an environment, we may also face challenges in maintaining cash flow, as rising operational costs could outpace revenue growth. The increased cost of borrowing, due to rising interest rates, could further affect profitability by increasing debt servicing costs. As a result, the combination of higher input costs, tighter margins, and potential reductions in consumer demand due to economic uncertainty could significantly lower profits for our business in an inflationary scenario.

49. *Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance.*

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

50. *We are subject to risks arising from interest rate fluctuations, which could adversely impact our business, financial condition and operating results.*

Changes in interest rates could significantly affect our financial condition and results of operations. If the interest rates for our existing or future borrowings increase significantly, our cost of servicing such debt will increase. This may negatively impact our results of operations, planned capital expenditures and cash flows.

51. *We may be affected by competition law in India and any adverse application or interpretation of the Competition Act may in turn adversely affect our business.*

The Competition Act, 2002, as amended (the “Competition Act”) prohibits any anti-competitive agreement or arrangement, understanding or action in concert between enterprises, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition in India. Any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services in any manner by way of allocation of geographical area, type of goods or services or number of consumers in the relevant market or in any other similar way or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition.

Furthermore, if the Competition Commission of India (CCI) investigates or imposes sanctions, it could harm the company's reputation, reduce market confidence, and affect customer relationships. The Competition Act also prohibits abuse of a dominant position by any enterprise. The combination regulation (merger control) provisions under the Competition Act require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by, the Competition Commission of India (“CCI”). The Competition Act was amended in April 2023 and the amendment strengthens the merger control by providing for faster timelines for merger approvals and strengthens the punishment for violations. Any breach of the provisions of Competition Act, may attract substantial monetary penalties.

The Competition Act aims to, among other things, prohibit all agreements and transactions, which may have an appreciable adverse effect in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable adverse effect in India. We are not currently party to any outstanding proceedings, nor have we ever received any notice in relation to non-compliance with the Competition Act. The applicability or interpretation of the Competition Act to any merger, amalgamation or acquisition proposed by us, or any enforcement proceedings initiated by the CCI in future, or any adverse

publicity that may be generated due to scrutiny or prosecution by the CCI may affect our business, results of operations, profitability and margins, cash flows and financial condition.

52. Any adverse change in India's sovereign credit rating by an international rating agency could adversely affect our business and results of operations.

Our borrowing costs and our access to the international debt capital markets depend significantly on India's sovereign ratings. India's sovereign debt rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our Company's control. Any adverse revisions to India's credit ratings by international rating agencies may adversely affect the terms on which we are able to raise additional finances or refinance any existing indebtedness. This could have an adverse effect on our business growth and financial performance, ability to obtain financing and the price of the Equity Shares.

B. OTHER RISKS:

53. Investors may have difficulty enforcing foreign judgments against our Company or our management.

Our Company is incorporated under the laws of India as a company limited by shares. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce judgments obtained against such parties outside India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if that court was of the view that the amount of damages awarded was excessive or inconsistent with public policy, or if judgments are in breach or contrary to Indian law. In addition, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI to execute such a judgment or to repatriate outside India any amounts recovered.

54. You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares are generally taxable in India. Any capital gain realized on the sale of listed equity shares on a recognized stock exchange held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains tax in India at the specified rates depending on certain factors, such as the quantum of gains, and any available treaty relief, among others. Any capital gain realized on sale of listed equity shares on a recognized stock exchange held for not more than 12 months immediately preceding the date of transfer will be subject to short term capital gains tax.

The Government of India announced the interim union budget for Financial Year 2024-2025, following which the Finance Bill, 2024 ("**Finance Bill**") was introduced in the Lok Sabha on February 1, 2024. The Finance Bill received the assent from the President of India and became the Finance Act, 2024, with effect from April 1, 2024 ("**Finance Act 2024 I**"). Subsequently, upon announcement of the union budget for Financial Year 2024-2025 after the general elections, the Government of India notified the Finance Act (No.2) Act, 2024 ("**Finance Act 2024 II**").

Pursuant to amendments notified by the Finance Act 2024 II, long term capital gains exceeding the exempted limit of ₹125,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12.5% (plus applicable surcharge and cess), without benefit of indexation. Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax at the rate of 20% (plus applicable surcharges and cess) for transfers taking place after July 23, 2024. A securities transaction tax ("STT") will be levied on and collected by an Indian stock exchange on which our Equity Shares are sold.

Any gain realized on the sale of our Equity Shares other than on a recognized stock exchange (where no STT has been paid), will also be subject to short term capital gains tax or long-term capital gains tax, at such rates as may be applicable under the Income Tax Act. Further, capital gains arising from the sale of our Equity Shares will be exempt from taxation in India in cases where an exemption is provided under a treaty between India and the country of which the seller is a resident, subject to certain conditions being met. Subject to any relief available under an applicable tax treaty or under the laws of their own jurisdictions, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of our Equity Shares. Investors are advised to consult their own tax advisors to understand their tax liability as per the laws prevailing on the date of disposal of Equity Shares.

The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. The Finance Act, 2020, has, inter

alia, amended the tax regime, including a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, that such dividends not be exempt in the hands of the shareholders, and that such dividends are likely to be subject to tax deduction at source. Further, pursuant to the Finance Act 2024 II, any payment received by the shareholders from the Company pursuant to buyback of shares undertaken after October 1, 2024 on account of buy back of shares shall be taxable as dividend and no deduction from such dividend income shall be allowed.

Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares. Further, we cannot predict whether any amendments made pursuant to the Finance Act 2024 II or any subsequent legislation would have an adverse effect on our business, results of operations and financial condition. Unfavorable changes in or interpretations of existing laws, rules and regulations, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

55. Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.

Our Company has not declared dividends in the past. Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, working capital requirements, capital expenditure and restrictive covenants of our financing arrangements. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot assure you that we will be able to pay dividends in the future.

56. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and our industry contained in this Draft Red Herring Prospectus.

While facts and other statistics in this Draft Red Herring Prospectus relating to India, the Indian economy and our industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “***Our Industry***” beginning on page 120 of this Draft Red Herring Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

57. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements, prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Red Herring Prospectus.

As stated in the reports of the Auditor included in this Draft Red Herring Prospectus under chapter “***Financial Statements as Restated***” beginning on page 230 of this Draft Red Herring Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Draft Red Herring Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Draft Red Herring Prospectus. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

58. We may not receive final listing and trading approvals from the Stock Exchanges and you will not be able to sell immediately on an Indian Stock Exchange any of the Equity Shares you are allotted in the Offer.

Under the SEBI ICDR Regulations, we are permitted to list the Equity Shares within three working days of the Bid/Offer closing Date. Consequently, the Equity Shares you purchase in the Offer may not be credited to your dematerialized electronic account with Depository Participants until approximately three working days after the Bid/ Offer closing Date. You can start trading in the Equity Shares only after they have been credited to your dematerialized electronic account and final listing and trading approvals are received from the Stock Exchanges.

Further, there can be no assurance that the Equity Shares allocated to you will be credited to your dematerialized electronic account, or that trading in the Equity Shares will commence within the specified time periods. In addition, pursuant to India regulations, certain actions are required to be completed before the Equity Shares can be listed and trading may commence. Investors' book entry or dematerialized electronic accounts with Depository Participants in India are expected to be credited only after the date on which the Issue and allotment is approved by our Board of Directors. There can be no assurance that the Equity Shares allocated to prospective Investors will be credited to their dematerialized electronic accounts, or that trading will commence on time after allotment has been approved by our Board of Directors, or at all.

The SEBI ICDR Regulations have permitted the Offer of securities to the public through the Book Building Process, wherein allocation to the public shall be made as per Regulation 253 of the SEBI ICDR Regulations.

The Offer is being made through the Book Building Process wherein not more than 50% of the Net Offer shall be available for allocation on a proportionate basis to QIBs, provided that our Company may in consultation with the Book Running Lead Manager allocate upto 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI (ICDR) Regulations (the "Anchor Investor Portion"), out of which one third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Offer Price. 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Net Offer shall be available for allocation to Non-Institutional Bidders out of which (a) one third of such portion shall be reserved for applicants with application size of more than ₹200,000 and up to ₹1,000,000; and (b) two third of such portion shall be reserved for applicants with application size of more than ₹1,000,000, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders and not less than 35% of the Net offer shall be available for allocation to Individual Bidders, who applies for minimum application size,, in accordance with the SEBI Regulations, subject to valid Bids being received at or above the Offer Price. All potential Bidders may participate in the Offer through an ASBA process by providing details of their respective bank account which will be blocked by the SCSBs. All Bidders are mandatorily required to utilize the ASBA process to participate in the Offer. Under-subscription if any, in any category, except in the QIB Category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Designated Stock Exchange.

All Bidders, except Anchor Investors, are mandatorily required to use the ASBA process for participating in the Offer. In accordance with the SEBI ICDR Regulations, QIBs bidding in the QIB Portion and Non-Institutional Bidders bidding in the Non-Institutional Portion are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Individual Bidders, who applies for minimum application size, can revise their Bids during the Bid / Offer Period and withdraw their Bids until the Bid / Offer Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid / Offer Period. Allocation to the Anchor Investors will be on a discretionary basis.

Subject to valid Bids being received at or above the Offer Price, allocation to all categories in the Net Offer, shall be made on a proportionate basis, except for Retail Portion where allotment to each Individual Bidders, who applies for minimum application size, shall not be less than the minimum bid lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under – subscription, if any, in any category, would be allowed to be met with spill – over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (except Anchor Investors) applying in a public offer shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public offer may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. *For details in this regards, specific attention is invited to the chapter titled "Offer Procedure" beginning on page 293 of the Draft Red Herring Prospectus.*

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Offer.

For further details on the method and procedure for Bidding, please see section entitled “Offer Procedure” on page 293 of this Draft Red Herring Prospectus.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹24.00 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Amount (₹)	Cumulative Quantity	Subscription
500	24.00	500	16.67%
1000	23.00	1500	50.00%
1500	22.00	3000	100.00%
2000	21.00	5000	166.67%
2500	20.00	7500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22 in the above example. The Issuer, in consultation with the Book Running Lead Manager, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹22. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled “Offer Procedure” on page 293 of this Draft Red Herring Prospectus);
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Offer will obtain the Demographic Details of the Bidders from the Depositories.
- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Draft Red Herring Prospectus and in the Bid cum Application Form;

Note:

1. Our Company in consultation with the Book Running Lead Manager may consider participation by Anchor Investors in accordance with the SEBI ICDR Regulations. The Anchor Investor Bid / Offer Period shall be one Working Day prior to the Bid / Offer Opening Date in accordance with the SEBI ICDR Regulations.
2. Our Company in consultation with the Book Running Lead Manager, consider closing the Bid/Offer Period for QIBs one Working Day prior to the Bid/Offer Closing Date in accordance with the SEBI ICDR Regulations.
3. UPI mandate end time and date shall be at 5:00 pm IST on Bid/ Offer Closing Date, i.e. [●].

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 3 Working Days of the

Bid / Offer Closing Date, the timetable may change due to various factors, such as extension of the Bid / Offer Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws. Bid Cum Application Forms and any revisions to the same will be accepted only between 10.00 A.M. to 5.00 P.M. (IST) during the Offer period (except for the Bid / Offer Closing Date). On the Bid / Offer Closing Date, the Bid Cum Application Forms will be accepted only between 10.00 A.M. to 3.00 P.M. (IST) for retail and non-retail Bidders. The time for applying for Individual Applicant on Bid / Offer closing Date maybe extended in consultation with the the Book Running Lead Manager, RTA and SME Platform of BSE Limited (“BSE SME”) taking into account the total number of applications received up to the closure of timings.

Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid / Offer Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid / Offer Closing Date and, in any case, not later than 3.00 P.M. (IST) on the Bid / Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid / Offer Closing Date, as is typically experienced in public Offer, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software / hardware system or otherwise. In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Individual Applicants can revise or withdraw their Bid Cum Application Forms prior to the Bid / Offer Closing Date. Allocation to Individual Applicants, in this Offer will be on a proportionate basis. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stockbrokers, as the case may be, for the rectified data.

Offer Closing Date	
Submission and Revision of Application Form	Only between 10.00 a.m. to 3.00*# p.m. IST

*UPI mandate end time and date shall be at 5.00 pm on Offer / Offer Closing Date

On the Offer Closing Date, the Applications shall be uploaded until:

- Until 4.00 p.m. IST in case of application by QIBs and Non – Institutional Investors and
- Until 5.00 p.m. IST or such extended time as permitted by the Stock Exchange, in case of Individual Investors which may be extended up to such time as deemed fit by the Stock Exchange after taking into account the total number of applications received up to the closure of timings and reported by Book Running Lead Manager to the Stock Exchange.

Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid / Offer Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid / Offer Closing Date and, in any case, not later than 3.00 P.M. (IST) on the Bid / Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid / Offer Closing Date, as is typically experienced in public Offer, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software / hardware system or otherwise.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their Application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Individual Applicants can revise or withdraw their Bid Cum Application Forms prior to the Bid / Offer Closing Date. Allocation to Individual Applicants, in this Offer will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

WITHDRAWAL OF THE OFFER

In accordance with the SEBI (ICDR) Regulations, our Company in consultation with Book Running Lead Manager, reserves the right not to proceed with this offer at any time after the Offer Opening Date, but before our Board meeting for Allotment without assigning reasons thereof.

If our Company withdraws the Offer after the Offer closing Date, we will give reason thereof within two days by way of a public notice which shall be published in the same newspapers where the pre-issue advertisements were published.

Further, the Stock Exchanges shall be informed promptly in this regard and the Book Running Lead Manager, through the Registrar to the Issue, shall notify the SCSBs to unblock the Bank Accounts of the ASBA Applicants within one Working Day from the date of receipt of such notification.

In case our Company withdraws the Offer after the Offer Closing Date and subsequently decides to undertake a public offering of Equity Shares, our Company will file a fresh Offer Document with the Stock Exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is also subject to obtaining the final Listing and Trading Approval of the Stock Exchange, which the Company shall apply for after Allotment. In terms of the SEBI Regulations, Non-Retail Applicants shall not be allowed to withdraw their Application after the Offer Closing Date.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitments set forth in the table above. Notwithstanding the above table, the Book Running Lead Manager shall be responsible for ensuring

payment with respect to Equity Shares allocated to investors procured by them. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the underwriting agreement, will also be required to procure / subscribe to Equity Shares to the extent of the defaulted amount. If the Underwriter(s) fails to fulfil its underwriting obligations as set out in the Underwriting Agreement, the Book Running Lead Manager shall fulfil the underwriting obligations in accordance with the provisions of the Underwriting Agreement.

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS OFFER

Our Company has entered into Market Making Agreement dated March 24, 2025 with the Book Running Lead Manager and Market Maker to fulfil the obligations of Market Making:

The details of Market Maker are set forth below:

Name	Gretex Share Broking Limited
Address	A-401, Floor 4th, Plot FP-616, (PT), Naman Midtown, Senapati Bapat Marg, Near Indiabulls Dadar (W), S V S Marg, Mumbai- 400013, Maharashtra, India

Contact Person	Mr. Deepak Navinchandra Shah
CIN	U65900MH2010PLC289361
SEBI Registration No.	INZ000166934
Market Maker Member code	90287

Gretex Share Broking Limited, registered with SME Platform of BSE Limited and Emerge Platform of National Stock Exchange of India Limited will act as the Market Maker and has agreed to receive or deliver the specified securities in the Market Making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the SME Platform of BSE Limited and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making Arrangement:

- 1) The Market Maker (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the Stock Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
- 2) The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the BSE SME (SME platform of BSE) and SEBI from time to time.
- 3) The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the SME platform of BSE Limited (in this case currently the minimum trading lot size is [●] equity shares; however, the same may be changed by the SME platform of BSE Limited from time to time).
- 4) The minimum depth of the quote shall be ₹1.00 Lakhs. However, the investors with holdings of value less than ₹1.00 Lakhs shall be allowed to offer their holding to the Market Maker in that scrip provided that they sell their entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
- 5) After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Shares of market maker in our Company reaches to 25% (Including the 5% of Equity Shares of the Offer). Any Equity Shares allotted to Market Maker under this Offer over and above 25% of Equity Shares would not be taken in to consideration of computing the threshold of 25%. As soon as the Shares of market maker in our Company reduce to 24%, the market maker will resume providing 2-way quotes.
- 6) There shall be no exemption / threshold on downside. However, in the event the market maker exhausts his inventory through market making process, the concerned stock exchange may intimate the same to SEBI after due verification.
- 7) Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.

- 8) There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Gretex Share Broking Limited is acting as the sole Market Maker.
- 9) The shares of the Company will be traded in continuous trading session from the time and day the company gets listed at SME Platform of BSE Limited (“BSE SME”) and Market Maker will remain present as per the guidelines mentioned under the BSE Limited and SEBI circulars.
- 10) There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- 11) The Market Maker shall have the right to terminate said arrangement by giving a three-month notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker.
- 12) In case of termination of the above-mentioned Market Making Agreement prior to the completion of the compulsory Market Making Period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of Regulation 261 of the SEBI (ICDR) Regulations. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.
- 13) SME Platform of BSE Limited (“BSE SME”) will have all margins which are applicable on the BSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE Limited can impose any other margins as deemed necessary from time-to-time.
- 14) SME Platform of BSE Limited (“BSE SME”) will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.
- 15) The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.
- 16) Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for offer size up to ₹250 crores the applicable price bands for the first day shall be:
 - a. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - b. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the offer price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The following spread will be applicable on the SME Platform of BSE Limited (“BSE SME”).

Sr. No.	Market Price Slab (in ₹)	Proposed Spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

- 17) Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market maker(s) during market making process has been made applicable, based on the offer size and as follows:

Offer Size	Buy quote exemption threshold (Including mandatory initial inventory of 5 % of the Offer Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5 % of the Offer Size)
Up to ₹ 20 Crores	25%	24%
₹ 20 to ₹ 50 Crores	20%	19%
₹ 50 to ₹ 80 Crores	15%	14%
Above ₹ 80 Crores	12%	11%

- 18) All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

On the first day of listing, there will be a pre-open session (call auction) and there after trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity Shares on the Stock Exchange.

Assuming full subscription to the Offer.

The Equity Shares that are being locked-in are not, and will not be, ineligible for computation of Promoters' Contribution under Regulation 237 of the SEBI (ICDR) Regulations, 2018. In this computation, as per Regulation 237 of the SEBI (ICDR) Regulations, our Company confirms that the Equity Shares locked-in do not, and shall not, consist of:

- The Equity Shares offered for minimum 20% Promoter's Contribution have not been acquired in the three years preceding the date of this Draft Red Herring Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoter's contribution;
- The minimum Promoter's contribution does not include Equity Shares acquired during the one year preceding the date of this Draft Red Herring Prospectus at a price lower than the Offer Price;
- No equity shares have been issued to our Promoters upon conversion of a partnership firm during the preceding one year at a price less than the Offer Price
- The Equity Shares held by the Promoters and offered for minimum Promoter's contribution are not subject to any pledge;
- All the Equity Shares of our Company held by the Promoters are in dematerialized form and
- The Equity Shares offered for Promoter's contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoters for inclusion of its subscription in the Promoters contribution subject to lock-in.

We further confirm that our Promoter's Contribution of 20% of the Post Offer Equity does not include any contribution from Alternative Investment Funds or FVCI or Scheduled Commercial Banks or Public Financial Institutions or Insurance Companies.

19. Equity Shares locked-in for one year or two years in phased manner other than Minimum Promoters' Contribution

The entire pre-offer shareholding of the Promoters, other than the Minimum Promoter's contribution which is locked in for three years, shall be locked in a phased manner from the date of allotment in this offer as below:

- 50% promoters' holding shall be locked in for 1 year
- 50% promoters' holding shall be locked in for 2 years

In addition to the Minimum Promoter's contribution which is locked in for three years, as specified above, the balance upto 45,24,578 Equity Shares held by the Promoters shall be released in a phased manner i.e., lock-in for 50% of upto 22,62,289 Equity Shares shall be released after one year and remaining 50% of upto 22,62,289 Equity Shares shall be released after two years.

In terms of Regulation 239 of the SEBI ICDR Regulations, the entire pre-offer capital held by the persons other than the Promoters shall be locked in for a period of one year from the date of Allotment in this offer. Accordingly, 5,01,000 Equity Shares held by the Persons other than the Promoter shall be locked in for a period of one year from the date of Allotment in this offer.

20. Inscription or Recording of non-transferability

In terms of Regulation 241 of the SEBI (ICDR) Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription “Non-Transferable” and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock in is recorded by the Depository. The details of lock-in of the Equity Shares shall also be provided to the Designated Stock Exchange before the listing of the Equity Shares.

21. Pledge of Locked in Equity Shares

Pursuant to Regulation 242 of the SEBI (ICDR) Regulations, 2018, the locked-in Equity Shares held by our Promoters can be pledged with any scheduled commercial bank or public financial institution or systematically important non-banking finance company or a housing finance company as collateral security for loans granted by them, provided that:

if the equity shares are locked-in in terms of clause (a) of Regulation 238, the loan has been granted to the company or its subsidiary(ies) for the purpose of financing one or more of the objects of the Offer and pledge of equity shares is one of the terms of sanction of the loan;

if the specified securities are locked-in in terms of clause (b) of Regulation 238 and the pledge of specified securities is one of the terms of sanction of the loan.

Provided that such lock-in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock-in period stipulated in these regulations has expired.

22. Transferability of Locked in Equity Shares

In terms of Regulation 243 of the SEBI (ICDR) Regulations, 2018 and subject to provisions of SEBI (SAST) Regulations, 2011 as applicable;

The Equity Shares held by our Promoters and locked in as per Regulation 238 of the SEBI (ICDR) Regulations, 2018 may be transferred to another Promoters or any person of the Promoter Group or to a new promoter(s) or persons in control of our Company, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

The equity shares held by persons other than promoters and locked in as per Regulation 239 of the SEBI (ICDR) Regulations, 2018 may be transferred to any other person (including Promoters and Promoter’s Group) holding the equity shares which are locked-in along with the equity shares proposed to be transferred, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

23. Our Company, our Directors and the Book Running Lead Manager to this Offer have not entered into any buy-back or similar arrangements with any person for purchase of our Equity Shares issued by our Company.
24. As on date of this Draft Red Herring Prospectus, there are no partly paid-up equity shares and all the Equity Shares of our Company are fully paid up. Further, since the entire money in respect of the Offer is being called on application, all the successful applicants will be issued fully paid-up equity shares.
25. As on the date of filing of this Draft Red Herring Prospectus, there are no outstanding warrants, options or rights to convert debentures, loans or other instruments which would entitle Promoters or any shareholders or any other person any option to acquire our Equity Shares after this Initial Public Offer.
26. As on the date of this Draft Red Herring Prospectus, the Book Running Lead Manager and their respective associates (as defined under the Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992) do not hold any Equity Shares of our Company. The Book Running Lead Manager and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.

27. Investors may note that in case of over-subscription, allotment will be on proportionate basis as detailed under "**Basis of Allotment**" in the chapter titled "**Offer Procedure**" beginning on page 293 of this Draft Red Herring Prospectus. In case of over-subscription in all categories the allocation in the Offer shall be as per the requirements of Regulation 253 (3) of SEBI (ICDR) Regulations, as amended from time to time.
28. An over-subscription to the extent of 10% of the Net Offer can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Offer. Consequently, the actual allotment may go up by a maximum of 10% of the Offer, as a result of which, the post Offer paid up capital after the Offer would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoters and subject to lock-in shall be suitably increased; so as to ensure that 20% of the post Offer paid-up capital is locked in.
29. Our Company has not raised any bridge loan against the proceeds of this Offer. However, depending on business requirements, we might consider raising bridge financing facilities, pending receipt of the Net Proceeds.
30. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
31. The unsubscribed portion in any reserved category (if any) may be added to any other reserved category.
32. The unsubscribed portion if any, after such inter se adjustments among the reserved categories shall be added back to the net Offer to the public portion.
33. Our Company shall comply with such accounting and disclosure norms as specified by SEBI from time to time.
34. There are no Equity Shares against which depository receipts have been issued.
35. As per RBI regulations, OCBs are not allowed to participate in this offer
36. This Offer is being made through Book Built Method.
37. In terms of Rule 19(2)(b)(i) of the Securities Contracts (Regulation) Rules, 1957, as amended, (the SCRR) the Offer is being made for at least 25% of the post-offer paid-up Equity Share capital of our Company. Further, this Offer is being made in terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time. No payment, direct or indirect in the nature of discount, commission, allowances or otherwise shall be made either by us or our Promoters to the persons who receive allotments, if any, in this Offer.
38. No person connected with the Offer shall offer any incentive, whether direct or indirect, in the nature of discount, commission, and allowance, or otherwise, whether in cash, kind, services or otherwise, to any Applicant.
39. None of our Promoters and Promoter Group will participate in the Offer.

Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of filing this Draft Red Herring Prospectus and the Offer Closing Date shall be reported to the Stock Exchange within twenty-four hours of such transaction.

- i. Capital Expenditure towards purchase of Machinery & Dies
- ii. Capital Expenditure towards installation of Solar Plant
- iii. To meet Working Capital Requirements
- iv. General Corporate Purposes

In addition to the objects mentioned above, our Company intends to strengthen its capital base and expects to receive the benefits of listing of the Equity Shares on the Stock Exchanges, including among other things, enhancing the visibility of our brand among our existing and potential customers. We believe that listing will enhance our corporate image, brand name and create a public market for Equity Share of our Company in India and will further enable us to avail future growth opportunities.

We currently manufacture high-quality M.S. Channels and products such as M.S. Joist/Beams, M.S. Angles, M.S. Square bars, M.S. Round bars & M.S. Flats are traded as per dealer requisitions. Our major revenue comes from the production and sale of M.S. Channels, which are commonly used across various industries, Railways, Telecom Industries, State Electricity Boards, Power & Energy Industries, Automotive Industry, Offshore Structures, Construction Industries, Fabrication Industries, Auto Body Builders, Infrastructural Development Authorities. By offering these mild steel products, we cater to the diverse needs of various industries, providing reliable and durable solutions. We believe that expanding the production of our product range will enable us to meet the additional needs of various customer segments. To achieve this benchmark, we need to enhance our production process by adding Billet Shearing Machine, Hot Saw Machine, 3 Hi Mill Stand Machine, Roller Conveyer and Die End Rolls in order to improve our overall production efficiency.

The main object clause and the ancillary object clause of the Memorandum of Association of our Company enable us to undertake our existing activities and the activities for which we are raising funds through the Offer. The existing activities of our Company are within the object clause of our Memorandum.

Utilization of Net Fresh Offer Proceeds

The Net Fresh Offer Proceeds are proposed to be used in the manner set out in the following table:

(₹ in lakhs)

Sr. No.	Particulars	Total Estimated Expenditure	Amount to be financed from Internal Accruals/ Borrowings	Amount to be financed and deployed from Net IPO Proceeds by the Financial Year ended March 31, 2026
1	Capital Expenditure towards purchase of Machinery and Dies	267.45	-	267.45
2	Capital Expenditure towards installation of Solar Plant	700.00	-	700.00
3	To meet Working Capital Requirements	5,554.62	4,636.62	918.00
4	General Corporate Purposes*	[●]	[●]	[●]
	Total	[●]	[●]	[●]

*To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC.

*General Corporate Purpose shall not exceed 15% of the Gross Issue Proceeds or 10 crores whichever is lesser in accordance with Regulation 230(2) of the SEBI ICDR Regulation, 2018 read along with SEBI ICDR Regulation (Amendment) Regulations, 2025

We intend to deploy the Net Proceeds towards the Objects as disclosed in the table above, in accordance with the business needs of our Company. However, the actual funding requirements and deployment of the Net Proceeds as described herein are based on various factors, such as, our current business plan, management estimates, current circumstances of our business, quotations received from vendors, timing of completion of the Offer, market conditions, our Board's analysis of economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations and financial condition.

Depending on such factors, we may have to reduce, revise or extend the deployment period for the stated Objects, at the discretion of our management and in accordance with applicable laws. In the event that the estimated utilization of the Net Proceeds in a scheduled Fiscal is not completely met, including due to the reasons stated above, then it shall be utilized in the next Fiscal, as may be determined by our Company, in accordance with applicable laws. Our historical expenditure may not be reflective of our future expenditure plans.

The above fund requirements are based on our current business plan as approved by our Board of Directors pursuant to their resolution dated March 29, 2025, management estimates based on the prevailing market conditions, other commercial and technical factors including interest rates and other charges, quotations received from vendor, all of which are subject to change in the future. The proposed deployment of the Net Proceeds has not been appraised by any bank, financial institution or agency. These are based on current conditions and are subject to revisions in light of changes in costs, our financial condition, our business operations or growth strategy or external circumstances which may not be in our control. We may have to revise our funding requirements and deployment of the Net Proceeds from time to time on account of various factors, such as financial and market conditions, business and strategy, competitive environment and interest or exchange rate fluctuations, increase in labour costs, logistics and transport costs, incremental preoperative expenses, taxes and duties, interest and finance charges, regulatory costs, environmental factors and other external factors, which may not be within the control of our management. For further information on factors that may affect our internal management estimates, see ***“Risk Factor No 29, The objects of the Offer have not been appraised by any bank or financial institution and we cannot assure you that the objects of the Offer will be achieved within the expected time frame, or at all, and any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval”*** on page 35 of this Draft Red Herring Prospectus.

In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals or borrowings. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Issue, our Company may deploy certain amounts towards any of the above-mentioned Objects through a combination of Internal Accruals or Borrowings.

Means of Finance:

The above-mentioned fund requirement will be met from the proceeds of the Offer. We intend to fund the shortfall, if any, from internal accruals or debt finance.

Since the fund requirements set out for the aforesaid Objects of the Issue are proposed to be met entirely from the Net Proceeds, internal accruals and borrowings. Accordingly, we confirm that we are in compliance with the requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI (ICDR) Regulations, 2018 through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Net Proceeds and existing identifiable internal accruals.

For further details on the risks involved in our business plans and executing our business strategies, please see the chapter titled “Risk Factors” beginning on page 35 of this Draft Red Herring Prospectus.

The factory covers an area of approximately 2,675.60 square meters on the aforementioned plot. Furthermore, the company has constructed an office space on the above plot admeasuring 360.28 square meters. Additionally, the company has about 7,357.87 square meters of open space utilized for storage facilities and leaving room for future expansion. Our installed capacity and current utilization of this capacity is as detailed below:

Particulars	Installed Capacity for Single Shift (In MT)	Actual Production (In MT)

As certified by Surendra Singh Chauhan., Chartered Engineer, pursuant to their certificate dated February 19, 2025.

⁽¹⁾ Non Annualised

The company is currently running at a capacity of approx. 52% (Annualised) where the major focus is on production of M.S. Channels. To scale the production and meet market demand, the company would need to invest in new equipment, die end rolls, and manage the increased inventory levels. This will require a significant working capital investment to cover the costs of new manufacturing capabilities, inventory expansion, and the associated operational expenses.

To address the increasing demand in the steel industry as mentioned under chapter titled “Our Industry” on page 120 of this Draft Red Herring Prospectus, we are taking steps to significantly expand our production. This expansion involves the installation of 11 additional machines which includes 1 Billet Shearing Machine, 2 Hot Saw Machine, 1 3 Hi Mill Stand, 7 Roller Conveyor and 83 new Die End rolls. As part of this strategic investment, we anticipate incurring significant expenditure, amounting to ₹ 267.45 Lakhs, which will be funded from the net proceeds of the offer. This investment in Plant & Machinery will substantially augment our current production capabilities, allowing us to meet the increasing demand from the market. Through this expansion, we aim to strengthen our market position and further capitalize on the growing opportunities within the structural steel sector.

The addition of these machines will improve production efficiency by reduction in processing costs and lead times, enhancing our operational efficiency and enabling us to scale production to its full capacity. The new die end rolls will also allow us to produce a wider range of products. Furthermore, the automation introduced in the machinery will help lower labour costs. This expansion is expected to lead to increased sales volume and overall profitability.

With the anticipated increase in production the company will require an additional machine since company currently operates with only one billet shearing machine. Therefore, as part of the utilization of IPO proceeds, the company plans to acquire a new billet shearing machine. The billet shearing machine plays a crucial role in cutting billets into precise lengths, which is essential for the smooth and efficient production of steel products. By adding this machine to our existing setup, we can enhance the speed and accuracy of our shearing process, reduce manual labour and shorten lead

time. This will not only improve production efficiency but also help in reducing operational costs, ensuring a more streamlined and cost-effective manufacturing process.

Additionally, the company currently uses a traditional manual cutting machine for finished products. To achieve a higher-quality finished edge, the company intends to introduce a new **automated hot saw machine**. This machine will automate the cutting process, ensuring a more precise finish.

Our company plans to invest in a **3 Hi Mill Stand** by replacing the traditional Hi Mill Stand we currently use. The 3 Hi Mill Stand offers enhanced control and precision, with the work roll sandwiched between two smaller rolls, providing better support and more even pressure distribution. This reduces deflection, ensures consistent thickness control, and results in improved surface quality, reduced wear on the rolls, and better efficiency, especially when producing thinner, high-quality metal sheets or strips. Additionally, this investment will help reduce manual work by automating the rolling process, minimizing the need for manual adjustments and interventions. As a result, we will reduce direct costs, particularly labour costs, by streamlining production, reducing reliance on manual labour, and increasing overall operational efficiency.

Also, our company plans to invest in the purchase of a **roller conveyor system** to automate material handling in Mill - A, significantly reducing labour costs and improving operational efficiency. The roller conveyor will streamline the transportation of steel products, such as billets, ingots, and finished goods, reducing the need for manual labour and minimizing the risk of human error. This automation will allow for smoother, continuous movement of materials, enabling our workforce to focus on more strategic tasks while the system handles repetitive labour-intensive processes. The proceeds from the IPO will help to fund this investment, allowing us to modernize our production capabilities, enhance productivity, and lower direct labour costs, ultimately driving long-term growth and efficiency for the company.

The company aims to produce high-quality structural steel products, including M.S. Joists/Beams, M.S. Angles, M.S. Square Bars, M.S. Round Bars, and M.S. Flats, which are currently being traded and as a part of our strategic expansion plan, we are **investing in Die end rolls** that will significantly enhance our manufacturing capabilities. With this investment, we will be able to diversify our product offerings. This will not only allow us to meet the varying needs of our customers but also help us to tap into new market segments, thereby attracting more dealers and broadening our customer base.

Overall, by using the IPO proceeds for these purposes, we plan to strengthen our position in the market, reduce wait times, and make our production more flexible, while increasing revenue by offering more products and reaching a wider audience. This increase in capacity will help us use between 65% and 80% of our full production potential, depending on customer demand and market conditions, giving us the ability to adjust to changes in demand and keep operations running smoothly. We expect to yield the following benefits from this capital expenditure:

- **Improve Efficiency and Cost-Effectiveness:**

New machinery will help in reducing the burning loss and as a result less scrap will be generated. Overall new plant and machinery will help streamline production processes and lower costs associated with energy consumption and maintenance.

- **Enhance Product Quality:**

The new machinery will enhance production precision, ensuring good quality and improved consistency in the final products. Automation and advanced monitoring systems improve workplace safety by reducing the need for human intervention in hazardous environments. This leads to real time monitoring and automation minimizing human errors to achieve the desired quality of products.

- **Diversified product range:**

By acquiring new Die End Rolls, we would open up avenues for manufacturing new products such as M.S. Joist/Beam, M.S. Angle, M.S. Square, M.S. Round and M.S. Channels.

- **Position the Company for Future Growth:**

By investing in modern infrastructure and equipment, the company will be well-positioned to adapt to future market demands, securing a competitive edge in the industry.

Notes:

1. We have considered the above quotations for the budgetary estimate purpose and have not placed orders for them. The actual cost of procurement and actual supplier/dealer may vary as per the best possible offer available with us.
2. For acquiring the above plant and machinery, we have obtained competitive quotations from various vendors for comparison of cost estimates and specifications as required. We have shared only the most beneficial quotations as per our parameters.
3. All quotations received from the vendors mentioned above are valid as on the date of this Draft Red Herring Prospectus. However, we have not entered into any definitive agreements with any of these vendors and there can be no assurance that the same vendors would be engaged to eventually render the services or at the same costs.
4. The construction service and quantity to be purchased are based on the present estimates of our management. The Management shall have the flexibility to revise such estimates (including but not limited to change of vendor or any modification/addition/deletion of supply or equipment) at the time of actual placement of the order. In such case, the Management can utilize the surplus of proceeds, if any, arising at the time of actual placement of the order, to meet the cost of such other service, equipment or utilities, as required. Furthermore, if any surplus from the proceeds remains after meeting the total cost of construction service, equipment and utilities for the aforesaid purpose, the same will be used for our general corporate purposes, subject to limit of 15% of the amount raised or ₹ 10 Crores whichever is lower by our Company through this Offer.
5. We are not acquiring any second-hand machinery.

6. The quotations relied upon by us in arriving at the above cost are valid for a specific period of time and may lapse after the expiry of the said period. Consequent upon which, there could be a possible escalation in the cost of services proposed to be acquired by us at the actual time of provision of service, resulting in increase in the estimated cost. Further, cost will be escalated on account of freight expenses, installation charges, packaging & forwarding, custom duty etc. Such cost escalation would be met out of our internal accruals.

Proposed Schedule of Implementation

The proposed schedule of implementation for installation of Plant and Machineries at our factory is as follows:

Particulars	Estimated Month of Completion
Placement of Purchase Order	May-25
Delivery of Machinery	August-25
Put to use	August-25

*Assuming we receive the IPO Proceeds in the month of May 2025

2) Capital Expenditure towards installation of Solar Plant

The company plans to install on-grid Solar power plants for the purpose of captive consumption with a total capacity of 2,000 KWp to reduce its power & fuel expenditure. We are planning to set up a ground top mount solar power system as part of our broader commitment to sustainable energy practices and reducing our carbon footprint at our factory located in A - 195, RIICO Industrial Area Extension, Phase 2 Bagru, Jaipur, Rajasthan, India - 303007. The proposed solar system will be of 2,000 KWp and will annually be generating around 33,00,000 units of energy which will be installed at the premise situated at Bajju, Bikaner, Rajasthan owned by GMC Solar Park Private Limited.

By harnessing solar energy, we aim to meet a significant portion of our facility's energy requirements through renewable sources, leading to reduced dependency on conventional power grids and to lower operational costs over time. The installation of ground top mount solar panels will not only help in cutting down electricity expenses but also contribute to environmental conservation by minimizing greenhouse gas emissions. By investing in renewable energy, we also position ourselves to benefit from various government incentives, thereby enhancing our profitability and reputation as a socially responsible enterprise. The detailed working for breakeven of solar plant is as follows:

Justification for Holding Period Levels

Particulars	Detail
Trade Receivables	In FY 2021-22, the holding period was 36 days, reflecting a standard collection period, but it decreased significantly to 16 days in FY 2022-23 due to improved receivables management and better credit controls. The holding period further dropped to 12 days in FY 2023-24, signalling enhanced efficiency in collection processes. The holding period for half year ended September 30, 2024 reached to 20 days which is further projected to increase to 30 days for FY 2024-25 and 23 days for FY 2025-26, as the company extends more credit to customers to boost sales and foster stronger relationships, in line with market trends. The increase in holding period is also driven by the planned expansion, including the new production facility, which is expected to raise sales and receivables, especially towards the end of FY 2025-26.
Inventories	In FY 2021-22, the inventory holding was 65 days, driven by the need to ensure adequate stock to meet customer demand and mitigate uncertainties in market conditions. In FY 2022-

Particulars	Detail
	<p>23, the inventory holding level decreased to 53 days as the company focused on improving inventory management and reducing excess stock following large order fulfilment. The slight increase to 61 days in FY 2023-24 indicating the company's efforts to maintain higher inventory in anticipation of upcoming expansions. By September 2024, the holding level rose to 63 days as the company prepared for higher sales. In FY 2024-25, the holding level is expected to rise further to 69 days, reflecting the company's strategy to keep larger inventories to meet anticipated demand from an expanded product range and increased sales. Finally, in FY 2025-26, the inventory holding is projected to decrease to 65 days, reflecting improved inventory turnover efficiency as the company's production operations stabilize with the new facility, aligning inventory with optimized demand.</p>
Short Term Loan & advances	<p>The holding levels for short-term loans and advances reflect the company's efficient recovery of funds lent to one of its group companies. In FY 2021-22, the holding level was 59, indicating that a significant portion of the company's funds was tied up in short-term loans and advances. Over the next year, in FY 2022-23, this figure decreased to 32, as the company successfully began recovering a portion of these funds, leading to an improvement in liquidity. By FY 2023-24, the holding level further reduced to 24, showing continued progress in the recovery process. As of September 30, 2024, the holding level is expected to be 17, reflecting the continued collection of loans and advances, with only a smaller portion still outstanding. In FY 2024-25, the holding level is expected to significantly drop to 1, indicating that the majority of the loans have been recovered. By FY 2025-26, the holding level is projected to remain at 1, signalling that only a small balance remains outstanding, with minimal impact on the company's financial stability.</p>
Other Current Assets	<p>Our Current Assets majorly include Balance with Government Authorities and Interest accrued on Loans and Advances. In FY 2021-22, the holding level was 7 which decreased slightly to 5 in FY 2022-23, the decrease in other current asset holding days, despite an increase in other current assets, is due to the corresponding rise in revenue, which has led to a faster turnover of these assets. This level remained consistent in FY 2023-24 and is expected to stay at 5 as of September 30, 2024, with no major changes in the company's asset management. Moving forward, the holding level is expected to remain at 5 for FY 2024-25 and decrease to 4 by FY 2025-26, reflecting a decrease in interest on loans and advances as a result of recovery of loan.</p>
Trade Payables	<p>The holding levels for trade payables have fluctuated over the years, primarily driven by changes in the company's purchasing strategy and credit terms with suppliers. As of March 31, 2022, the holding level stood at 25, reflecting the company's standard trade payable levels with suppliers. By March 31, 2023, the holding level increased to 35, indicating that the company has utilized more trade credit to manage its cash flow and operational needs. In FY 2023-24, the holding level further increased to 42, driven by higher purchases on credit terms, as the company sought to manage working capital more efficiently. By September 30, 2024, the holding level rose to 51, as a result of extended credit periods with suppliers. However, following the company's strategy post-IPO, there is a shift towards promoting more cash purchases to reduce reliance on credit and avoid the interest charges associated with extended payment periods. This strategy is expected to result in a significant decrease in trade payables, with the holding level anticipated to drop to 30 by March 31, 2025, and further decrease to 7 by March 31, 2026.</p>
Other Current Liabilities	<p>The holding levels for other current liabilities have shown a significant decline over the years, primarily driven by the reduction in customer advances and other short-term liabilities. As of March 31, 2022, the holding level stood at 51, which was notably higher due to an increase in advances received from customers, reflecting higher orders or pre-payments for future deliveries. This level decreased to 6 by March 31, 2023, as most of the customer advances were utilized or adjusted against deliveries, leading to a reduction in the outstanding liabilities. By March 31, 2024, the holding level further decreased to 5, maintaining a low level of other current liabilities as the company continued to manage its liabilities efficiently. As of September 30, 2024, the holding level remains steady at 4, indicating consistent management of short-term liabilities, with a slight reduction in advances or outstanding payables. Moving forward, for FY 2024-25, the holding level is expected to stay at 5, reflecting the normal fluctuations in customer advances and other current obligations. By March 31, 2026, the holding level is projected to reduce to 4, maintaining a stable level of other current liabilities, demonstrating the company's improved management of short-term liabilities and continued focus on operational efficiency.</p>

Particulars	Detail
Short-term Provisions	The holding levels for short-term provisions have remained relatively stable over the initial years but are projected to rise in the coming periods. As of March 31, 2022, the holding level stood at 1, which remained consistent through March 31, 2023, and March 31, 2024, reflecting the provisions mainly for expenses such as power bills and gratuity. These provisions remained relatively low, indicating that the company was managing its short-term obligations effectively. As of September 30, 2024, the holding level increased to 2, reflecting a slight rise in provisions, likely due to adjustments in estimated expenses. The significant increase in expected provisions for FY 2024-25 to 6 and a projection to maintain the same in FY 2025-26 is in line with the company's increasing profitability, which necessitates higher provisions for income tax and other financial obligations.

Pursuant to the certificate dated March 29, 2025, B D G & Co LLP, Chartered Accountants, have verified the working capital requirements for the half year ended on September 30, 2024 and financial ended on March 31, 2024, 2023 and 2022 from the Restated Financial Information and working capital estimates for the financial year ended on March 31, 2025 and 2026 as approved by the Board pursuant to its resolution dated March 29, 2025.

4) General Corporate Purposes

The Net Proceeds will be first utilized towards the Objects as mentioned above. The balance Net Fresh Offer Proceeds to the tune of ₹ [●] Lakhs is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 15% of the Gross Proceeds or ₹10 crores whichever is lower, in compliance with the SEBI (ICDR) Regulations, 2018. Our Company intends to deploy the balance Net Proceeds, if any, for general corporate purposes, subject to above mentioned limit, as may be approved by our management, including but not restricted to, the following:

- (i) Strategic initiatives
- (ii) Brand building and strengthening of marketing activities; and
- (iii) On-going general corporate exigencies or any other purposes as approved by the Board subject to compliance with the necessary regulatory provisions.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board of Directors based on the permissible amount actually available under the head "General Corporate Purposes" and the business requirements of our Company, from time to time. Appraisal by Appraising Fund

None of the Objects have been appraised by any bank or financial institution or any other independent third-party organization. The funding requirements of our Company and the deployment of the proceeds of the Offer are currently based on management estimates. The funding requirements of our Company are dependent on a number of factors which may not be in the control of our management, including variations in interest rate structures, changes in our financial condition and current commercial conditions and are subject to change in light of changes in external circumstances or in our financial condition, business or strategy.

Shortfall of Funds

Any shortfall in meeting the fund requirements will be met by way of internal accruals and /or unsecured Loans.

Bridge Financing Facilities

As on the date of this Draft Red Herring Prospectus, we have not raised any bridge loans, which are proposed to be repaid from the Net Proceeds. However, we may draw down such amounts, as may be required, from an overdraft

arrangement/ cash credit facility with our lenders, to finance additional working capital needs until the completion of the Issue.

Monitoring Utilization of Funds

As the size of the Fresh Issue does not exceed ₹ 5,000 Lakhs, in terms of Regulation 262 of the SEBI (ICDR) Regulations, 2018, our Company is not required to appoint a monitoring agency for the purposes of this Issue. Our Board and Audit Committee shall monitor the utilization of the Net Proceeds.

Pursuant to Regulation 32 of the SEBI (LODR) Regulation, 2015, our Company shall on a half-yearly basis disclose to the Audit Committee the uses and application of the Net Proceeds. Until such time as any part of the Net Proceeds remains unutilized, our Company will disclose the utilization of the Net Proceeds under separate heads in our Company's balance sheet(s) clearly specifying the amount of and purpose for which Net Proceeds have been utilized so far, and details of amounts out of the Net Proceeds that have not been utilized so far, also indicating interim investments, if any, of such unutilized Net Proceeds. In the event that our Company is unable to utilize the entire amount that we have currently estimated for use out of the Net Proceeds in a Fiscal Year, we will utilize such unutilized amount in the next financial year. Further, in accordance with Regulation 32(1)(a) of the SEBI (LODR) Regulation, 2015 our Company shall furnish to the Stock Exchanges on a half yearly basis, a statement indicating material deviations, if any, in the utilization of the Net Proceeds for the objects stated in this Draft Red Herring Prospectus.

March 31, 2024	4.49	3
Weighted Average	4.93	
For half year ended on September 30, 2024*	4.99	

*Not Annualized

Notes:

- 1) Basic and diluted earnings/(loss) per equity share: Basic and diluted earnings per equity share are computed in accordance with Accounting Standard 20 – “Earnings per Share” issued by the Institute of Chartered Accountants of India.
- 2) The ratios have been computed as below:

- i) Basic EPS is calculated as Profit/(loss) for the year/period attributable to owners divided by the adjusted weighted average number basic equity shares outstanding during the year/period.
 - ii) Diluted EPS is calculated as Profit/(loss) for the year/period attributable to owners divided by the adjusted weighted average number of adjusted diluted equity shares outstanding during the year/period.
- 3) Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year/period adjusted by the number of equity shares issued during the year/period multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year/period.
 - 4) Weighted average is aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. $\{(EPS \times Weight) \text{ for each year}\} / \{Total \text{ of weights}\}$.

To,
The Board of Directors,
M P K STEELS (I) LIMITED
House No. 87, Rajgarh Road,
Silpukhuri, Kamrup, Gmc,
Assam, India-781003.

Dear Sir,

Sub: Statement of Possible Special Tax Benefits (“the Statement”) available to M P K STEELS (I) LIMITED (“the Company”) and its shareholders prepared in accordance with the requirements in Point No. 9 (L) of Part A of Schedule VI of the Securities Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations 2018, as amended (“the Regulations”)

We hereby report that this certificate along with the annexure (hereinafter referred to as “The Statement”) states the possible special tax benefits available to the Company and the shareholders of the Company under the Income Tax Act, 1961 (‘IT Act’) (read with Income Tax Rules, Circulars and Notifications) as amended by the Finance Act, 2024 (i.e. applicable to F.Y. 2024-25 relevant to A.Y. 2025-26) (hereinafter referred to as the “IT Regulations”) and under the Goods And Service Tax Act, 2017 (read with Goods And Service Tax[GST] Rules, Circulars and Notifications), presently in force in India. The Statement has been prepared by the management of the Company in connection with the proposed Public offer, which we have initialed for identification purposes only.

Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the said relevant provisions of the tax laws and regulations applicable to the Company. Hence, the ability of the Company or its shareholders to derive the special tax benefits, if any, is dependent upon fulfilling such conditions, which based on business imperatives, which the Company may or may not choose to fulfill or face in the future.

The benefits discussed in the enclosed annexure cover only special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to the Company or its shareholders. Further, the Preparation of enclosed statement and the contents stated therein is not exhaustive and is the responsibility of the Company’s management. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. A shareholder is advised to consult his/ her/ its own tax consultant with respect to the tax implications arising out of his/her/its participation in the proposed issue, particularly in view of ever-changing tax laws in India. Further, we give no assurance that the income tax authorities/ other indirect tax authorities/courts will concur with our views expressed herein.

We do not express any opinion or provide any assurance as to whether:

- the Company or its shareholders will continue to obtain these benefits in future; or
- the conditions prescribed for availing the benefits have been/would be met.

The contents of this annexure are based on information, explanations and representations obtained from the Company and based on our understanding of the business activities and operations of the Company and the provisions of the tax laws.

The information provided in Annexure sets out the Possible Special Direct Tax & Indirect Tax benefits available to the Company, and its Shareholders in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the subscription, ownership and disposal of Equity Shares, under the current tax laws presently in force in India. Several of these benefits are dependent on the Company and its Shareholders fulfilling the conditions prescribed under the relevant tax laws. Hence, the ability of the Company, and the Shareholders of the Company to derive the direct and indirect tax benefits is dependent upon their fulfilling such conditions, which is based on business imperatives the Company may face in the future and accordingly, the Company, and the Shareholders of the Company may or may not choose to fulfil. Further, certain tax benefits may be optional, and it would be at the discretion of the Company or the Shareholders of the Company to exercise the option by fulfilling the conditions prescribed under the Tax Laws.

The overview provided in Annexure is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own Tax Consultant with respect to the tax implications of

an investment in the shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

This certificate along with the annexure is provided solely for the purpose of assisting the addressee Company in discharging its responsibility under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 for inclusion in the Draft Red Herring Prospectus in connection with the proposed offer of equity shares and is not to be used, referred to or distributed for any other purpose without our written consent.

ANNEXURE TO THE STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO M P K STEELS (I) LIMITED (“THE COMPANY”) AND IT’S SHAREHOLDERS UNDER THE APPLICABLE TAX LAWS IN INDIA

Outlined below are the possible special tax benefits available to the Company and its shareholders as per the Income tax Act, 1961 (“IT Act”) as amended from time to time and applicable for financial year 2024-25 relevant to assessment year 2025-26 (AY 2025-26) and Indirect Tax Laws as amended from time to time and applicable for financial year 2024-25. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly since certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

I. Under the IT Act

1. Special Tax Benefits to the Company

a) Lower corporate tax rate on income of domestic companies under Section 115BAA of the ITA

The Taxation Laws (Amendment) Act, 2019 introduced section 115BAA wherein domestic companies are entitled to avail a concessional tax rate of 22% (plus applicable surcharge and cess) on fulfillment of certain conditions.

The option to apply for this tax rate is available from Financial Year (FY) 2019-20 relevant to Assessment Year (‘AY’) 2020-21 and the option once exercised through filing of Form 10IC on the Income tax portal shall apply to subsequent assessment years. The concessional tax rate of 22% is subject to the company not availing any of the following deductions under the provisions of the ITA:

- Section 10AA: Tax holiday available to units in a Special Economic Zone.
- Section 32(1)(iia): Additional depreciation.
- Section 32AD: Investment allowance.
- Section 33AB/3ABA: Tea coffee rubber development expenses/site restoration expenses
- Section 35(1)/35(2AA)/ 35(2AB): Expenditure on scientific research.
- Section 35AD: Deduction for capital expenditure incurred on specified businesses.
- Section 35CCC/35CCD: expenditure on agricultural extension /skill development
- Chapter VI-A except for the provisions of section 80JJAA and section 80M.

The total income of a company availing the concessional rate of 25.168% (i.e., 22% along with surcharge of 10% and health and education cess of 4%) is required to be computed without set off any carried forward loss and depreciation attributable to any of the aforesaid deductions/incentives. A company can exercise the option to apply for the concessional tax rate by filing Form 10IC on or before the due date of filing return of income under section 139(1) of the ITA. Further, provisions of Minimum Alternate Tax (‘MAT’) under section 115JB of the ITA shall not be applicable to companies availing this reduced tax rate, thus, any carried forward MAT credit also cannot be claimed. The provisions do not specify any limitation/condition on account of turnover, nature of business or date of incorporation for opting for the concessional tax rate. Accordingly, all existing as well as new domestic companies are eligible to avail this concessional rate of tax.

b) Deductions in respect of employment of new employees under Section 80JJAA of the ITA

As per section 80JJAA of the ITA, where a company is subject to tax audit under section 44AB of the ITA and derives income from business, it shall be allowed to claim a deduction of an amount equal to 30% of additional employee cost incurred in the course of such business in a previous year, for 3 consecutive assessment years including the assessment year relevant to the previous year in which such additional employment cost is incurred.

The eligibility to claim the deduction is subject to fulfilment of prescribed conditions specified in sub-section (2) of section 80JJAA of the ITA. The company is presently not claiming deduction under section 80JJAA of the ITA.

c) Deduction with respect to inter-corporate dividends –Section 80M of the ITA

As per the provisions of section 80M of the ITA, inserted with effect from 01 April 2020 i.e., AY 2021-22, a domestic company shall be allowed to claim a deduction of dividend income earned from any other

domestic company or a foreign company or a business trust. The amount of deduction so claimed should not exceed the amount of dividend distributed by it on or before the due date. In this case, due date means one month prior to the due date of furnishing return of income under sub section (1) of section 139 of the ITA.

The company has one associate and one group company on which company has invested and thus, the company should be eligible to claim deduction under section 80M of the ITA in respect of dividends received (if any) from these and further distributed to its shareholders subject to fulfillment of other conditions.

2. Special Tax Benefits available to Shareholders

a) Dividend Income

Dividend income earned by the shareholders would be taxable in their hands at the applicable rates. However, in the case of domestic corporate shareholder, benefit of deduction under section 80M of the ITA would be available on fulfilling the conditions. Further, Finance Act 2021 restricted surcharge to 15% in respect of dividend income.

NOTES:

- The above statement of Possible Special Tax Benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
- The above statement covers only certain Special Tax Benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This statement also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
- The above statement of Possible Special Tax Benefits is as per the current Direct Tax Laws relevant for the assessment year 2024-25. Several of these benefits are dependent on the Company or its Shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.
- In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.
- This statement is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.

II. Under the Indirect Tax Laws

3. Special Indirect Tax Benefits available to the Company

There are no special tax benefits to the company under Indirect Taxes

4. Special Tax Benefits available to Shareholders

Shareholders of the Company are not eligible to special tax benefits under the provisions of the Central Goods and Services Act 2017 (read with Central Goods and Services Tax Rules, circulars, notifications), respective State Goods and Services Tax Act, 2017 (read with respective State Goods and Services Tax Rules, circulars, notifications), Integrated Goods and Services Tax Act, 2017 (read with Integrated Goods and Services Tax Rules, circulars, notifications), The Foreign Trade (Development and Regulation) Act, 1992 (read with Foreign Trade Policy 2015-20), Customs Act, 1962 (read with Custom Rules, circulars, notifications), Customs Tariff Act, 1975 (read with Custom Tariff Rules, circulars, notifications)

The Shareholders of the Company are not entitled to any Special Tax Benefits under indirect tax laws.

INVESTORS ARE ADVISED TO CONSULT THEIR OWN TAX CONSULTANT WITH RESPECT TO THE TAX IMPLICATIONS OF AN INVESTMENT AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN THE SECURITIES, PARTICULARLY IN VIEW OF THE ACT THAT CERTAIN RECENTLY ENACTED LEGISLATION MAY NOT HAVE A DIRECT LEGAL PRECEDENT OR MAY HAVE A DIFFERENT INTERPRETATION ON THE BENEFITS, WHICH AN INVESTOR CAN AVAIL IN THEIR PARTICULAR SITUATION.

We hereby give our consent to include our above referred opinion regarding the tax benefits available to the Company and to its shareholders in the offer document.

GLOBAL ECONOMY AT LARGE

Forces Shaping the Outlook

The global economy is holding steady, although the degree of grip varies widely across countries. Global GDP growth in the third quarter of 2024 was 0.1 percentage point below that predicted in the October 2024 WEO, after disappointing data releases in some Asian and European economies. Growth in China, at 4.7 percent in year-over-year terms, was below expectations. Faster-than-expected net export growth only partly offset a faster-than-expected slowdown in consumption amid delayed stabilization in the property market and persistently low consumer confidence. Growth in India also slowed more than expected, led by a sharper-than-expected deceleration in industrial activity. Growth continued to be subdued in the euro area (with Germany's performance lagging that of other euro area countries), largely reflecting continued weakness in manufacturing and goods exports even as consumption picked up in line with the recovery in real incomes. In Japan, output contracted mildly owing to temporary supply disruptions. By contrast, momentum in the United States remained robust, with the economy expanding at a rate of 2.7 percent in year-over-year terms in the third quarter, powered by strong consumption.

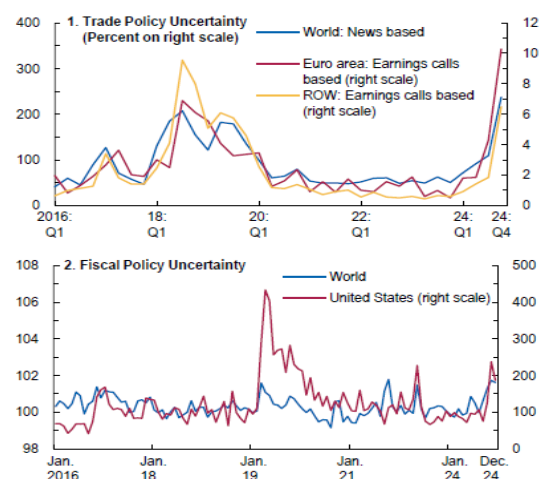

Global disinflation continues, but there are signs that progress is stalling in some countries and that elevated inflation is persistent in a few cases. The global median of sequential core inflation has been just slightly above 2 percent for the past few months. Nominal wage growth is showing signs of moderation, alongside indications of continuing normalization in labor markets. Although core goods price inflation has fallen back to or below trend, services price inflation is still running above pre-COVID-19 averages in many economies, most notably the United States and the euro area. Pockets of elevated inflation, reflecting a range of idiosyncratic factors, also persist in some emerging market and developing economies in Europe and Latin America.

Where inflation is proving more sticky, central banks are moving more cautiously in the easing cycle while keeping a close eye on activity and labour market indicators as well as exchange rate movements. A few central banks are raising rates, marking a point of divergence in monetary policy.

Global financial conditions remain largely accommodative, again with some differentiation across jurisdictions (see Box 1). Equities in advanced economies have rallied on expectations of more business-friendly policies in the United States. In emerging market and developing economies, equity valuations have been more subdued, and a broad-based strengthening of the US dollar, driven primarily by expectations of new tariffs and higher interest rates in the United States, has kept financial conditions tighter.

Economic policy uncertainty has increased sharply, especially on the trade and fiscal fronts, with some differentiation across countries (Figure 1). Expectations of policy shifts under newly elected governments in 2024 have shaped financial market pricing in recent months. Bouts of political instability in some Asian and European countries have rattled markets and injected additional uncertainty regarding stalled progress on fiscal and structural policies. Geopolitical tensions, including those in the Middle East, and global trade frictions remain elevated.

Note: The uncertainty measures are news-based indices that quantify media attention to news related to an issue, in which a value of 100 corresponds to 1 percent of news articles that reference the issue. In panel 1, the euro area and the rest of the world (ROW) are based on the earnings-calls-based indicators, representing the proportion of firms that mention trade policy uncertainty (TPU) in their earnings calls. This measure reflects companies' concerns regarding TPU, based on the dictionary developed by Caldara and others (2020, <https://doi.org/10.1016/j.jmoneco.2019.11.002>). The ROW encompasses 22 countries, including the US. In panel 2, US fiscal policy uncertainty is a subcomponent of the Economic Policy Uncertainty Index developed by Baker, Bloom, and Davis (2016, <https://doi.org/10.1093/qje/qjw024>), whereas the indicator for the world is based on Hong, Ke, and Nguyen (2024, <https://doi.org/10.5089/9798400288128.001>).

The Outlook

IMF staff projections assume current policies in place at the time of publication. They incorporate recent market developments and the impact of heightened trade policy uncertainty, which is assumed to be temporary, with the effects unwinding after about a year, but refrain from making any assumptions about potential policy changes that are currently under public debate. Energy commodity prices are expected to decline by 2.6 percent in 2025, more than assumed in October. This reflects a decline in oil prices driven by weak Chinese demand and strong supply from countries outside of OPEC+ (Organization of the Petroleum Exporting Countries plus selected non-member countries, including Russia), partly offset by increases in gas prices as a result of colder-than-expected weather and supply disruptions, including the ongoing conflict in the Middle East and outages in gas fields. Nonfuel commodity prices are expected to increase by 2.5 percent in 2025, on account of upward revisions to food and beverage prices relative to the October 2024 WEO, driven by bad weather affecting large producers. Monetary policy rates of major central banks are expected to continue to decline, though at different paces, reflecting variations in growth and inflation outlooks. The fiscal policy stance is expected to tighten during 2025–26 in advanced economies including the United States and, to a lesser extent, in emerging market and developing economies.

Global growth is expected to remain stable, albeit lackluster. At 3.3 percent in both 2025 and 2026, the forecasts for growth are below the historical (2000–19) average of 3.7 percent and broadly unchanged from October (Table 1; see also Annex Table 1). The overall picture, however, hides divergent paths across economies and a precarious global growth profile (Figure 2).

Among **advanced economies**, growth forecast revisions go in different directions. In the **United States**, underlying demand remains robust, reflecting strong wealth effects, a less restrictive monetary policy stance, and supportive financial conditions. Growth is projected to be at 2.7 percent in 2025. This is 0.5 percentage point higher than the October forecast, in part reflecting carryover from 2024 as well as robust labour markets and accelerating investment, among other signs of strength. Growth is expected to taper to potential in 2026.

In the **euro area**, growth is expected to pick up but at a more gradual pace than anticipated in October, with geopolitical tensions continuing to weigh on sentiment. Weaker-than-expected momentum at the end of 2024, especially in manufacturing, and heightened political and policy uncertainty explain a downward revision of 0.2 percentage point to 1.0 percent in 2025. In 2026, growth is set to rise to 1.4 percent, helped by stronger domestic demand, as financial conditions loosen, confidence improves, and uncertainty recedes somewhat.

In **other advanced economies**, two offsetting forces keep growth forecasts relatively stable. On the one hand, recovering real incomes are expected to support the cyclical recovery in consumption. On the other hand, trade headwinds—including the sharp uptick in trade policy uncertainty—are expected to keep investment subdued.

In **emerging market and developing economies**, growth performance in 2025 and 2026 is expected to broadly match that in 2024. With respect to the projection in October, growth in 2025 for **China** is marginally revised upward by 0.1 percentage point to 4.6 percent. This revision reflects carryover from 2024 and the fiscal package announced in November largely offsetting the negative effect on investment from heightened trade policy uncertainty and property market drag. In 2026, growth is projected mostly to remain stable at 4.5 percent, as the effects of trade policy uncertainty dissipate and the retirement age increase slows down the decline in the labor supply. In **India**, growth is projected to be solid at 6.5 percent in 2025 and 2026, as projected in October and in line with potential.

In the **Middle East and Central Asia**, growth is projected to pick up, but less than expected in October. This mainly reflects a 1.3 percentage point downward revision to 2025 growth in **Saudi Arabia**, mostly driven by the extension of OPEC+ production cuts. In **Latin America and the Caribbean**, overall growth is projected to accelerate slightly in 2025 to 2.5 percent, despite an expected slowdown in the largest economies of the region. Growth in **sub-Saharan Africa** is expected to pick up in 2025, while it is forecast to slow down in **emerging and developing Europe**.

World trade volume estimates are revised downward slightly for 2025 and 2026. The revision owes to the sharp increase in trade policy uncertainty, which is likely to hurt investment disproportionately among trade-intensive firms. That said, in the baseline, the impact of heightened uncertainty is expected to be transitory. Furthermore, the front-loading of some trade flows in view of elevated trade policy uncertainty, and in anticipation of tighter trade restrictions, provides some offset in the near term.

Figure 2. Evolution of 2025 Growth Forecasts (Percent)

Source: IMF staff calculations.

Note: The x-axis shows the months the World Economic Outlook is published. AEs = advanced economies; EMDEs = emerging market and developing economies.

Progress on *disinflation* is expected to continue. Deviations from the October 2024 WEO forecasts are minimal. The gradual cooling of labour markets is expected to keep demand pressures at bay. Combined with the expected decline in energy prices, headline inflation is projected to continue its descent toward central bank targets. That said, inflation is projected to be close to, but above, the 2 percent target in 2025 in the United States, whereas inflationary dynamics are expected to be more subdued in the euro area. Low inflation is projected to persist in China. Consequently, the gap between anticipated policy rates in the United States and other countries becomes wider.

Risks to the Outlook

In the medium term, the balance of risks to the outlook is tilted to the downside, with global growth poised to be lower than its 2025–26 average and five-year-ahead forecasts at about 3 percent. Near-term risks, in contrast, could reinforce divergences across countries: they are tilted to the upside in the United States, whereas downside risks prevail in most other economies amid elevated policy uncertainty and headwinds from ongoing adjustments (in particular, energy in Europe and real estate in China).

An intensification of protectionist policies, for instance, in the form of a new wave of tariffs, could exacerbate trade tensions, lower investment, reduce market efficiency, distort trade flows, and again disrupt supply chains. Growth could suffer in both the near and medium term, but at varying degrees across economies.

A near-term boost for the US economy emanating from these factors would further underscore the divergent growth patterns across economies. If the adverse effects of tariffs and reduction in the labor force dominate, global activity as well as activity in the United States might be affected negatively in the medium term. Uncertainties are high: the effects of each factor would unfold differently across countries, influenced by trade and financial linkages; policy responses to actions taken by other countries could play out in a variety of ways, including an escalation of retaliatory tariffs; and the impacts of different policy combinations or different magnitudes of policy changes could be quite different.

Inflation dynamics could be shaped in opposite directions by these factors. The magnitude of the inflationary effect from tariffs is especially uncertain. While recent empirical studies find high pass-through to import prices, estimates of pass-through to consumer prices are lower and subject to significant uncertainty. Nevertheless, compared with what took place in earlier episodes of trade disputes, several factors suggest that upside risks to inflation from tariff hikes could be higher this time. First, the global economy is coming out of the most significant inflation surge in recent memory. Inflation expectations, especially in many advanced economies, are farther above the central bank target today than in 2017–21 (Figure 3). Second, the cyclical positions of many major economies are more conducive to higher inflation today than in 2016. Third, retaliation in the form of restrictions on specific, difficult-to-substitute materials or intermediate goods may have an outsized impact on aggregate inflation.

Figure 3. Cross-Country Inflation Expectations
(Percentage point deviation from target, next 12 months)

The whiskers show the maximum and minimum within a boundary of 1.5 times the interquartile range from the upper and lower quartiles, respectively. AEs = advanced economies; EMDEs = emerging market and developing economies.

On the upside, global economic activity may enjoy a bounce if incoming governments can renegotiate existing trade agreements and forge new deals. This could relieve uncertainty faster and be much less disruptive to growth and inflation. By boosting confidence, such cooperative outcomes could even support investment and medium-term growth prospects.

Momentum on other policy fronts could also lift growth. Many countries may embrace structural reforms to prevent divergence from their better-performing peers from becoming entrenched. Efforts to increase labor supply, reduce misallocation, enhance competition, and support innovation could raise medium-term growth.

MACROECONOMIC OUTLOOK FOR FISCAL 2026

GDP growth – historical trend and forecasts

- We expect India’s economy to maintain the growth rate of 6.5% in fiscal 2026, assuming the upcoming monsoon season is normal yet again and commodity prices remain soft.

- Cooling food inflation, the tax benefits announced in the Union Budget 2025-2026 and lower borrowing costs will drive discretionary consumption.
- Risks to the outlook are tilted to the downside given elevated uncertainty due to the tariff war led by the United States (US) Since the economic reforms of 1991, India’s growth has trended up every decade. The economy expanded 8.2% on average between fiscals 2022 and 2025, rebounding sharply after the Covid-19 pandemic in fiscal 2021, and became the fifth largest in the world by fiscal 2023. Agreed, the expansion was on a low base. Yet, there is no gainsaying the role of government policy support and resilient balance sheets of borrowers and lenders in the faster-than-expected rebound amid global turmoil. Growth is now returning to pre-pandemic rates as fiscal impulse normalises and the high-base effect wears off. Even with that, the high-frequency Purchasing Managers’ Index (PMI) data reveals that India maintains its pole position among major economies.

Easing inflation and fiscal consolidation have opened doors for rate cuts

After an extended pause of 23 months, the MPC cut policy rates in February 2025. A large reason for the cut was CPI inflation easing closer towards 4% (the mid-point of the MPC’s 2-6% target range) in fiscal 2025. The expected easing of inflation in fiscal 2026 opens doors for further rate cuts. The government’s non-inflationary fiscal policy further creates a conducive environment for monetary easing. However, weather shocks to inflation and slowing rate cuts by the Fed remain risks to rate cuts.

US monetary easing is expected to slow down due to inflation risk from US tariff hikes. Higher-for-longer Fed rates can constrain the space for monetary easing for other central banks. However, it is not likely to be the main driver of the latter’s monetary policy actions. (Refer to ‘Spillovers of US tariff hikes on monetary policy’.) Also, the MPC began its rate cut cycle later than the advanced economy central banks. The Fed had cut rates by 100 bps between September and December 2024. That said, the MPC has a neutral stance, which provides flexibility to keep rate actions dependent on incoming data.

We expect the RBI to remain proactive in using its liquidity and forex tools to support domestic financial conditions. Easier liquidity conditions are particularly needed to transmit the MPC’s rate cuts to broader market interest rates.

Navigating global turbulence

In the post-pandemic world, policymakers, particularly in the advanced countries, have been focusing more on resilience than efficiency, leading to a gradual increase in tariffs and insular policies to promote domestic production. Under the leadership of the new US administration, these policies are being implemented with unprecedented vigour.

The anticipated shift in global trade and tariff policies, following the US imposition of trade barriers, has unsettled the emerging markets, including India. However, India has built defences to combat global shocks. Healthy growth, low CAD and external public debt, and adequate forex reserves provide policy flexibility, but do not insulate the country from adverse global developments.

Synchronised cycles, divergent trends the external shocks of yesteryears may have caused near-term pain but have not dislodged the Indian economy from its upward trend path. Notably, India has continued to raise its growth premium over advanced countries via economic reforms, infrastructure buildout and process improvement.

Changing strategies and shifting gears crucial to unlocking investment potential

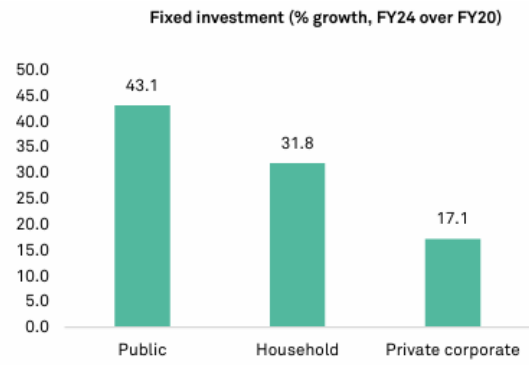

Fixed investments by households and the government have driven the post-pandemic investment recovery in the country. But it is time for the private sector to play a larger role. There are four reasons why:

1. The pick-up in investments has supported GDP growth of 8.8% in the past three fiscals, i.e. fiscals 2022-2024. But the overall investment ratio is now stagnant at 33-34% following the initial lift. To achieve the 'Viksit Bharat' goals, the country needs higher growth and investment rates.
2. The government, which has been the other key driver, is now normalising its capex to trim its debt burden. Central-government capex is budgeted to grow at the same pace as nominal GDP in fiscal 2026. During fiscals 2022-2024, budgetary capex allocations had exceeded nominal GDP growth
3. Household investments in residential real estate are also a prominent driver of fixed investments in the country. Several cyclical factors during and post the pandemic — income growth in certain segments, stamp duty relaxations in select states, low interest rates and a push to lending — drove up the share of households in total fixed investments to 41% during fiscals 2022-2024. Other drivers will also need to step up investments.
4. Private corporate investments have been sluggish so far. For a full-fledged and sustainable revival in overall capex, the private corporate sector will need to regain its position as a key driver of investments. A vibrant private corporate sector helps build competitiveness and drives innovation, which is critical given the current challenges posed by technology and the uncertain global environment. A sustained rise in corporate capex is, therefore, critical to unlocking India's long-term growth potential. A shift in the government's strategy to deregulate the economy has been promised in the budget, which needs to be thoroughly implemented. The intent is to ease restrictive regulations in identified sectors to foster entrepreneurship, competition and efficiency and provide the private sector a level-playing field with global competitors. This can not only help attract FDI but also usher in domestic investment.

Investments have driven the recovery...

STEEL INDUSTRY

Revenue growth to be largely volume-led

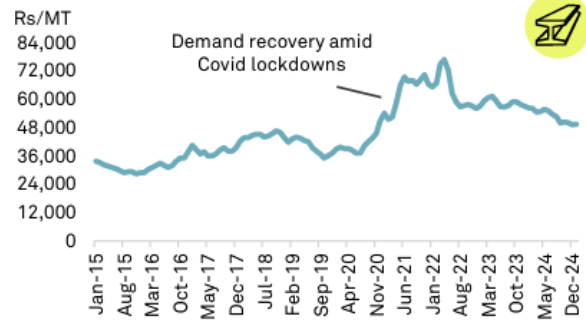

Corporate revenue is likely to be fuelled by volume growth in fiscal 2026, with 11 out of 13 key sectors (as shown in the chart below) poised to experience volume-driven expansion, outpacing price increases. The two exceptions are the telecom and passenger vehicle sectors. In telecom, revenue growth will be fuelled by an 8% increase in realisations, driven by rising adoption of 5G services and a 15-25% tariff increase implemented in July 2024, leading

to higher average revenue per user. Meanwhile, the passenger vehicle sector will see revenue growth driven by a shift in product mix, which will lead to higher realisations.

- In fiscals 2025 and 2026, major integrated players are anticipated to add 17-20 million tonne of primarily flat steel capacities. Hence, despite healthy demand from allied segments in fiscal 2026, hot-rolled-coil steel prices are expected to decline
- Prices are also going to be under pressure from weak global trade dynamics
- Safeguard duty on steel imports, as a result of ongoing Indian investigation, can potentially nullify the expected downward price movement

Note: For the steel sector, the pricing outlook for fiscal 2026 will depend on the imposition of safeguard duties to restrict imports. Timing and quantum of duty is a monitorable

India's competitiveness in steel industry

- India is the second-largest steel producer in the world, albeit significantly behind China, in terms of absolute production volume. Notably, ~95% of steel produced in India is consumed domestically, which limits its influence in the global market
- The global steel industry is characterised by overcapacity, creating a highly competitive market that squeezes export margins. As a result, Indian steel mills face challenges in exporting to destinations beyond controlled markets such as Europe
- Indian steelmakers benefit from access to domestically sourced iron ore that is 20-30% cheaper than international benchmarks. However, this advantage is partially offset by higher logistics and manufacturing costs
- The Indian steel industry's focus on the domestic market is a strategic response to the challenging conditions in the global market. By prioritising domestic sales, Indian steelmakers capitalise on growing demand and mitigate the risks associated with exports to less-profitable destinations

- Despite the global oversupply in steel, India remains a region of interest for investments in new steel production, driven by growing domestic demand. However, global investment in new steel production is generally lower due to challenging market conditions
- Given the low per capita penetration of steel in the domestic market, at 93 kg compared with the global average of 219 kg, there is a significant headroom for demand growth in India

Sectoral assessment

- The US move to impose a flat 25% tariff on steel imports from March 12, 2025, compared with multiple lower levies previously, will have minimum impact on the Indian steel industry. That is because only ~2% of India's finished steel exports in the first nine months of this fiscal were to the US.
- That said, incremental production by US mills to make up for lower imports due to tariffs would mean a reduction in exports of steel scrap by the US. For the record, ~70% of the US steel production is via recycling scrap. Lower exports of steel scrap by the US will impact India, which sources 14-15% of its scrap requirement from the US.
- Meanwhile, lower US imports of steel will result in diversion of exporter inventory to other importer nations at aggressive prices, especially in a mi lieu of rising global competition. That could lower the price of steel in India, which is already trending at four-year lows.
- The Indian government may thus have to step in with a safeguard duty to support domestic capacities.

India turns net steel importer, domestic demand a bright spot

India became a net importer of steel in fiscal 2024, with an overall steel trade deficit of 1.1 million tonne (MT), marking a shift in status as a net exporter since fiscal 2017.

International trade flow has seen significant changes of late and weak global markets and competitive Chinese steel have negatively impacted India's exports. That said, strong domestic demand remains a bright spot for the Indian steel industry.

INDIA STEEL MARKET ANALYSIS

The India Steel Market size is estimated at 148.28 million tons in 2025, and is expected to reach 230.03 million tons by 2030, at a CAGR of 9.18% during the forecast period (2025-2030).

India has established itself as a global steel manufacturing powerhouse, currently holding the position of the world's second-largest producer of crude steel after surpassing Japan. The country's steel sector demonstrated robust production capabilities in FY23, achieving an annual output of 125.32 million tons of crude steel and 121.29 million tons of finished steel. The industry has also maintained a strong trade position, with net exports reaching 6.72 million tons against imports of 6.02 million tons in FY 2022-23, highlighting India's growing self-sufficiency and export capabilities in steel production.

The steel industry's landscape is experiencing significant consolidation and expansion through strategic acquisitions and investments. Notable developments include JSW Steel's acquisition of NSL Green Steel Recycling in September 2023, aimed at establishing a scrap shredder facility in Maharashtra to reduce carbon footprint. Similarly, Jindal Stainless Limited's acquisition of a 74% stake in Odisha-based Jindal United Steel Limited for INR 958 crore in July 2023 demonstrates the industry's focus on vertical integration and capacity expansion. These strategic moves are reshaping the competitive landscape and enhancing operational efficiencies.

Despite its strong position, the Indian steel industry faces several structural challenges that impact its global competitiveness. The country's per capita steel consumption stands at 86.6 kilograms, significantly below the global average of 228 kilograms in FY 2022-23, indicating substantial untapped domestic market potential. Additionally, the industry grapples with high logistics costs, with steel freight rates approximately 500% higher compared to countries like Australia, substantially impacting operational costs and international competitiveness.

The industry is witnessing a notable shift towards sustainable and efficient production methods. AM/NS India's approval for a USD 4.7 billion steel plant project in Odisha in January 2023 represents the industry's commitment to modernization and capacity expansion. The sector is increasingly focusing on technological advancements, particularly in areas such as green steel production and energy efficiency. This transformation is crucial given that approximately 50% of the Indian workforce remains in agricultural operations, presenting both a challenge and opportunity for industrial growth and skilled labor development.

India Steel Market Trends

The Indian government has implemented comprehensive long-term support policies to strengthen the domestic steel sector, with the National Steel Policy 2017 serving as a cornerstone initiative. Through this policy, the government aims to develop India into a technologically advanced steel manufacturing hub, focusing on achieving a total crude steel capacity of 300 MTPA by 2030-31. The policy framework specifically targets the expansion of state-owned entities, with plans to increase SAIL's operational capacity from the existing 19.51 MTPA to approximately 35.65 MTPA by 2030-31. Additionally, the government's Production Linked Incentive (PLI) Scheme, approved with an outlay of INR 6,322 crore, is scheduled to commence from FY 2023-24, demonstrating the government's commitment to boosting domestic production.

The government has also introduced targeted policies to promote domestic manufacturers and enhance quality standards in the steel sector. The Domestically Manufactured Iron and Steel Products (DMI & SP) Policy, implemented for government procurement, has successfully resulted in import substitution worth INR 34,800 crore (USD 4,176.7 million). To ensure product quality, 145 Indian Standards have been notified under the Quality Control Orders covering various steel materials. Furthermore, the government launched the region-specific Mission Purvodaya to accelerate development in Eastern India through an integrated steel hub in Kolkata, recognizing that the eastern region has the potential to contribute more than 75% of the country's incremental steel capacity, potentially adding over 200 MT of the targeted 300 MT capacity by 2030-31.

STEEL INDUSTRY REPORT

Introduction

One of the primary forces behind industrialization has been the use of metals. Steel has traditionally occupied a top spot among metals. Steel production and consumption are frequently seen as measures of a country's economic development because it is both a raw material and an intermediary product. Therefore, it would not be an exaggeration to argue that the steel sector has always been at the forefront of industrial progress and that it is the foundation of any economy. The Indian steel industry is classified into three categories - major producers, main producers, and secondary producers.

India is the world's second-largest producer of crude steel, with an output of 125.32 MT of crude steel and finished steel production of 121.29 MT in FY23.

India's domestic steel demand is estimated to grow by 9-10% in FY25 as per ICRA.

India's steel production is estimated to grow 4-7% to 123-127 MT in FY24.

The growth in the Indian steel sector has been driven by the domestic availability of raw materials such as iron ore and cost-effective labour.

Consequently, the steel sector has been a major contributor to India's manufacturing output.

The Indian steel industry is modern, with state-of-the-art steel mills. It has always strived for continuous modernisation of older plants and up-gradation to higher energy efficiency levels.

According to a Deloitte report the demand for steel in India is projected to grow significantly over the next decade, with annual growth rates expected to range from 5% to 7.3%.

Market Size

In the past 10–12 years, India's steel sector has expanded significantly. Production has increased by 75% since 2008, while domestic steel demand has increased by almost 80%. The capacity for producing steel has grown concurrently, and the rise has been largely organic.

In April-October 2024, crude steel production in India stood at 84.94 MT.

In April-October 2024, finished steel production stood at 82.65 MT.

In FY25 (April-October), the consumption of finished steel stood at 85.71 MT.

In April-September 2024 exports of finished steel stood at 2.32 metric tonnes (MT), while imports stood at 4.70 MT.

In FY23, the production of crude steel and finished steel stood at 125.32 MT and 121.29 MT, respectively.

In FY24, the production of crude steel and finished steel stood at 143.6 MT and 138.5 MT, respectively.

In FY23, crude and finished steel production stood at 125.32 MT and 121.29 MT, respectively. In July 2023, crude steel production in India stood at 11.52 MT.

In FY24, the consumption of finished steel stood at 135.90 MT. The per-capita consumption of steel stood at 86.7 kgs in FY23.

In FY22, the production of crude steel and finished steel stood at 133.596 MT and 120.01 MT, respectively. The consumption of finished steel stood at 105.751 MT in FY22. In FY23, the consumption of finished steel stood at 119.17 MT. In April-July 2022, the production of crude steel and finished steel stood at 40.95 MT and 38.55 MT, respectively.

In FY23, exports and imports of finished steel stood at 6.7 MT and 6.02 MT, respectively. In FY22, India exported 11.14 MT of finished steel. In April 2024 exports of finished steel stood at 5.1 lakh metric tonnes (LMT), while imports stood at 5.9 LMT. In FY24, the exports and imports of finished steel stood at 7.49 MT and 8.32 MT, respectively.

The annual production of steel is anticipated to exceed 300 million tonnes by 2030-31. By 2030-31, crude steel production is projected to reach 255 million tonnes at 85% capacity utilisation achieving 230 million tonnes of finished steel production, assuming a 10% yield loss or a 90% conversion ratio for the conversion of raw steel to finished steel. With net exports of 24 million tonnes, consumption is expected to reach 206 million tonnes by the years 2030-2031. As a result, it is anticipated that per-person steel consumption will grow to 160 kg.

Government Initiatives

Some of the other recent Government initiatives in this sector are as follows:

- In February 2024, the government has implemented various measures to promote self-reliance in the steel industry.
- In October 2021, the government announced guidelines for the approved specialty steel production-linked incentive (PLI) scheme.
- In October 2021, India and Russia signed an MoU to carry out R&D in the steel sector and produce coking coal (used in steel making).
- In July 2021, the Union Cabinet approved the Production Linked Incentive (PLI) scheme for specialty steel. The scheme is expected to attract investment worth ~Rs. 400 billion (US\$ 5.37 billion) and expand specialty steel capacity by 25 million tonnes (MT), to 42 MT in FY27, from 18 MT in FY21.
- In June 2021, Minister of Steel & Petroleum & Natural Gas, Mr. Dharmendra Pradhan addressed the webinar on 'Making Eastern India a manufacturing hub with respect to metallurgical industries', organised by the Indian Institute of Metals. In 2020, 'Mission Purvodaya' was launched to accelerate the development of the eastern states of India (Odisha, Jharkhand, Chhattisgarh, West Bengal, and the northern part of Andhra Pradesh) through the establishment of an integrated steel hub in Kolkata, West Bengal. Eastern India has the potential to add >75% of the country's incremental steel capacity. It is expected that of the 300 MT capacity by 2030-31, >200 MT can come from this region alone.
- In June 2021, JSW Steel, CSIR-National Chemical Lab (NCL), Scottish Development International (SDI) and India H2 Alliance (IH2A) joined forces to commercialise hydrogen in the steel and cement sectors.
- Under the Union Budget 2023-24, the government allocated ₹ 70.15 crore (US\$ 8.6 million) to the Ministry of Steel.
- In addition, an investment of ₹ 75,000 crore (US\$ 9.15 billion) (including ₹ 15,000 crore (US\$ 1.83 billion) from private sources) has been allocated for 100 critical transport infrastructure projects for last and first mile connectivity for various sectors such as ports, coal, and steel.
- In January 2021, the Ministry of Steel, Government of India, signed a Memorandum of Cooperation (MoC) with the Ministry of Economy, Trade and Industry, Government of Japan, to boost the steel sector through joint activities under the framework of India-Japan Steel Dialogue.
- The Union Cabinet, Government of India approved the National Steel Policy (NSP) 2017, as it intends to create a globally competitive steel industry in India. NSP 2017 envisage 300 million tonnes (MT) steel-making capacity

and 160 kgs per capita steel consumption by 2030-31.

- The Ministry of Steel is facilitating the setting up of an industry driven Steel Research and Technology Mission of India (SRTMI) in association with the public and private sector steel companies to spearhead research and development activities in the iron and steel industry at an initial corpus of ₹ 200 crore (US\$ 30 million).
- The Government of India raised import duty on most steel items twice, each time by 2.5% and imposed measures including anti-dumping and safeguard duties on iron and steel items.

ROAD AHEAD

The steel industry has emerged as a major focus area given the dependence of a diverse range of sectors on its output as India works to become a manufacturing powerhouse through policy initiatives like Make in India. With the industry accounting for about 2% of the nation's GDP, India ranks as the world's second-largest producer of steel and is poised to overtake China as the world's second-largest consumer of steel. Both the industry and the nation's export manufacturing capacity have the potential to help India regain its favourable steel trade balance.

The National Steel Policy, 2017 envisage 300 million tonnes of production capacity by 2030-31. The per capita consumption of steel has increased from 57.6 kgs to 74.1 kgs during the last five years. The government has a fixed objective of increasing rural consumption of steel from the current 19.6 kg/per capita to 38 kg/per capita by 2030-31. As per Indian Steel Association (ISA), steel demand will grow by 7.2% in 2019-20 and 2020-21.

Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

MANUFACTURING INDUSTRY

INTRODUCTION

Manufacturing is emerging as an integral pillar in the country's economic growth, thanks to the performance of key sectors like automotive, engineering, chemicals, pharmaceuticals, and consumer durables. The Indian manufacturing industry generated 16-17% of India's GDP pre-pandemic and is projected to be one of the fastest growing sectors.

The machine tool industry was literally the nuts and bolts of the manufacturing industry in India. Today, technology has stimulated innovation with digital transformation, a key aspect in gaining an edge in this highly competitive market.

Technology has today encouraged creativity, with digital transformation being a critical element in gaining an advantage in this increasingly competitive industry. The Indian manufacturing sector is steadily moving toward more automated and process-driven manufacturing, which is projected to improve efficiency and enhance productivity.

India's manufacturing sector reached a 16-year high in March, with the HSBC Manufacturing Purchasing Managers' Index (PMI) rising to 59.1, driven by strong increases in output, new orders, and job creation across various goods sectors.

India has the capacity to export goods worth US\$ 1 trillion by 2030 and is on the road to becoming a major global manufacturing hub.

With 17% of the nation's GDP and over 27.3 million workers, the manufacturing sector plays a significant role in the Indian economy. Through the implementation of different programmes and policies, the Indian government hopes to have 25% of the economy's output come from manufacturing by 2025.

India now has the physical and digital infrastructure to raise the share of the manufacturing sector in the economy and make a realistic bid to be an important player in global supply chains.

A globally competitive manufacturing sector is India's greatest potential to drive economic growth and job creation this decade. Due to factors like power growth, long-term employment prospects, and skill routes for millions of people, India has a significant potential to engage in international markets. Several factors contribute to their potential. First off, these value chains are well positioned to benefit from India's advantages in terms of raw materials, industrial expertise, and entrepreneurship.

Second, they can take advantage of four market opportunities: expanding exports, localizing imports, internal demand, and contract manufacturing. With digital transformation being a crucial component in achieving an advantage in this fiercely competitive industry, technology has today sparked creativity. Manufacturing sector in India is gradually shifting to a more automated and process driven manufacturing which is expected to increase the efficiency and boost production of the manufacturing industry.

India is gradually progressing on the road to Industry 4.0 through the Government of India's initiatives like the National Manufacturing Policy which aims to increase the share of manufacturing in GDP to 25 percent by 2025 and the PLI scheme for manufacturing which was launched in 2022 to develop the core manufacturing sector at par with global manufacturing standards.

FDI in India's manufacturing sector has reached US\$ 165.1 billion, a 69% increase over the past decade, driven by production-linked incentive (PLI) schemes. In the last five years, total FDI inflows amounted to US\$ 383.5 billion.

India is planning to offer incentives of up to ₹ 18,000 crore (US\$ 2.2 billion) to spur local manufacturing in six new sectors including chemicals, shipping containers, and inputs for vaccines.

India's mobile phone manufacturing industry anticipates creating 150,000 to 250,000 direct and indirect jobs within the next 12-16 months, driven by government incentives, and increased global demand. Major players like Apple and its contract manufacturers, along with Dixon Technologies, are expanding their workforce to meet growing production needs.

MARKET SIZE

Manufacturing exports have registered their highest ever annual exports of US\$ 447.46 billion with 6.03% growth during FY23 surpassing the previous year (FY22) record exports of US\$ 422 billion. By 2030, Indian middle class is expected to have the second-largest share in global consumption at 17%.

India's Gross Value Added (GVA) at current prices was estimated at US\$ 770.08 billion as per the quarterly estimates of the first quarter of FY24.

India's e-commerce exports are projected to grow from US\$ 1 billion to US\$ 400 billion annually by 2030, aiding in achieving US\$ 2 trillion in total exports.

India's smartphone exports exceeded US\$ 2 billion in October 2024, setting a new monthly record and contributing to total exports surpassing US\$ 10.6 billion in the first seven months of FY25, a 37% increase from the previous year.

India's smartphone exports surged by 42% in FY24, reaching US\$ 15.6 billion, with the US as the top destination, reflecting the success of the Production-Linked Incentive (PLI) scheme in boosting the sector.

As per the survey conducted by Reserve Bank of India, capacity utilisation in India's manufacturing sector stood at 76.8% in the third quarter of FY24, indicating a significant recovery in the sector.

Source: Reserve Bank of India Order Books, Inventories and Capacity Utilisation Survey

India's GDP surged by 8.4% in the October-December quarter, surpassing expectations.

GDP growth was driven by robust performances in the manufacturing and construction sectors, with the manufacturing sector expanding by 11.6% annually and the construction sector growing by 9.5%.

India's overall exports during the April-June period of 2024-25 are estimated to be US\$ 109.11 billion, reflecting a positive growth of 7% over the April-June period of 2023-24.

The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025-26.

The Indian startup ecosystem experienced a significant rebound, securing approximately US\$ 596 million in funding this week, marking a 226% increase compared to the previous week. This surge was driven by 23 startups, including notable deals such as Zepto raising US\$ 350 million and HealthKart securing US\$ 153 million. The average funding over the past eight weeks has been around US\$ 266.77 million per week, with a total of nearly US\$ 10 billion raised by Indian startups so far this year, indicating a strong trajectory toward surpassing last year's total funding of US\$ 10.5 billion.

India has potential to become a global manufacturing hub and by 2030, it can add more than US\$ 500 billion annually to the global economy. As per the economic survey reports, estimated employment in manufacturing sector in India was 5.7 crore in 2017-18, 6.12 crore in 2018-19 which was further increased to 6.24 crore in 2019-20. India's display panel market is estimated to grow from ~US\$ 7 billion in 2021 to US\$ 15 billion in 2025.

The manufacturing GVA at current prices was estimated at US\$ 110.48 billion in the first quarter of FY24.

INVESTMENTS/ DEVELOPMENTS

Some of the major investments and developments in this sector in the recent past are:

- Shree Cement has signed a Memorandum of Understanding (MoU) with the Department for Promotion of Industry and Internal Trade (DPIIT) to support manufacturing sector startups by providing infrastructure, mentorship, funding access, and market connections, aiming to enhance India's manufacturing ecosystem and promote self-reliance through domestic innovation.
- India's defence exports soared by 78% in Q1 FY25, reaching ₹ 6,915 crore (US\$ 828 million). This growth reflects the country's push for self-reliance in defence manufacturing, with total exports hitting a record ₹ 20,915 crore (US\$ 2.51 billion) in FY24, marking a 25% increase from the previous year.

- Sansera Engineering Limited has signed an MoU with the Karnataka government to invest ₹ 2,100 crore (US\$ 251 million) in a new manufacturing facility in Ramanagara, aiming to create 3,500 jobs and enhance production capacity in the automotive and non-automotive sectors over the next three to five years.
- Google is set to begin manufacturing Pixel smartphones in India, specifically in Tamil Nadu, in collaboration with Foxconn and Dixon Technologies. This production aims to cater primarily to export markets in Europe and the US, with operations expected to start in September 2024. The initiative comes as Google prepares to launch its Pixel 9 series in India on August 13, leveraging India's Production-Linked Incentive (PLI) scheme to enhance manufacturing scalability.
- Maruti Suzuki has begun exporting the Made-in-India Fronx compact SUV to Japan, marking its first SUV launch in the Japanese market. Manufactured at its Gujarat plant, the first shipment of over 1,600 vehicles has already left for Japan, with the official launch planned for autumn 2024.
- According to the Department for Promotion of Industry and Internal Trade (DPIIT), India received a total foreign direct investment (FDI) inflow of US\$ 48.03 billion in FY23.
- Between April 2000-March 2024:
 - The automobile sector received FDI inflows of US\$ 36.26 billion.
 - The chemical manufacturing sector (excluding fertilisers) received FDI inflows worth US\$ 22.14 billion.
 - The drug and pharmaceutical manufacturing sector received FDI inflows worth US\$ 22.52 billion.
 - The Food Processing Industries received FDI inflows worth US\$ 12.58 billion.
- India's manufacturing sector activity continued to expand in November 2023, with the S&P Global Purchasing Managers' Index (PMI) reaching 56.
- During the financial year 2022-23, around 1.39 crore net members were added by EPFO with an increase of 13.22% compared to the previous financial year 2021-22 wherein EPFO had added approximately 1.22 crore net members.
- Mobile phone exports from India nearly doubled to reach US\$ 5.5 billion, by August in FY24, with the government anticipating mobile phone exports worth ₹ 1 trillion (US\$ 12 billion) this year.
- In February 2024, the Manufacturing Purchasing Managers' Index (PMI) in India stood at 56.9.
- In FY23, the Manufacturing Purchasing Managers' Index (PMI) in India stood at 55.6.
- For the month of January 2024, the Quick Estimates of Index of Industrial Production (IIP) with base 2011-12 stands at 153.0. The Indices of Industrial Production for the Mining, Manufacturing and Electricity sectors for the month of January 2024 stand at 144.1, 150.1 and 197.1, respectively.
- The Index of Industrial Production (IIP) from April-January 2024 stood at 143.4.
- The combined index of eight core industries stood at 150.3 for April-November 2023 against 139.4 for April-November 2022.
- The cumulative index of eight core industries increased by 8.6% during April-October 2023-24 over the corresponding period of the previous year.
- India's manufacturing sector, driven by pharmaceuticals, motor vehicles, and cement, demonstrated resilience despite weak global demand in July-August 2023. PMI remained robust, reflecting domestic economic strength. Capacity utilization in manufacturing trended upwards, signalling positive investment prospects. RBI MPC maintained policy repo rate to control inflation.
- India aims for US\$ 100 billion annual foreign direct investment (FDI) in the coming years, according to Union Minister of Information and Broadcasting Mr. Ashwini Vaishnaw, as part of the government's strategy focused on infrastructure investment, social upliftment, manufacturing growth, and simplification of business processes, amidst projections of consistent 6-8% economic growth over the next decade.

- At the aggregate level, the capacity utilization (CU) in the manufacturing sector increased to 74.0% in Q2:2023-24 from 73.6% in the previous quarter.
- In FY23, the export of the top 6 major commodities (Engineering goods, Petroleum products, Gems and Jewellery, Organic and Inorganic chemicals, and Drugs and Pharmaceuticals) stood at US\$ 295.21 billion.
- In FY24, the Manufacturing Purchasing Managers' Index (PMI) in India stood at 59.1.
- India's manufacturing industry witnessed its fastest expansion in 16 years in March, with the HSBC final India Manufacturing Purchasing Managers' Index (PMI) soaring to 59.1, the highest since February 2008. This surge was fuelled by increased demand, resulting in notable improvements in new orders, output, input stocks, and job creation, as reported by S&P Global.
- In May 2024, the Manufacturing Purchasing Managers' Index (PMI) in India stood at 57.5.
- India's overall exports during the April-February period of 2023-24 are estimated to be US\$ 709.81 billion, reflecting a marginal positive growth of 0.83% over the April-February period of 2022-23. In February 2024 alone, exports stood at US\$ 73.55 billion, showing a growth of 14.20% compared to the same month in the previous year.
- The Employees' Provident Fund Organization (EPFO) added 8.41 lakh people in December 2023.
- The latest payroll data shows a significant increase in female workforce participation. Out of 8.41 lakh new members, around 2.09 lakh are female, the highest in three months. This marks a 7.57% increase from November 2023. Additionally, the net female member addition stood at approximately 2.90 lakh, up by about 3.54% from the previous month.
- Amazon Inc's cloud computing division, Amazon Web Services, became the latest company to invest in India. The company has planned to invest US\$13 billion (over ₹ 1 lakh crore) in India by 2030 to build its cloud infrastructure and create thousands of jobs.
- For the month of April 2024, the Quick Estimates of Index of Industrial Production (IIP) with base 2011-12 stands at 147.7. The Indices of Industrial Production for the Mining, Manufacturing and Electricity sectors for the month of January 2024 stand at 130.8, 144.2, and 212.0, respectively.
- On February 29, 2024, India approved the construction of three semiconductor plants with investments exceeding \$15 billion. These plants aim to establish India as a major chip hub, with Tata Electronics, Tata Semiconductor Assembly and Test Private Limited, and CG Power spearheading the projects in Gujarat and Assam. This initiative aligns with India's goal to bolster its semiconductor ecosystem and create numerous advanced technology jobs.
- In October 2021, information technology major Zoho announced that it will invest ₹ 50–100 crore (US\$ 6.7-13.4 million) and form a new company, that will focus on research and development (R&D) in the manufacturing sector.
- India's GDP surged in the January-March quarter, growing 7.8%, exceeding the 6.7% forecast. Manufacturing rebounded by 9.9%, contrasting with last year's contraction. GDP for the fiscal year hit 8.2%. IMF projects India as the world's fourth-largest economy by 2025.
- India's gross value added (GVA) at current prices was estimated at US\$ 506.35 billion as per the quarterly estimates of the fourth quarter of FY24.

GOVERNMENT INITIATIVES

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- In the Interim Union Budget 2024-2025:

- In the interim budget 2024, the allocation for the Production Linked Incentive (PLI) Scheme for various sectors saw a substantial increase, with notable examples including a 360% rise to ₹ 6,903 crore (US\$ 830 million) for the Semiconductors and Display Manufacturing Ecosystem and a 623% surge to ₹ 3,500 crore (US\$ 421 million) for the Automobile sector.
- In the interim budget 2024, there was commendable fiscal responsibility demonstrated alongside significant investments in infrastructure, including emphasis on affordable housing, clean energy, and technological advancement. Additionally, the budget allocated funds for the creation of a ₹ 1-lakh crore (US\$ 12 billion) innovation fund for sunrise domains, providing a substantial boost for the startup industry. Moreover, there was a notable focus on promoting the shift to electric vehicles (EV) through the expansion of EV charging networks, thereby offering opportunities for small vendors in manufacturing and maintenance.
- In the Interim Union Budget 2024-25, the Ministry of Defence has been allocated ₹ 621,541 crore (US\$ 74.78 billion), marking a significant increase of approximately 4.72% from the previous allocation of ₹ 593,538 crore (US\$ 71.41 billion)
- On the 10th anniversary of the 'Make in India' initiative, Union Commerce and Industry Minister Mr. Piyush Goyal reported significant achievements, including an 85% reduction in mobile imports and a 200% increase in manufacturing jobs from 2022 to 2024. He emphasized that 99% of mobile phones in India are now produced domestically, reflecting the initiative's success in transforming India's manufacturing landscape and attracting substantial Foreign Direct Investment (FDI). He highlighted ongoing efforts to improve the ease of doing business and support the startup ecosystem, aiming to position India as a global manufacturing hub and a developed nation by 2047.
- Union Minister of Education and Skill Development & Entrepreneurship, Mr. Dharmendra Pradhan inaugurates Rashtriya Udyamita Vikas Pariyojana under Skill India Mission, empowering PM SVANidhi beneficiaries with comprehensive 22-week entrepreneurship training, including theoretical and practical components, in collaboration with Flipkart and focusing on 40% women participation.
- Semiconductor associations IESA and SEMI signed a Memorandum of Understanding (MoU) in Bengaluru to establish India as a global manufacturing hub, focusing on talent development, policies, design, skilling, research, academia, and supply chains, leveraging SEMI's international network and IESA's expertise.
- Under the Skill India mission, Pradhan Mantri Kaushal Vikas Yojana (PMKVY) has trained over 1.40 crore candidates since 2015, as per Skill India Digital data until December 13, 2023. Notably, in the Short-term Training (STT) program, 42% of certified candidates found placement opportunities, with 24.39 lakh candidates successfully placed out of 57.42 lakh certified.
- In the Union Budget 2023-24:
 - Startups incorporated within a time-period and meeting other conditions can deduct up to 100% of their profits; the end of this period has been extended from March 31, 2023, to March 31, 2024. In addition, the period within which losses of startups may be carried forward has been extended from seven to ten years.
 - As per the Union Budget 2023 – 24, the income tax rate for new co-operative societies engaged in manufacturing activities has been lowered from 22% to 15% (plus 10% surcharge)
 - The upper limit on turnover for MSMEs to be eligible for presumptive taxation has been raised from ₹ 2 crore (US\$ 2,43,044) to ₹ 3 crore (US\$ 3,64,528). The upper limit on gross receipts for professionals eligible for presumptive taxation has been raised from ₹ 50 lakh (US\$ 60,754) to ₹ 75 lakh (US\$ 91,132).
 - Expenditure on fertilizer subsidy is estimated at ₹ 1,75,100 crore (US\$ 21.2 billion) in 2023-24. This is a decrease of ₹ 50,120 crore (US\$ 6.09 billion) (22.3%) from the revised estimate of 2022-23. Fertilizer subsidy for 2022-23 was increased substantially in response to a sharp increase in international prices of raw materials used in the manufacturing of fertilizers.
 - The Centre will facilitate one crore farmers to adopt natural farming. For this, 10,000 Bio-Input Resource Centers will be set up, creating a national-level distributed micro-fertilizer and pesticide manufacturing network.
 - To avoid cascading taxes on blended compressed natural gas, excise duty on GST-paid compressed biogas contained in it has been exempted from excise duty. Customs duty exemption has been extended to import

of capital goods and machinery required for manufacture of lithium-ion cells for batteries used in electric vehicles.

- To further deepen domestic value addition in manufacture of mobile phones, the finance minister announced relief in customs duty on import of certain parts and inputs like camera lens. The concessional duty on lithium-ion cells for batteries will continue for another year. Basic customs duty on parts of open cells of TV panels has been reduced to 2.5%. The Budget also proposes changes in the basic customs duty to rectify inversion of duty structure and encourage manufacturing of electrical kitchen chimneys.
- Basic customs duty on seeds used in the manufacture of Lab Grown Diamonds has also been reduced.
- The Ministry of Defense has set a target of achieving a turnover of US\$ 25 million in aerospace and defense Manufacturing by 2025, which includes US\$ 5 billion exports. Till October 2022, a total of 595 Industrial Licenses have been issued to 366 companies operating in the Defense Sector.
- A new category of capital procurement ‘Buy {Indian-IDD (Indigenously Designed, Developed and Manufactured)}’ has been introduced in Defense Procurement Procedure (DPP)-2016.
- By 2030, the Indian government expects the electronics manufacturing sector to be worth US\$ 300 billion.
- Initiatives like Make in India, Digital India and Startup India have given the much needed thrust to the Electronics System Design and Manufacturing (ESDM) sector in India.
- Moreover, the government’s endeavors such as Modified Special Incentive Scheme (M-SIPS), Electronics Manufacturing Clusters, Electronics Development Fund and National Policy on Electronics 2019 (NPE 2019) have been a huge success.
- The Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECS) has been notified with an aim to strengthen the value chain for the manufacturing of electronic products in India.
- In the Union Budget 2022-23:
 - The Ministry of Defense was allocated ₹ 525,166 crore (US\$ 67.66 billion).
 - The government allocated ₹ 2,403 crore (US\$ 315 million) for Promotion of Electronics and IT Hardware Manufacturing.
- The PLI for semiconductor manufacturing is set at ₹ 760 billion (US\$ 9.71 billion), with the goal of making India one of the world's major producers of this crucial component.
- The government approved a PLI scheme for 16 plants for key starting materials (KSMs)/drug intermediates and active pharmaceutical ingredients (APIs). The establishment of these 16 plants would result in a total investment of ₹ 348.70 crore (US\$ 47.01 million) and generation of ~3,042 jobs. The commercial development of these plants is expected to begin by April 2023.
- In September 2022, the National Logistics Policy was launched by Prime Minister Mr. Narendra Modi which ensures quick last mile delivery, ends transport-related challenges.
- In November 2021, the Experts' Advisory Committee (EAC) of the Department for Promotion of Industry and Internal Trade approved ₹ 3 crore (US\$ 403,293.54) for the Atal Incubation Centre (AIC), Pondicherry Engineering College Foundation (PECF), under the Start-up India Seed Fund scheme.
- In September 2021, Prime Minister Mr. Narendra Modi approved the production-linked incentive (PLI) scheme in the textiles sector—for man-made fiber (MMF) apparel, MMF fabrics and 10 segments/products of technical textiles—at an estimated outlay of ₹ 10,683 crore (US\$ 1.45 billion).
- India outlined a plan in August 2021 to reach its goal of US\$ 1 trillion in manufactured goods exports.
- In July 2021, the government launched six technology innovation platforms to develop technologies and thereby, boost the manufacturing sector in India to compete globally.
- To propagate Make in India, in July 2021, the Defense Ministry issued a tender of ₹ 50,000 crore (US\$ 6.7 billion) for building six conventional submarines under Project-75 India.

- In May 2021, the government approved a PLI scheme worth ₹ 18,000 crore (US\$ 2.47 billion) for production of advanced chemical cell (ACC) batteries; this is expected to attract investments worth ₹ 45,000 crore (US\$ 6.18 billion) in the country, and further boost capacity in core component technology and make India a clean energy global hub.
- In India, the market for grain-oriented electrical steel sheet manufacturing is witnessing high demand from power transformer producers, due to the rising demand for electric power and increasing adoption of renewable energy in the country.
- The Mega Investment Textiles Parks (MITRA) scheme to build world-class infrastructure will enable global industry champions to be created, benefiting from economies of scale and agglomeration. Seven Textile Parks will be established over three years.
- The government proposed to make significant investments in the construction of modern fishing harbors and fish landing centers, covering five major fishing harbours in Kochi, Chennai, Visakhapatnam, Paradip, and Petuaghat, along with a multipurpose Seaweed Park in Tamil Nadu. These initiatives are expected to improve exports from the textiles and marine sectors.
- The 'Operation Green' scheme of the Ministry of the Food Processing Industry, which was limited to onions, potatoes, and tomatoes, has been expanded to 22 perishable products to encourage exports from the agricultural sector. This will facilitate infrastructure projects for horticulture products.

ROAD AHEAD

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury, and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country. The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 3.4 trillion along with a population of 1.48 billion people, which will be a big draw for investors. The Indian Cellular and Electronics Association (ICEA) predicts that India has the potential to scale up its cumulative laptop and tablet manufacturing capacity to US\$ 100 billion by 2025 through policy interventions.

One of the initiatives by the Government of India's Ministry for Heavy Industries & Public Enterprises is SAMARTH Udyog Bharat 4.0, or SAMARTH Advanced Manufacturing and Rapid Transformation Hubs. This is expected to increase competitiveness of the manufacturing sector in the capital goods market. With impetus on developing industrial corridors and smart cities, the Government aims to ensure holistic development of the nation.

The corridors would further assist in integrating, monitoring, and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

INFRASTRUCTURE INDUSTRY

Performance of eight core infrastructure industries

- The production of Coal, Electricity, Steel, Cement, Fertilizers, Refinery Products and Natural Gas increased in January 2024.
- The combined Index of Eight Core Industries (ICI) increased by 4.2% (provisional) YoY in April-September 2024 compared to April-September 2023.
- In September 2024, the overall index of eight core industries stood at 161.2* driven by the production of coal, refinery products, fertilizers, steel, electricity and cement industries.
- The cumulative growth rate of ICI during FY24 stood at 7.6% (provisional) compared to last year's corresponding period.
- In February 2024, NTPC Limited and National Aluminium Company Limited (NALCO), a Navaratna company, inked a non-binding memorandum of understanding (MoU) to investigate ways to provide at least 1200 MW of continuous power supply around the clock to meet NALCO's needs for expanding the capacity of its smelter plant in Odisha.

In August 2022, the Prime Minister of India inaugurated the nation's first second-generation (2G) ethanol project in Panipat, built at an estimated cost of over ₹ 900 crore (US\$ 108.7 million) by Indian Oil Corporation Ltd. (IOCL).

Power generation capacity has increased at a healthy pace

- As on October 2024, India's total installed electricity generation capacity stood at 454 MW.
- As of October 2024, India's installed renewable energy capacity has increased to 203.21 Giga Watts (including large Hydro), which is about 45% of the country's total capacity.
- As of October 2024, the installed solar, wind and other renewable energy capacity stands at 156.24 GW.
- The cumulative FDI equity inflow in the Power sector is US\$ 18.34 billion during the period April 2000 to June 2024. This constitutes 2.64% of the total FDI inflow received across sectors.
- For 2023-24, the total budgetary allocation towards the Ministry of Power stood at ₹ 1,96,035 crore (US\$ 23.83 billion).

- In fiscal year 2022-23, India commissioned 10 thermal power units of an aggregate 7,010 MW capacity.
- Cumulatively 39 thermal power plants with a capacity of 27,550 MW are under construction and will likely take another four years to complete.
- India's power consumption grew by 13.31% on an annual basis to 127.39 billion units (BU) in September 2022 and 11.65% in H1 FY23.
- Thermal power plant load factor or capacity utilization will improve to 63% in FY24, fueled by strong demand growth along with subdued capacity addition in the sector.
- As part of the Interim Budget 2024-25, the allocation for solar power grid reached ₹ 8,500 crores (US\$ 1.02 billion) from the previous allocation of ₹ 4,970 crores (US\$ 598.80 million).
- In February 2024, as part of the Pradhan Mantri Suryodaya Yojana, the government announced of installing rooftop solar panels in 1 crore households to gain upto 300 units of free electricity each month.

Robust Demand

- India has to enhance its infrastructure to reach its 2025 economic growth target of US\$ 5 trillion.
- India's population growth and economic development require improved transport infrastructure, including investments in roads, railways, and aviation, shipping and inland waterways.
- As per the Reserve Bank of India (RBI) in the past 4 years until March 2024, Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (InvITs) have amassed US\$ 15.60 billion (₹ 1.3 lakh crore).
- According to a Cushman & Wakefield report, India's real estate market saw a surge in investments during the second quarter of 2024, attracting US\$ 2.77 billion.

Attractive Opportunities

- Development of infrastructure has a multiplier effect on demand and efficiency of transport and increases commercial and entrepreneurship opportunities.
- In March 2024, Prime Minister, Mr. Narendra Modi inaugurated multiple connectivity projects in Kolkata, totaling US\$ 1.8 billion.
- In March 2024, the Minister of Civil Aviation and Steel announced inaugurating 15 airport projects worth US\$ 12.1 billion by 2028.
- In June 2022, the Minister of Road Transport and Highways, opened 15 national highway projects worth ₹ 13,585 crore (US\$ 1.7 billion) in Patna and Hajipur, Bihar.
- As per a report of Morgan Stanley India's infrastructure investment to steadily increase from 5.3% of GDP in FY24 to 6.5% of GDP by FY29.

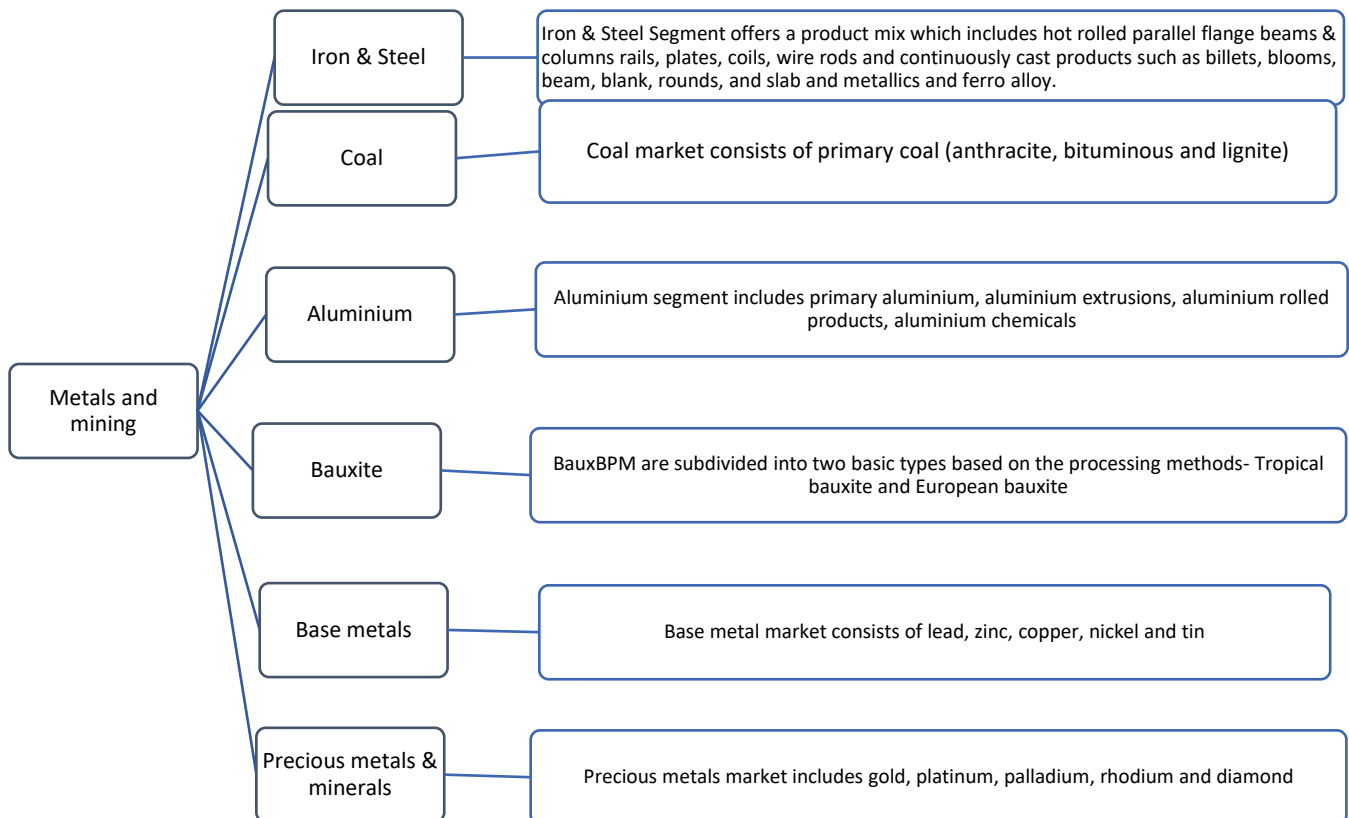

Policy support

- Budget 2023-24 is complemented with the continuation of the 50-year interest-free loan to state governments for one more year to spur investment in infrastructure and to incentivize them for complementary policy actions, with a significantly enhanced outlay of ₹ 1.3 lakh crore (US\$ 16 billion).
- India's infrastructure sector is set for robust growth, with planned investments of US\$ 1.4 trillion by 2025. The government's National Infrastructure Pipeline (NIP) program aims to channel significant capital into key areas such as energy, roads, railways, and urban development.
- In line with the PM GatiShakti National Master Plan, the government has shortlisted eight key infrastructure projects—seven from the Ministry of Railways and one from the Ministry of Road Transport and Highways (MoRTH)—to enhance efficiency and reliability in challenging terrains. The recent budget allocated over ₹ 11.11 lakh crore (US\$ 132.62 billion) for infrastructure development under the PM Gati Shakti initiative for 2024-25

Increasing Investments

- Under Interim Budget 2024-25, capital investment outlay for infrastructure has been increased by 11.1% to ₹11.11 lakh crore (US\$ 133.86 billion), which would be 3.4 % of GDP.
- FDI in construction development (townships, housing, built-up infrastructure and construction development projects) and construction (infrastructure) activity sectors stood at US\$ 26.54 billion and US\$ 33.52 billion, respectively, between April 2000-December 2023.
- According to CRISIL's Infrastructure yearbook 2023, India will spend nearly ₹ 143 lakh crore (US\$ 1,727.05 billion) on infrastructure in seven fiscals through 2030, more than twice the near ₹ 67 lakh crore (US\$ 912.81 billion) spent in the previous seven years.

Segments of metals and mining industry

Rising steel demand driving growth

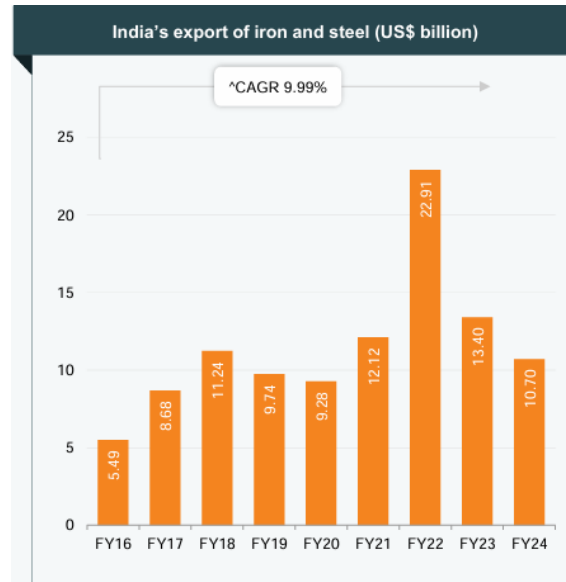

- India is a global force in steel production and the second-largest crude steel producer in the world.
- In FY24, the cumulative production of crude steel stood at 144.04 MT, finished steel stood at 143 MT, and consumption of finished steel stood at 136 MT. During April-October 2024, crude steel production stood at 84.94 MT, finished steel production stood at 82.65 MT and consumption at 85.71 MT.
- Production of steel in India could go up to 500 million tonnes by 2050, nearly four times the current output, as New Delhi seeks to undergird its evident growth ambitions with rapid capacity expansion for the primary infrastructure alloy, a senior executive at mining major BHP said.
- The Indian government's approved National Steel Policy (NSP) 2017 envisages 300 million tonnes (MT) steel-making capacity and 160 kgs per capita steel consumption by 2030-31.
- In August 2022, Tata Steel signed a MoU with the Government of Punjab for setting up a 0.75 MnTPA long products steel plant with a scrap-based electric arc furnace.
- SAIL supplied about 30,000 tons of specialty steel for the nation's first indigenously built Aircraft Carrier INS Vikrant for the Indian Navy which was commissioned on September 2, 2022, at Cochin Shipyard Ltd.
- In November 2022, IIT Bombay and JSW Group entered into an exclusive strategic agreement to establish a first-of-its-kind, state-of-the-art JSW Technology Hub in India for steel manufacturing in India

Finished steel production and consumption (million tonnes) Crude steel production (million tonnes)

India's export of iron & steel

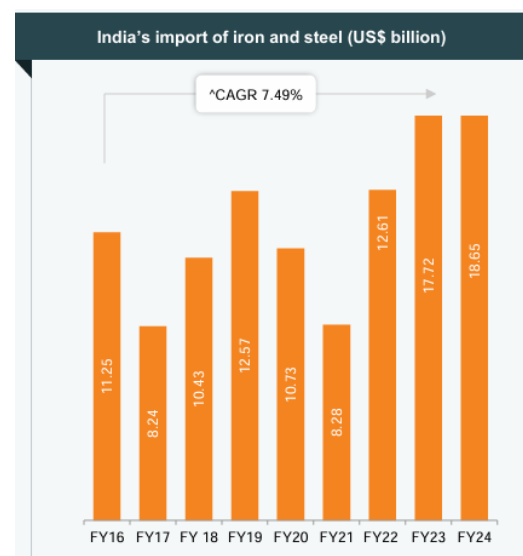

- In FY24, exports of finished steel stood at 7.5MT up by 11.5% from last year.
- During April-October FY25, export of finished steel stood at 2.75 MT.
- In 2022-23, exports of iron ore stood at US \$1.75 billion as compared to US\$3.18 billion in 2021-22.
- In November 2022, the government has withdrawn the export duty on steel products, iron ore lumps and fines (less than 58% iron content) and iron pellets, while the export duty of iron ore lumps and fines (more than 58% iron content) has been reduced from 50% to 30%. The reversal of the export duty hike is expected to boost the Indian exports of steel products in the near to medium term.

- Demand for steel is expected to grow by around 10% through 2022 amid the government's continued focus on the construction of roads, railways, ports and airports.

India's import of iron & steel

- Iron and steel imports stood at US\$1.83 billion in December 2023
- Imports of steel increased by 5.25% to 18.65 million tonnes in FY24 from 17.12 million tonnes in FY23.
- The domestic steel demand growth will be healthy at 7-8% in FY2024-25, driven by moderate government spending during the election period.
- In FY23, production of crude steel at 125.32 million tonnes (MT), finished steel at 121.29MT and consumption of finished steel at 119.17 MT exceeded their respective levels achieved over the corresponding period of not only COVID affected last two years but also pre-COVID years as well.

- In October 2022, Welspun Metallics Limited forayed into Steel manufacturing as a part of the company's overall business growth and diversification strategy by launching a state-of-the-art Greenfield manufacturing facility in Anjar, Gujarat. In February 2023, JSW Group announced to build a steel plant in Andhra Pradesh's YSR Kadapa district with an investment of ₹ 8,800 crore (US\$1 billion)

Demand Growth

- Being the third largest energy consuming country in the world, there is always increased demand for power and electricity in the country, and hence the surge in demand for coal.
- Demand for steel is likely to grow by ~10% as the government's augmented focus on infrastructural development continues with increased construction of roads, railways, airports, etc.
- India has set the targets of achieving a total crude steel capacity of 300 million tonnes per annum (MTPA) and total crude steel demand/ production of 255 MTPA by 2030-31.
- The demand of zinc is expected to double in India in the next five to 10 years on the back of huge investments in infrastructure sector, including steel, International Zinc Association.

Attractive Opportunities

- By becoming Aatmanirbhar in producing specialty steel, India will move up the steel value chain and come at par with advanced steel making countries like Korea and Japan.
- Under the PLI Scheme for Specialty Steel, 57 MoUs with 27 companies have been signed, attracting investments of US\$ 3.55 billion (₹ 29,500 crores), creating an additional capacity of 25 MT and generating employment for 17,000 people by FY 2027-28. As of December 2023, companies have invested US\$ 1.55 billion (₹ 12,900 crores), with an expected investment of US\$ 360 million (₹ 3,000 crores) in FY24. Five units have already commenced production, and nine more are set to begin operations in the last quarter of FY24.

Policy Support

- Enactment of Mines and Minerals (Development and Regulation) Amendment Act, 2021 enabled captive mines owners (other than atomic minerals) to sell up to 50% of their annual mineral (including coal) production in the open market.
- In December 2023, the Ministry of Mines proposed capping performance security and upfront amounts for mining critical minerals to attract more bidders, reduce barriers to participation in auctions and expedite the process for mining leases.

Competitive Advantage

- India holds a fair advantage in cost of production and conversion costs in steel and alumina.
- As of FY22, the number of reporting mines in India were estimated at 1,319, of which reporting mines for metallic minerals were estimated at 545 and non-metallic minerals at 775.
- India is the second-largest crude steel producer in the world.
- India is the 2nd largest Aluminium producer, 3rd largest lime producer and 4th largest iron ore producer in the world.

OVERVIEW OF BUSINESS

Our Company was initially incorporated as a private company in the name of “M P K Steels (I) Private Limited ” on February 28, 2005, under the provision of Companies Act 1956 bearing Corporate Identification Number U27109AS2005PTC007674 issued by Registrar of Companies Assam, Mizoram, Manipur, Tripura, Nagaland, Arunachal Pradesh & Meghalaya, Shillong. Subsequently, our Company was converted into Public Limited Company pursuant to Shareholders resolution passed at the Extraordinary General Meeting of our Company held on November 12, 2024, and the name of our Company was changed to “M P K Steels (I) Limited” and a Fresh Certificate of Incorporation consequent upon conversion of Company to Public Limited dated December 16, 2024 was issued by the Registrar of Companies, Central Processing Centre. The Corporate Identification Number of the Company is U27109AS2005PLC007674.

Our Core business is as follows:

We, M P K STEELS (I) LIMITED are a manufacturer of general-purpose structural steel products, specializing in providing high-quality solutions for a wide range of industries such as Railways, Telecom Industries, State Electricity Boards, Power & Energy Industries, Automotive Industry, Offshore Structures, Construction Industries, Fabrication Industries, Auto Body Builders, Infrastructural Development Authorities.

Over a period of time the Company has adopted energy-efficient and resource efficient production technology which also helped reducing its impact on the environment, while still making sure its products are strong, reliable, and meet the needs of its customers.

Over the two decades, M P K has experienced remarkable growth, positioning itself as a rapidly growing organizations in the steel industry. The company’s focus on long-term growth and development has helped it navigate through changing market dynamics while remaining committed to its core values of quality and innovation.

The company’s growth is driven by its use of efficient processes and a commitment to meeting customer needs through reliable and consistent product quality. By utilizing the technology, M P K has been able to streamline its manufacturing processes, enhance product quality, and improve overall efficiency. Additionally, the company places great importance on understanding and addressing the needs of its customers, which has helped it build a good reputation within the industry.

Our company is well-equipped to manufacture and trade a wide range of structural steel products, including M.S. Channel, M.S. Joist/Beam, M.S. Angle, M.S. Square Bar, M.S. Round Bar, and M.S. Flat where M.S. Channels generate the majority of our revenue and play a pivotal role in driving the success of our business. The M.S. Channels we produce are widely used in several sectors for structural support and load-bearing applications. They are particularly important in the construction industry, where they serve as beams, frames, and supports for buildings, bridges, and other infrastructure projects. Additionally, M.S. Channels are commonly used in power and energy industries for the construction of power plants, substation structures, and electrical frameworks. In the railway sector,

especially with organizations like CORE (Central Organization for Railway Electrification), M.S. channels are used for building railway electrification structures and other railway-related infrastructure. Our M.S. Channels also play a important role in the fabrication industry, where they are used for creating custom frameworks, machinery, and heavy-duty structures.

The Product Wise Breakup of our Revenue is as follows:

The primary raw materials used in our production process are billets and ingots, which serve as the foundation for creating a variety of steel products. Billets are semi-finished steel products that are typically produced through the process of casting and are shaped into square or rectangular cross-sections. They are used as raw materials for further processing into various forms like bars, rods, and sections. Ingots, on the other hand, are large blocks of steel formed by pouring molten steel into molds, where they are allowed to cool and solidify. Both billets and ingots are essential in the production of high-quality steel and form the backbone of our manufacturing operations. The billets and ingots we use are predominantly sourced from Rajasthan. The raw materials are carefully selected to meet our quality standards, ensuring that only the better quality materials are used in the production of our steel products. This supply chain allows us to maintain consistency and reliability in our final products. Details of state wise breakup of procurement of raw material is as follows:

M P K is dedicated to providing a comprehensive solution in structural steel, ensuring all products are designed to meet the company's quality standards. By actively considering customer's feedback, understanding their unique requirements, and delivering customized solutions, M P K ensures customer satisfaction for each order. This commitment to our customers fosters strong, enduring relationships and reinforces our reputation for quality and reliability.

We focus on ensuring that our products meet high-quality standards and are thoroughly inspected and tested to ensure they are free from defects and function as intended. We follow strict parameters for product evaluation to provide reliable and durable steel products that support the needs of our clients in their important projects.

The Company's unit has won ISO 9001:2015 accreditations for quality management system, ISO 14001:2015 for environmental management and ISO 45001:2018 for occupational health and safety standards. It has procured BIS certification such as IS 2062:2011 from the Bureau of Indian Standards. Thus, it is authorized to put ISI seal on its products.

Our factory is located on the Delhi-Mumbai Highway covering the 10,393.75 Sqm at A - 195, RIICO Industrial Area Extension, Phase 2 Bagru, Jaipur, Rajasthan- 303007, India. Thus, it enables better connectivity to the major markets of the country. The company has a mix of skilled and unskilled employees that includes young and experienced professionals, engineers and technical staff. Also, company has a network of distributors and dealers with whom the company have long-term relationship to fetch customers in market. These customers are spread across various industries ranging from Railways, Telecom Industries, State Electricity Boards, Power & Energy Industries, Automotive Industry, Offshore Structures, Construction Industries, Fabrication Industries, Auto Body Builders and Infrastructural Development Authorities. This commitment has not only helped us to build trust and loyalty within our workforce and client base but has also positioned us in the industry.

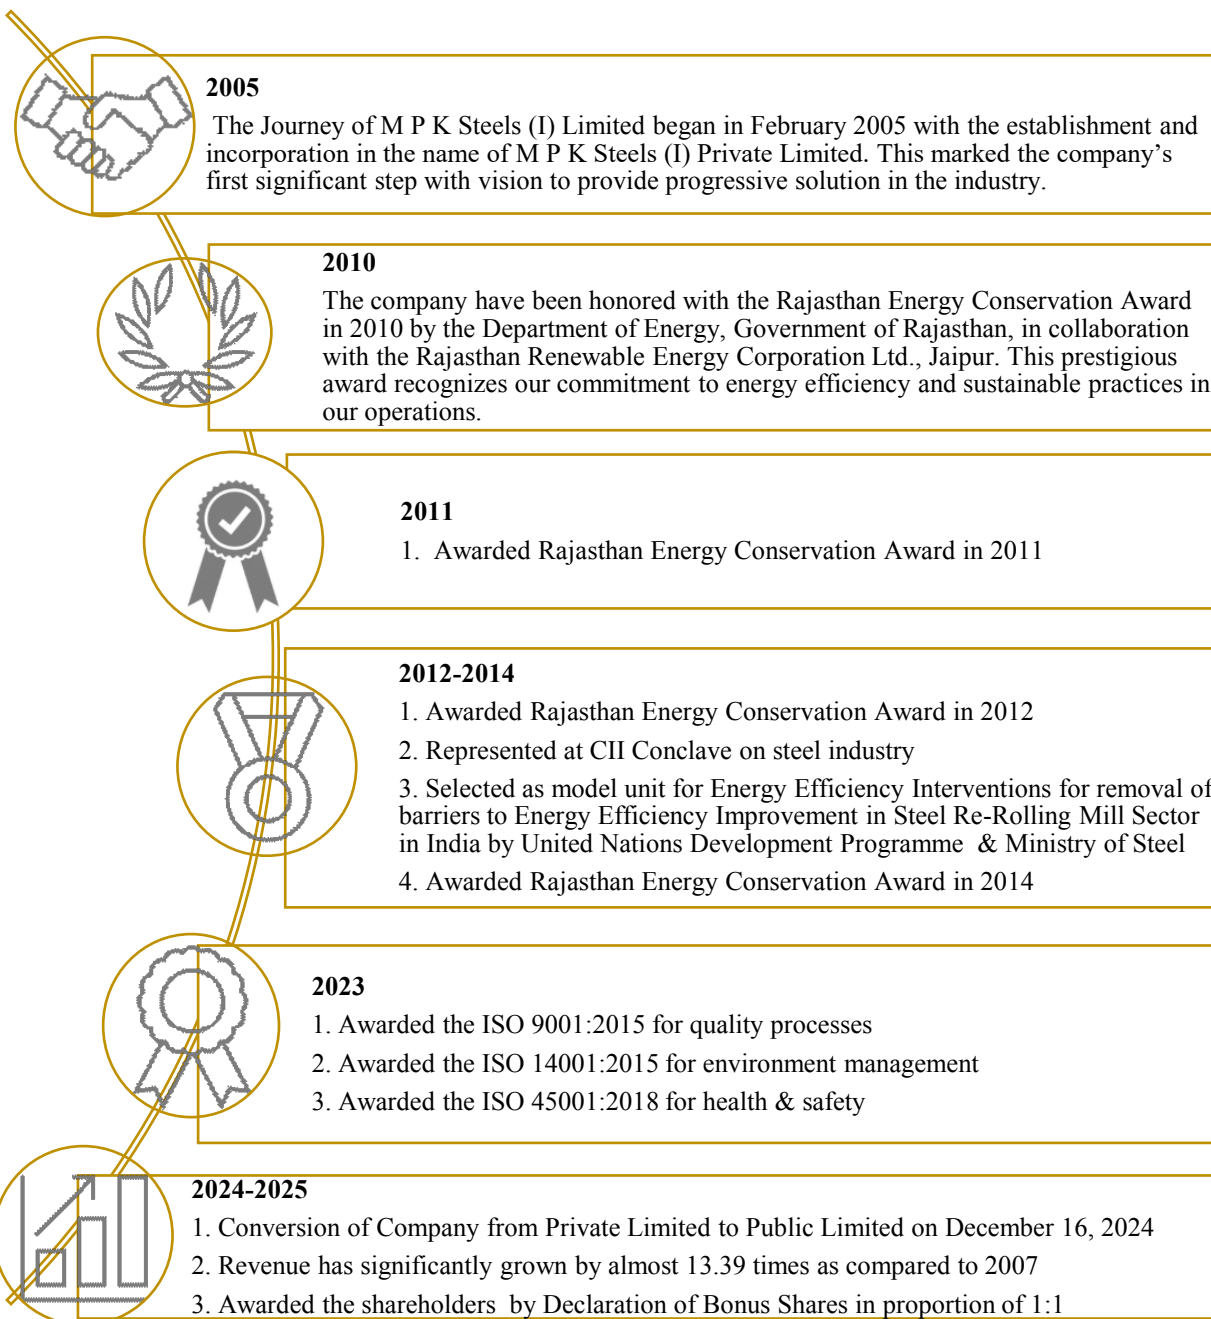

Mr. Suresh Kumar Sharma (Promoter and Chairman) and Mr. Manoj Upadhyay (Promoter and Managing Director) play a pivotal role in shaping the strategic direction and overseeing the operations of our company. Their unwavering commitment to success, coupled with their extensive leadership and management expertise, drives all key decisions. Their in-depth industry knowledge provides us with a significant competitive advantage, enabling us to expand our presence in existing markets, tap into new opportunities, and explore avenues for continued growth.

Our Vision: We, at MPK, shall strive to create a Strong Base for Strong Future. To be instrumental in the development of Infrastructure in the Country, and create opportunities for the betterment of its People, Communities & Societies. We believe in giving value for money to our customers and never believe in short-term gains.

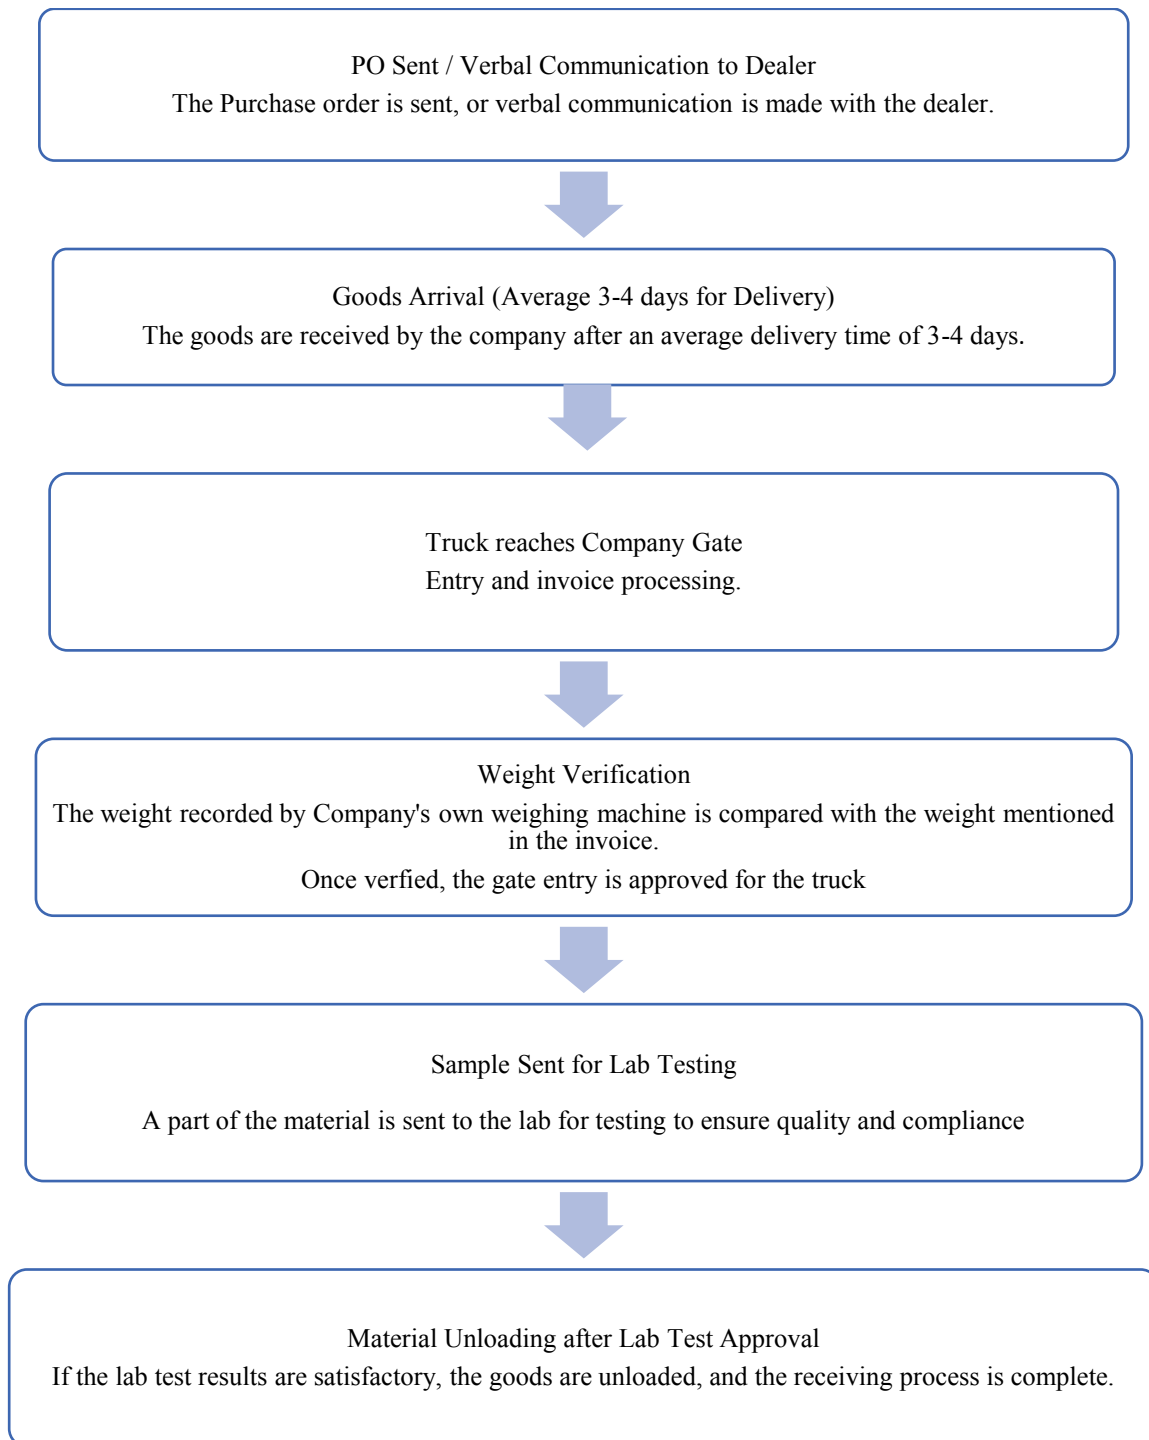

Our Mission: To create an energy-efficient Mild Steel making process. To produce world-class Mild Steel products and be a name to repute within the industry. To provide our customers with any type of General-Purpose Structural Steel as per their requirements.

With clear vision and determination, we are marching ahead to develop good quality products. We are committed for creating opportunities and believe in harmonious co-existence with societies and communities. We strive to offer overall solution in structural steels.

OUR JOURNEY

PROCUREMENT PROCESS

OUR MANUFACTURING PROCESS

Process Description:

1. Raw Material Inspection

- **Purpose:** To ensure the raw materials (billets, Ingot) meet the required quality standards before processing.
- **Process:** The raw materials are inspected for surface defects, dimensions, and chemical composition. Any material that does not meet the specifications is rejected.
- **Tools:** Visual inspection, Spectro Lab testing which has 32 elements test.

2. Re-Heating Furnace

- **Purpose:** To heat the raw material to a temperature suitable for rolling.
- **Process:** The billets or slabs are heated uniformly in a furnace to a temperature range of 1100°C to 1200°C, depending on the steel grade.
- **Importance:** Proper heating ensures the material is malleable and can be easily rolled without cracking.

3. Roughing Mill

- **Purpose:** To reduce the thickness of the heated material and prepare it for further rolling.
- **Process:** The heated billets or slabs are passed through a series of roughing stands, where they are rolled to reduce their cross-sectional area and achieve an intermediate shape.
- **Output:** The material is transformed into a long, rectangular bar or bloom.

4. Finishing Mill

- **Purpose:** To achieve the final dimensions and shape of the structural steel.
- **Process:** The material from the roughing mill is further rolled in the finishing mill, where it is shaped into the desired profile (e.g. angles, channels, etc.).
- **Precision:** The finishing mill ensures tight tolerances and smooth surface finish.

5. Dimension Check

- **Purpose:** To verify that the rolled product meets the required dimensional specifications.
- **Process:** The dimensions (length, width, thickness, etc.) of the rolled steel are measured using calipers, or other measuring tools.
- **Outcome:** Any product that does not meet the specifications is either reworked or rejected.

6. Cooling Process

- **Purpose:** To cool the rolled steel to room temperature in a controlled manner.
- **Process:** The steel is passed through a cooling bed to reduce its temperature gradually.
- **Importance:** Proper cooling prevents internal stresses and ensures the desired mechanical properties.

7. End Cutting

- **Purpose:** To remove uneven or defective ends of the rolled steel.
- **Process:** The ends of the steel bars or profiles are cut using saws or shears to ensure uniformity.
- **Output:** The steel is now ready for further inspection and processing.

8. Dimension Check (Post Cutting)

- **Purpose:** To ensure the final product meets the required dimensions after cutting.
- **Process:** The dimensions are re-checked to confirm compliance with specifications.
- **Tools:** Similar to the initial dimension check, using precision measuring instruments.

9. Straightening

- **Purpose:** To correct any curvature or bending in the rolled steel.
- **Process:** The steel is passed through a straightening machine, which applies pressure to remove any bends or twists.
- **Importance:** Straightening ensures the steel is ready for use in construction or other applications.

10. Chemical & Physical Analysis

- **Purpose:** To verify the chemical composition and mechanical properties of the steel.
- **Process:** Samples are taken from the finished product and tested for chemical composition (e.g., carbon content, alloying elements) and mechanical properties (e.g., tensile strength, hardness).
- **Tools:** Spectrometers, tensile testing machines, and hardness testers.

11. Packaging

- **Purpose:** To prepare the finished steel for storage and transportation.
- **Process:** The steel is bundled, labeled, and wrapped to protect it from damage during transit.
- **Materials:** Steel straps may be used.

OUR PRODUCTS

Our company is capable of manufacturing standardised structural steel products which includes M.S. Channel, M.S. Joist/Beam, M.S. Angle, M.S. Square Bar, M.S. Round Bar, and M.S. Flat. Our products find their application in various industries which includes Railways, Telecom Industries, State Electricity Boards, Power & Energy Industries, Automotive Industry, Offshore Structures, Construction Industries, Fabrication Industries, Auto Body Builders, Infrastructural Development Authorities.

The ductility of structural steel allows for the creation of various predetermined and standardised shapes to satisfy particular construction requirements. That's why structural steel is one of the key applications of steel fabrication.

Our research and development facility are equipped with machines and testing facilities to perform a multitude of tests. Quality is of prime importance for every product we manufacture, irrespective of whether it is a customized solution for a specific client requirement, or a product development for more extensive use.

Our products are checked on the following parameters in our labs:

1. Weldability
2. Malleability
3. Chemical Composition
4. Strength
5. Tensility
6. Thickness and multitude of other test

The Detailed Overview of our Product are as follows:

Sr. No.	Product & Description
1.	<p>M.S. Channel</p> <div style="display: flex; align-items: flex-start;">  <div> <p>Description: M.S. Channels are commonly used for creating frames in the construction of buildings, bridges, and other infrastructures because of their strength and ability to withstand heavy loads.</p> <p>Usage:</p> <ul style="list-style-type: none"> ➤ Industrial Sheds: They form the main framework for industrial sheds, warehouses, and factory buildings. ➤ Machinery Frames: Mild steel channels are often used in the construction of frames for heavy machinery, equipment, transformers, etc. ➤ Material Handling Systems: These channels form part of conveyor systems, lifting equipment, or other material handling structures. ➤ Vehicle Chassis: In the automobile industry, mild steel channels are used to make the framework for vehicle chassis due to their strength and ease of fabrication also be used for reinforcement in automotive body structures. ➤ Railway Bridges: Steel channels are used in the supports and construction of railway bridges. ➤ Fencing & Gates: Mild steel channels can be used to create strong and durable frames for fencing or gates. <p>They are used in many engineering industries and cover different application needs as per the user's requirement. Mild steel channels are valued for their versatility, ability to be easily fabricated into different shapes, and their ability to carry heavy loads while being relatively affordable and easy to weld or bolt.</p> <p>Advantages</p> <ul style="list-style-type: none"> ◆ Excellent Tensile Strength ◆ Dimensional Accuracy ◆ Operational Excellence ◆ Durable <p>End User: Construction Industry, Manufacturing Industry, Transportation, Energy, Retail & Warehousing, Marine, Agriculture, Architecture, Infrastructure.</p> </div> </div>

2. M.S. Angle

Description: M.S. Angles, often referred to as **L-shaped** steel, are one of the most widely used structural components due to their strength, versatility, and ease of fabrication. These angles can be used in a variety of applications across multiple industries.

Usage:

- **Building Frames:** M.S. Angles are commonly used in the construction of building frameworks, including supporting columns, beams, and structural reinforcements for both residential and commercial buildings.
- **Bridges:** They are used in the construction of bridge frameworks, providing support to the bridge deck and maintaining stability under heavy traffic loads
- **Roof Trusses:** M.S. Angles are used in the fabrication of roof trusses to support the roof, ensuring its stability against external loads like wind and snow.
- **Machinery Frames:** They are used to construct frames for industrial machinery, providing robust support for machines and ensuring they are securely fixed in place.
- **Security Barriers:** They are also used to create strong security barriers or enclosures around sensitive areas, providing protection and stability.
- **Vehicle Frames:** M.S. Angles are often used in the manufacturing of vehicle frames, including trucks, trailers, and buses, due to their ability to bear significant weight and resist wear.
- **Railways:** M.S. Angles are used in railway infrastructure, such as for the construction of bridges, track supports, and other rail-based structures.
- **Decorative Features:** In architecture, mild steel angles are sometimes used for decorative purposes in facades, window frames, and other ornamental architectural features.
- **Frames for Signage:** They are also used in the fabrication of frames for outdoor signage or billboards, where a sturdy support structure is required.
- **Cable Trays:** M.S. Angles are used to create supports for electrical wiring and cables, commonly found in commercial buildings and industrial facilities.
- **Electrical Panel Frames:** They are used to build frames and enclosures for electrical panels, circuit boards, and control systems.
- **Rebar Frames:** M.S. Angles are often used to reinforce concrete structures in construction, providing support for concrete beams and columns during the curing process.
- **Event Structures:** M.S. Angles are often used in the construction of temporary structures such as event stages, exhibition booths, or festival tents, due to their ease of assembly and strength.

M.S. Angles are highly valued for their versatility, strength, and ease of use. They are widely available in various sizes and can be easily welded, bolted, or drilled to suit specific design requirements in a wide range of industries

Advantages

- ◆ Strength & Durability
- ◆ Cost Effectiveness
- ◆ Adaptability & Elongation
- ◆ Retraction & Rigidity
- ◆ Precision & Optimization

End User: Construction, Manufacturing, Automotive, Energy, Railways, Marine, Agriculture, Architecture, Heavy Equipment, And Structural Engineering.

3. **M.S. Flat**

Description:

M.S. Flat bars, which are rectangular pieces of mild steel with a flat, wide cross-section, are widely used in various industries due to their strength, versatility, and ease of fabrication. These bars can be cut, welded, or bent into different shapes and sizes, making them suitable for a broad range of applications.

Usage:

- **Custom Metalwork:** M.S. Flat bars are often used in metal fabrication to create custom shapes, brackets, and support structures. They are particularly useful in projects where precise cuts and shapes are required.
- **Welding Projects:** M.S. Flat bars are commonly used in welding applications to build frames, supports, and structural components for various industries, including construction and manufacturing.
- **Heavy-Duty Racks and Shelves:** Due to their strength, they are used to create heavy-duty racks and shelves, especially in commercial and industrial storage systems.
- **Metal Furniture Frames:** M.S. Flat bars are used to make the framework for metal furniture, such as tables, chairs, and shelving units. Their structural integrity ensures the furniture is sturdy and capable of supporting weight.
- **Custom Furniture:** For bespoke or custom furniture, flat bars can be cut and welded into the desired shapes for modern, industrial-style designs.
- **Gate Frames:** M.S. Flat bars are commonly used in the construction of gates for both residential and commercial properties. They form the basic structure for gates, ensuring strength and security.
- **Fencing Systems:** M.S. Flat are used to create the frames and posts for fences, providing a sturdy foundation to support fencing panels or wire mesh.
- **Security Barriers:** They are also used to construct security barriers, bollards, and other protective systems in commercial and industrial spaces.
- **Farm Implements:** M.S. Flat bars are used in agricultural machinery such as plows, tillers, and harrows, providing the necessary strength to handle heavy soil and agricultural tasks.
- **Livestock Gates and Fences:** They are used in creating gates and enclosures for livestock, providing long-lasting durability in agricultural settings.
- **Cable Trays and Supports:** M.S. Flat bars are used to make cable trays, supports, and conduits for electrical wiring systems in both commercial and industrial buildings.
- **Electrical Panel Frames:** M.S. Flat bars are used in the construction of frames for electrical panels, control systems, and other enclosures, offering strength and durability for electrical installations.
- **Pipe Supports:** M.S. Flat bars are used to create supports and brackets for pipes in plumbing, HVAC systems, and other piping infrastructure, providing a stable and secure framework to hold pipes in place.
- **Flanges:** M.S. Flat bars are sometimes used to create flanges for joining pipes and components in industrial piping systems.
- **Architectural Features:** M.S. Flat bars are used for creating decorative and functional architectural features such as window frames, door frames, and metalwork in commercial and residential buildings.
- **Industrial-Style Decor:** M.S. Flat are also used in industrial-style furniture and interior design elements, such as staircases, railing systems, and furniture.
- **Rail Track Components:** M.S. Flat bars are sometimes used in the manufacture of certain railway track components, including track ties and brackets that help maintain the structural integrity of railway tracks.
- **Railcar Components:** M.S. Flat bars are used in the construction of railcars and other transportation vehicles, where they help form the chassis and structural framework.
- **Event Stages and Platforms:** M.S. Flat bars are used to construct frames for event stages, platforms, and exhibition booths, especially for large public events, concerts, and trade shows.

	<p>➤ Temporary Enclosures: They can also be used in the creation of temporary enclosures, shelters, and protective barriers for events or construction sites.</p> <p>M.S. Flat bars are highly valued for their versatility, strength, and ease of processing. They are used in a wide range of industries, from construction and manufacturing to automotive and agricultural sectors, and provide structural support in various applications. Their ability to be easily cut, welded, and shaped makes them essential for a variety of construction, engineering, and design needs.</p> <p>Advantages:</p> <ul style="list-style-type: none"> ◆ Easy to Fabricate ◆ High Strength-To-Weight Ratio ◆ Long Lifespan ◆ Cost Effective & Versatile <p>End User: Construction and Infrastructure industry, Automotive, Heavy Machinery, Manufacturing, Energy and Power, Shipbuilding, Agriculture.</p>
4.	<p>M.S. Round Bar</p> <div style="display: flex; align-items: flex-start;">  <div style="margin-left: 20px;"> <p>Description: M.S. Round Bar are one of the most commonly used materials in various industries due to their versatility, strength, and ease of fabrication. These bars have a round cross-section and are widely utilized in both structural and manufacturing applications.</p> </div> </div> <p>Usage: Building Frames, Steel round bars are used in the construction of frames and supports for buildings and infrastructure projects, providing essential structural integrity.</p> <ul style="list-style-type: none"> ➤ Bridges and Overpasses: M.S. Round Bar are used to reinforce concrete and steel components in bridges and overpasses, ensuring strength and stability under heavy traffic loads. ➤ Shafts and Axles: M.S. Round Bar are widely used in the manufacturing of shafts, axles, and other rotating or load-bearing components in machines and vehicles. ➤ Spindles and Pulleys: M.S. Round Bar are used to make machine spindles, pulleys, and other mechanical parts that require precise dimensions and durability. ➤ Gear Housings: They are used in the production of gear housing components, providing support for gears and ensuring smooth operation in various types of machinery. ➤ Vehicle Parts: M.S. Round Bar are used in the production of various automotive parts, including axles, shafts, and connecting rods, where high strength and durability are required to handle the stresses of movement. ➤ Suspension Systems: M.S. Round Bar are often used to make parts of the vehicle suspension system, such as springs and shock absorber components, ensuring they can bear heavy loads and absorb shocks effectively. ➤ Cranes and Hoisting Equipment: M.S. Round Bar are used in the construction of crane components, lifting equipment, and hoisting systems that require robust materials to lift heavy loads. ➤ Industrial Tools: They are used in the manufacture of heavy-duty tools, like drill rods, punches, and dies, due to their ability to withstand high stress and wear. ➤ Gate Frames: M.S. Round Bar are used to manufacture gates, particularly in security systems and residential fencing. They provide a robust structure that can withstand pressure and offer durability. ➤ Fencing Posts: M.S. Round Bar are also used to create strong fencing posts and support beams for both residential and commercial fencing. ➤ Farm Implements: M.S. Round Bar are used in the construction of agricultural machinery, such as plows, tillers, and harrows, providing the strength needed for heavy-duty farm work. Round Bars are used to reinforce concrete, build bridges, and erect structural frames. ➤ Sign Post Frames: M.S. Round Bar are used in the construction of signposts for roads, advertisements, and other displays, offering strength and durability to withstand environmental elements.

- **Display Stands:** They are also used to create support frames for advertising displays, promotional stands, and exhibition units.
- **Structural Fabrication:** M.S. Round Bar can be cut, welded, and shaped into custom parts for a variety of structural and non-structural applications in construction and manufacturing.
- **Mining Equipment:** M.S. Round Bar are used in the production of mining machinery and equipment, such as drills, shovels, and crushers, where high wear resistance and durability are needed.
- **Rock Drilling:** M.S. Round Bar are used as rods in rock drilling operations due to their strength and ability to withstand high-impact forces.
- **Rail Track Components:** M.S. Round Bar are sometimes used in the production of certain rail track components, including rail spikes, track bolts, and other fastening elements, ensuring safe and secure connections.

M.S. Round Bar are an essential material due to their wide range of applications in both structural and manufacturing fields. Their strength, ease of shaping, and versatility make them a preferred choice in industries ranging from construction to automotive, agriculture to marine, and beyond.

Advantages:

- ◆ Non- standard sizes provided on demand
- ◆ High levels of customization
- ◆ Competitive rates
- ◆ Ability to meet bulk orders.

End User : Construction (for reinforcement bars in buildings and structures), Manufacturing (for machinery parts, shafts, and axles), Automotive (for vehicle components like drive shafts and steering columns), Engineering (for fabrication and structural components), Energy (for equipment in power plants and oil rigs), Agriculture (for equipment parts like plows and tools), and Toolmaking (for manufacturing hand tools, bolts, and fasteners).

5.

M.S. Square Bar

Description: M.S. Square Bars, characterized by their square cross-section, are versatile and widely used in a range of applications across different industries. Their strength, durability, and ease of fabrication make them an essential material in many sectors.

Usage:

- **Frames and Supports:** M.S. Square Bars are used to create frames and support structures for buildings, bridges, and other infrastructure projects. They are commonly used for reinforcement and to provide additional stability.
- **Staircase Railings:** M.S. Square Bars are often used to manufacture staircases, both as structural support and for the construction of handrails or balusters.
- **Machine Parts:** M.S. Square Bars are used in the manufacture of machine components and parts, such as shafts, gears, and other mechanical elements that require strength and durability.
- **Frames for Equipment:** They are also used in creating frames for industrial machinery and equipment, providing the necessary structural strength to support operations.
- **Vehicle Frames:** M.S. Square Bars are used in the production of vehicle frames, particularly for trucks, trailers, and other transport vehicles, where strength and load-bearing capacity are essential.
- **Suspension Components:** Some automotive suspension components, like control arms and support bars, are made from M.S. Square Bars due to their strength and resilience.
- **Gate Frames:** M.S. Square Bars are widely used in the construction of gates for both residential and commercial properties. They offer a strong framework for both decorative and security gates.
- **Fencing Systems:** M.S. Square Bars are also used for making fence posts and frames, providing the necessary structural integrity to withstand pressure and environmental factors.

- **Farm Implements:** M.S. Square Bars are used in the production of agricultural equipment and farm implements, such as plow frames, harrows, and trailers.
- **Livestock Enclosures:** They can also be used for building pens, enclosures, and gates for livestock.
- **Balustrades:** M.S. Square Bars are frequently used in creating railings, balustrades, and guardrails for both residential and commercial buildings. They offer excellent strength and an attractive, industrial-style finish.
- **Decking and Balcony Railings:** M.S. Square Bars are used for supporting railings on decks, balconies, and staircases, adding both structural integrity and aesthetic value.
- **Hand Tools:** Some hand tools, such as hammers, wrenches, and spanners, use M.S. Square Bars for the construction of their handles or heads, providing strength and durability.
- **Cutting and Welding Tools:** M.S. Square Bars are also used to manufacture various cutting and welding tools, where strength is critical.
- **Billboard Frames:** M.S. Square Bars are often used in the construction of large advertising billboards and signposts, where a robust frame is required to support the weight of the sign.

M.S. Square Bars are highly valued for their strength, durability, and versatility. They can be easily cut, welded, and shaped to suit a wide range of applications, making them essential components in many industries from construction to manufacturing, furniture to agriculture.

Advantages

- ◆ High Strength
- ◆ Accuracy in Dimensions
- ◆ Shear & Bend Strength
- ◆ Compatibility with various applications
- ◆ Long life and various other parameters

End User: Construction (for structural reinforcement and framework), Manufacturing (for machinery parts and tools), Automotive (for vehicle components and frames), Engineering (for fabrication and structural support), Agriculture (for equipment manufacturing), Energy (for equipment and infrastructure in power plants), and Furniture (for frames and supports in furniture production).

6. M.S. Joist / Beam

Description:

Mild steel joists/beams and beams are commonly used in construction and industrial applications due to their strength, durability, and ability to support heavy loads.

Usage:

- **Roof and Floor Supports:** Mild steel joists/beams are commonly used to support the roof and floor structures in both commercial and residential buildings. They provide a framework that can handle the weight of the building and other loads.
- **Beams for Open Floor Plans:** They are essential for creating open spaces in buildings, allowing for wide, column-free areas, particularly in large buildings like shopping malls, sports halls, and warehouses.
- **Bridge Framework:** Mild steel joists/beams are used to form the main structural framework of bridges, supporting the load of vehicles and pedestrians. They are particularly useful in large-scale bridge constructions due to their strength and ability to span long distances.
- **Highway Overpasses:** Steel joists/beams are used for supporting highway overpasses and viaducts, helping them bear traffic loads while maintaining structural integrity.
- **Factory Frames:** Steel joists/beams are used to create the framework for factory buildings, warehouses, and industrial sheds, offering excellent load-bearing capacity for equipment, materials, and machinery.

- **Cranes and Lifting Systems:** Mild steel joists/beams are used in the design of crane rails, lifting equipment, and other heavy-duty industrial systems.
- **Office Building Framework:** Steel joists/beams are used to construct commercial buildings, providing the necessary structural support for the floors, ceilings, and roofs.
- **High-rise Buildings:** In the construction of tall buildings, steel beams are used extensively to support the weight of floors and roof structures.
- **Walkways and Bridges:** Steel joists/beams are used in the construction of pedestrian bridges, elevated walkways, and access platforms, providing safe passage over difficult terrain or busy roadways.

Mild steel joists/beams are highly versatile due to their strength, adaptability. Their ability to be fabricated into various shapes and sizes makes them ideal for supporting both residential and industrial structures

Advantages

- ◆ High Strength & Load- Bearing Capacity
- ◆ Efficient use of materials, reducing waste
- ◆ Resistance to warping, twisting, and shrinking
- ◆ Compatibility with various building systems
- ◆ Ease of installation
- ◆ Cost Effectiveness

End User: Construction (for building structures, bridges, and infrastructure), Manufacturing (factories, warehouses, and industrial plants), Energy (power plants, oil rigs, and Renewable energy structures), transportation (railway, highway, and airport infrastructure), Heavy equipment manufacturing (machinery frames and support structures), Marine (shipbuilding and offshore platforms), Public Infrastructure (government buildings, schools, hospitals), and Architecture and design (large-scale architectural frameworks and design elements)

Notes:

⁽¹⁾ Revenue from Operations means the Revenue from Operations as appearing in the Restated Financial Statements

⁽²⁾ EBITDA is calculated as Profit before tax + Depreciation + Finance Cost - Other Income.

⁽³⁾ 'EBITDA Margin' is calculated as EBITDA divided by Revenue from Operations.

⁽⁴⁾ 'PAT Margin' is calculated as PAT for the period/year divided by revenue from operations.

⁽⁵⁾ Net worth as defined under Regulation 2(1)(hh) of the SEBI ICDR Regulations means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off as per the Restated Financial Information, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.

⁽⁶⁾ Return on Equity is ratio of Profit after Tax and Average Shareholder Equity

⁽⁷⁾ Return on Capital Employed is calculated as EBIT divided by capital employed, which is defined as shareholders' equity plus total borrowings. Here, EBIT is calculated as Profit before tax + Finance Cost – Other Income

OUR CLIENTELE

Our products are designed to meet the needs of a wide range of industries, reflecting their versatility and quality standards. While we do not engage in direct sales to end clients, our products are efficiently delivered through a network of trusted dealers who serve as key partners in ensuring that our solutions reach businesses across various sectors.

This structured distribution network spans multiple states, including Rajasthan, Punjab, West Bengal, Gujarat, Haryana, Uttar Pradesh, Assam, and Madhya Pradesh, ensuring consistent product availability and timely delivery. Through these established partnerships, we are able to offer our products year-round, supporting the ongoing needs of industries across the region.

By working closely with our dealers, we maintain a strong presence in the market and ensure that our products continue to meet the demands of our clientele while focusing on product quality and availability.

OUR COMPETITIVE STRENGTHS

1. Dual Plant Operations at a Single Location

One of the key competitive strengths of our company is the strategic advantage of having two plants located at the same premises in Rajasthan, at A - 195, RIICO Industrial Area Extension, Phase 2 Bagru, Jaipur, Rajasthan, India - 303007.

This dual plant setup allows us to:

- **Simultaneous Product Development:** We can manufacture two distinct products concurrently, increasing production efficiency and ensuring that we can cater to a broader range of customer needs.
- **Enhanced Flexibility:** The ability to operate multiple production lines at the same time enables us to respond quickly to varying customer demands and industry requirements, giving us an edge over competitors who may be limited by single-plant operations.
- **Optimized Resource Utilization:** With both plants at one location, we maximize the use of resources, reduce overhead costs, and streamline logistics, resulting in improved cost efficiency and faster turnaround times.

This dual-plant advantage positions us as a flexible and agile supplier capable of handling large and diverse customer orders, making us a preferred partner in the marketplace.

2. Extensive Range of Dies for Diverse Steel Measurements

A significant competitive strength of our company lies in our extensive investment in a diverse range of specialized Dies, tailored to produce steel in various measurements and specifications. This allows us to achieve precision in steel production, ensuring we meet the exact needs of each customer by offering a wide array of thicknesses, widths, and profiles. With this capability, we can efficiently serve a diverse customer base, from those requiring standard sizes to those with unique, complex demands. Additionally, the breadth of our dies collection provides increased production flexibility, enabling us to quickly adapt to varying order sizes and specifications, offering both speed and versatility that gives us a strong competitive edge in the market.

3. Strong Brand and Long-Term Relationships

A key competitive strength of our company is our well-established and trusted brand, built over the past 20 years of consistent growth and success in the industry. Our long-standing relationships with distributors, some of whom have been with us since our inception, have played a pivotal role in fostering repeat business and reinforcing customer loyalty. These enduring partnerships have been instrumental in our ability to maintain a robust retention strategy, with multiple repeat orders coming from our established dealer network.

4. Rigorous Quality Assurance and Control

A significant competitive strength of our company is the quality of our products, which is a cornerstone of our manufacturing process. We implement stringent quality assurance and control measures at every stage, from procurement of raw materials to the distribution of finished products.

Comprehensive Quality Checks: Our quality commitment is demonstrated through rigorous quality checks at both the procurement and disbursement stages. This ensures that every product meets the highest standards of quality before it reaches our customers.

Expert and Trained Quality Team: Our Quality Division is staffed with highly trained and experienced professionals who oversee all quality control activities. Their expertise enables us to maintain compliance with regulatory standards, ensuring that each product is manufactured to exacting specifications.

In-House Laboratory: We maintain an in-house laboratory, fully equipped with the necessary instruments to perform a wide range of tests on both raw materials and finished products. This facility ensures that every component meets the required performance criteria before it enters the production process or reaches the market.

This quality control system gives us a significant competitive edge, allowing us to consistently deliver good quality products, build customer trust, and maintain our reputation as a reliable and high-quality supplier in the market.

Core Values

Maintaining hygiene & providing a safe working place & respecting the environment & caring for our communities and demonstrating high ethical standards.

OUR BUSINESS STRATEGY

1. Increasing our production to focus on the growing demand of our core products

Over the years we have increased our production capacities through consistent growth. Over the years, we have consistently expanded our manufacturing capabilities, and we are now planning to further scale up production within our existing premises. This expansion is designed to:

- **Enhance Production Capacity:** By increasing production within the same location, we will significantly boost our ability to meet growing market demand, ensuring that we can deliver products more efficiently and in greater volumes.
- **Drive Sales and Profitability:** The expanded production capacity will not only allow us to meet current customer needs but also create new business opportunities, contributing to a substantial increase in both sales and profitability.
- **Benefit from Economies of Scale:** With increased production, we anticipate achieving economies of scale, resulting in cost efficiencies and improved margins. This will enhance our competitive position by enabling us to offer more competitive pricing while maintaining product quality.

2. Strengthen our brand value & expand the dealership network

The industry is seeing a shift in market share from the unorganized to the organized sector. We seek to capture a greater market share in this environment, and it is important to invest in the brand to strengthen the top of the mind recall and consequently we shall continue to invest in strengthening our brands. Since the industry is highly unorganized, a good distribution network is essential in this industry. We are focusing on expanding our dealership network by way of appointment of new dealers in growing states.

3. Diversification and Market Expansion:

Geographic Expansion: We target new markets domestically, especially in regions with increasing infrastructure and construction projects. This could include expanding into emerging markets where urbanization and industrialization are on the rise.

Product Diversification: While the core business may be producing structural steel M.S. Channel, we explore producing a wider range of products which includes M.S. Joist/Beam, M.S. Angle, M.S. Square Bar, M.S. Round Bar, M.S. Flat to cater different sectors. Increasing our penetration in existing regions with new range of products, will enable us to penetrate into new customers areas within these regions and optimize our infrastructure. As a result, of these measures, our company will be able to increase its market share and profitability.

4. Cost Optimization and Lean Manufacturing

Process Improvement: Our company aims to enhance efficiency and achieve cost reductions to remain competitive. We plan to invest in new plant and machinery, which will help reduce labor costs, minimize burning loss, and generate less scrap. These upgrades will streamline production processes and lower costs related to energy consumption and maintenance.

Supply Chain Optimization: We have strengthened relationships with suppliers to secure more favorable pricing, ensure timely delivery of raw materials. Additionally, the company plans to reduce expenses by making upfront payments to vendors to take advantage of cash discounts.

Energy Efficiency: As energy costs are a significant part of steel production, implementing energy-saving measures (such as optimizing furnace operations and investing in solar power plant in the near future) will significantly reduce operating expenses.

5. Customer Relationship Management:

At the core of our business strategy is a strong focus on Customer Relationship Management (CRM), with a customer-centric approach that emphasizes building long-term partnerships. We differentiate ourselves by:

Delivering Good Quality and Timely Delivery: We prioritize providing high-quality products and ensuring timely delivery, which are essential factors in fostering trust and satisfaction among our customers.

Customization of Steel Solutions: Understanding that every project has unique requirements, we offer tailored steel solutions that align with specific customer needs, ensuring the highest level of satisfaction and project success.

This commitment to personalization and excellence not only strengthens our relationships with existing customers but also positions us as a preferred partner for future business opportunities.

SAFETY, QUALITY CONTROL AND CERTIFICATIONS

Our business is focused on emphasizing on quality, environment, health and safety. We believe that maintaining a high standard of quality for our products is critical to our continued growth. Across our factory, we have put in place quality systems that cover all areas of our business processes from manufacturing, supply chain to product delivery to ensure consistent quality, efficacy and safety of products.

We are accredited with various quality certifications for manufacture of Structural Steel like:

MARKETING STRATEGY

1. Define Target Market Segments

Our marketing strategy focuses on identifying and targeting key customer segments within the construction and infrastructure sectors that utilize structural steel. By understanding the unique needs of these segments, we can tailor our approach to effectively serve them. The primary segments we are targeting include:

- Large construction companies
- Civil engineering firms
- Shed manufacturing firms
- Railways, like CORE (Central Organization for Railway Electrification)
- Electricity Boards in different states
- Power Grid Corporation of India
- Fabrication industry

By focusing on these strategic customer segments, we aim to strengthen our presence and grow our market share in the construction and infrastructure sectors.

2. Branding and Positioning

The company intends to enhance its brand visibility and market presence through targeted advertising efforts, such as shop branding and strategically placed hoardings at the premises of our wholesale clients. This initiative aims to reinforce our reputation and connect directly with key stakeholders in our supply chain.

Highlighting Our Strengths

We position our company as a reliable supplier of high-quality, durable, and cost-effective steel products. Our marketing efforts will emphasize the following core strengths:

- Precision in Manufacturing:** Delivering steel products with exacting standards of quality and precision.
- Custom Solutions for Complex Projects:** Offering tailored steel solutions to meet the unique needs of demanding projects.
- On-Time Delivery and Reliability:** Ensuring timely delivery of products, demonstrating our commitment to reliability in every aspect of our service.

Differentiation

We effectively highlight the unique qualities of our steel product such as strength, sustainability, and a diverse product range which are offered all from a single trusted source. This value proposition will serve as the foundation to differentiate us in the marketplace.

Developing a Strong Brand Identity

To build lasting brand recognition, we will focus on creating a distinctive logo, tagline, and visual identity that reflects our values, industry expertise, and dedication to quality. Consistency in our brand messaging will be maintained across all marketing platforms, both offline and online. Our past efforts in branding have been reinforced by the three Intellectual Property rights currently held by the company, which underscore our commitment to building a strong, credible brand.

By implementing this strategic approach, we aim to solidify our position as a leading, trusted supplier in the steel industry, recognized for both the quality of our products and our customer-first mindset.

3. Customer Lead Generation Strategy

As a core element of our marketing strategy, we focus on generating and nurturing high-quality leads to drive business growth. Our approach includes:

- **Nurturing Leads**
We actively register on various online marketplaces to expand our reach and attract potential customers. By maintaining a comprehensive customer database, we can effectively nurture leads, track their journey, and follow up on inquiries in a timely and personalized manner.
- **Building Long-Term Relationships**

We prioritize relationship-building with prospective customers, ensuring that each lead receives the attention and follow-up necessary to convert them into loyal clients.

This strategy is designed to create a steady pipeline of prospects, allowing us to continually grow our customer base and strengthen our market presence.

COMPETITION

In the domestic market, our company faces significant competition from both established local manufacturers and larger companies that benefit from economies of scale, vast distribution networks, and strong brand recognition. These competitors often have longstanding relationships with key industries, which gives them an advantage in securing contracts and retaining loyal customers. To stay ahead, we focus on streamlining our production processes to improve efficiency and reduce costs, allowing us to offer competitive pricing while maintaining high product quality. We also invest in advanced technologies that enhance production capabilities and ensure we meet the ever-evolving demands of the market.

Furthermore, company places a strong emphasis on building and maintaining solid relationships with our dealers and distributors. By understanding their unique needs and challenges, we tailor our steel products to meet specific requirements, ensuring we deliver high-quality solutions that exceed expectations. We also closely monitor local government policies, regulations, and market trends to quickly adapt to any changes that could impact our operations. Further, experience of top management in the same industries with good knowledge of products and markets enables the Company to anticipate the likely changes in the market scenario and take corrective actions in advance.

PLANT & MACHINERY

To maintain the quality of our product we have installed the Plant & Machinery at our factory premises which are owned by us. The details of plant & machineries installed at our factory premises are as follows:

Sr. No.	Name of Machinery, Photos & Description	Qty. (In Nos)
1	<p>R-Heating Furnace</p> <p>A furnace used to heat steel billets to a specific temperature, preparing them for rolling. It ensures the steel is malleable for shaping in the rolling mill. The furnace helps in achieving the right consistency of heat, crucial for uniformity during shaping.</p> 	2
2	<p>Fly Wheel</p> <p>A rotating device that stores energy to smooth out fluctuations during the rolling process. It helps maintain consistent speed and efficiency in the mill.</p> 	2
3	<p>Pullvariser</p> <p>A machine that grinds raw materials, usually for preparing fuel or additives. It ensures uniformity in the materials for better processing efficiency. Pullvarisers enable more efficient use of raw materials, ensuring smoother production processes.</p> 	2
4	<p>Straightening Machine</p> <p>It is used to straighten steel products that are warped or bent. It ensures the steel meets quality standards before further processing. This machine enhances the final product's appearance and performance by correcting imperfections in shape.</p> 	3
5	<p>Shearing Machine</p>	3

	<p>Cuts steel into precise lengths or shapes as required. It is crucial for making accurate cuts to steel products for packaging or further processing. Shearing machines ensure that the steel is processed quickly, reducing downtime and increasing output. This machine is used to cut steel quickly and accurately, ensuring clean and precise cuts in steel products. Shearing machines offer high cutting power and speed, improving efficiency.</p>		
<p>6</p>	<p>Reduction Gear A gear system that reduces the speed and increases the torque for heavy-duty machinery. It ensures optimal power transmission for rolling mill operations. Reduction gears provide the necessary mechanical advantage for high-powered machines, ensuring smooth operations under heavy loads. A mechanical part used in various machines to transfer motion and power, enabling the smooth operation of rolling mills and other equipment. Gears are essential for maintaining consistent mechanical motion across machinery in the plant. Transmits power and adjusts the speed of the equipment to ensure efficient operation of various machines in the plant. Gearboxes are crucial for ensuring the machinery runs at the right speeds, reducing wear on components.</p>		<p>8</p>
<p>7</p>	<p>Pinion A small gear that meshes with larger gears to transmit motion. It is essential for powering the rolling mill and ensuring synchronized movement. The pinion helps maintain consistent and reliable movement, crucial for accurate steel processing.</p>		<p>2</p>
<p>8</p>	<p>Blower Used to direct airflow to cool down hot steel products or regulate temperatures in the furnace and rolling mill, improving efficiency. It aids in maintaining consistent temperatures, which is essential for high-quality steel production.</p>		<p>3</p>

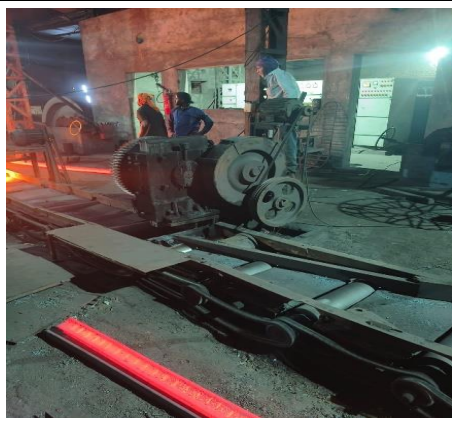

<p>9</p>	<p>EOT Crane</p> <p>A crane that lifts and moves heavy steel billets and products within the plant. It is vital for handling materials and ensuring smooth production flow.</p>		<p>6</p>
<p>10</p>	<p>Monoblock Pump</p> <p>A pump used for circulating coolant or lubricant throughout the plant's systems. It ensures equipment runs smoothly by preventing overheating. Monoblock pumps help extend the lifespan of machinery by keeping them well-lubricated and cool during operation.</p>		<p>3</p>
<p>11</p>	<p>Lathe Machine</p> <p>A machine for cutting or forming steel parts, contributing to the precision and accuracy required in steel manufacturing. It helps in shaping the steel with high precision, meeting the specifications required for final products.</p>		<p>8</p>
<p>12</p>	<p>Welding Machine</p> <p>A machine used to join steel parts by applying heat, ensuring strong, durable connections between metal components. It ensures that components are joined securely for structural integrity and long-lasting results in production.</p>		<p>5</p>
<p>13</p>	<p>Cooling Bed</p> <p>A horizontal surface where hot steel products are cooled down to room temperature, preventing deformation and ensuring safe handling.</p>		<p>9</p>

<p>14</p>	<p>Transformer</p> <p>Converts electrical energy from one voltage level to another to meet the power requirements of various machinery in the plant.</p>		<p>2</p>
<p>15</p>	<p>Packing Machine</p> <p>Used to automatically package steel products for shipment. It ensures the products are securely packed and ready for delivery. Packing machines help reduce the manual labor involved in packing, increasing overall operational efficiency.</p>		<p>2</p>
<p>16</p>	<p>Electric Motors</p> <p>Provides mechanical power to various machines in the plant, driving equipment like rollers and conveyors for production. Electric motors are crucial for the continuous operation of various production lines in the plant.</p>		<p>55</p>
<p>17</p>	<p>Electronic Weight Scale</p> <p>Used to weigh steel products to ensure they meet required weight specifications for quality control and inventory purposes. The weight scale ensures that the steel products meet necessary specifications and helps with logistics planning.</p>		<p>2</p>
<p>18</p>	<p>Main Mill Stand 11 inch</p> <p>A rolling mill stand that shapes steel billets into products with an 11-inch width. It plays a vital role in reducing billet thickness and refining steel dimensions. This stand ensures that the steel reaches the required width and strength for further processing.</p>		<p>6</p>

<p>19</p>	<p>Rough Stand 14 inch</p> <p>The first stage of rolling where steel billets are reduced to a 14-inch width. It prepares the material for further shaping in the rolling process. The stand ensures a consistent thickness reduction, setting the foundation for smooth and uniform steel production.</p>		<p>1</p>
<p>20</p>	<p>Pusher</p> <p>A machine that pushes steel billets through different stages of the rolling mill. It ensures a continuous and smooth material flow in the production process. The pusher eliminates bottlenecks, enhancing plant efficiency by maintaining an even and predictable production flow.</p>		<p>1</p>
<p>21</p>	<p>Conveyor</p> <p>A system used to transport steel products and materials between different sections of the plant. It improves efficiency by reducing manual handling. Conveyors streamline material flow, saving time and reducing human labor.</p>		<p>1</p>
<p>22</p>	<p>Shapper Machine</p> <p>Applies pressure to shape or cut steel into required forms. It is used for creating specific shapes or stamping steel components for further processing.</p>		<p>1</p>
<p>23</p>	<p>Rough Stand</p> <p>A mill stand used to shape steel billets into rough forms, reducing thickness for further shaping in the rolling mill. It prepares the steel billets for the next stages of refinement, ensuring consistent dimensions and quality.</p>		<p>1</p>

<p>24</p>	<p>Main Mill Stand 14 inch</p> <p>A rolling mill stand that shapes billets into products with a 14-inch width, playing a key role in reducing billet thickness and refining steel dimensions. This stand is essential for ensuring accurate steel dimensions for subsequent processes.</p>		<p>6</p>
<p>25</p>	<p>Rough Stand 18 inch</p> <p>A machine that reduces the thickness of steel billets to 18 inches, preparing them for further refinement and shaping in the rolling mill. This stand plays a crucial role in ensuring that the billets are ready for further processing at the right thickness.</p>		<p>1</p>
<p>26</p>	<p>Drill Machine</p> <p>Used for drilling precise holes into steel components, allowing for further assembly or customization in steel production. Drill machines contribute to the versatility of steel components by creating precise holes for assembly or additional processing.</p>		<p>2</p>
<p>27</p>	<p>Steel Stamping Trolley</p> <p>This trolley is used to move stamped steel components within the plant, improving the efficiency of material handling. It ensures that stamped components are easily transported to the next stage of production without delay.</p>		<p>1</p>

<p>28</p>	<p>Electric Panel</p> <p>A control system that manages electrical power distribution throughout the plant, ensuring all equipment receives the correct voltage and power. Electric panels ensure safe and efficient power usage across the plant's systems.</p>		<p>2</p>
<p>29</p>	<p>Fly Wheel, V-Belts Pully</p> <p>A rotating device that stores energy to smooth out fluctuations during the rolling process. It helps maintain consistent speed and efficiency in the mill. The flywheel stabilizes the overall machinery operation, improving the flow of production.</p>		<p>1</p>
<p>30</p>	<p>Mill Stand 16 inch</p> <p>A rolling mill stand used to shape steel billets into products with a 16-inch width, refining the steel for further use. This stand helps ensure that steel is processed to the required width for subsequent stages of production.</p>		<p>2</p>
<p>31</p>	<p>Pinion Gear Box 14 Inch</p> <p>A gear system that operates the pinion, ensuring smooth power transmission to the rolling mill stands for efficient operation. This gear box helps ensure the precision of the mill's operations.</p>		<p>1</p>

<p>32</p>	<p>Pinion Gear Box 12 Inch</p> <p>Similar to the 14-inch version, it powers the pinion gears, ensuring the rolling mill operates smoothly and efficiently. It allows for consistent power distribution to the mill stands.</p>		<p>1</p>
<p>33</p>	<p>Ingot Cutting Machine</p> <p>Cuts large steel ingots into smaller pieces for further processing in the rolling mill or other production stages. It helps reduce the size of ingots for more manageable handling during subsequent production steps.</p>		<p>1</p>
<p>34</p>	<p>Rolling Mill Stand 11 Inch</p> <p>Shapes steel billets into products with an 11-inch thickness, refining them for further processing. This stand ensures steel billets are shaped consistently to meet production specifications.</p>		<p>2</p>
<p>35</p>	<p>Pinion Gear Box</p> <p>Transmits power to the rolling mill stands, ensuring synchronized and smooth movement of machinery in the mill. The gearbox helps maintain consistent production speed and efficiency in the rolling process.</p>		<p>1</p>

36 **Billet Shearing Machine**

A machine designed to cut billets into smaller, manageable pieces during the steel production process. It ensures quick and efficient processing of hot billets without compromising quality.

Cuts steel billets into smaller sections, helping streamline the production process by reducing billet sizes. It allows for more efficient processing by making billets more manageable for further stages.

There are no Import Export Obligation as on date of filing this Draft Red Herring Prospectus.

ACCREDITATION

The company has been recognized with several prestigious awards and accreditations, highlighting its unwavering commitment to energy efficiency and sustainability. It was honoured with the Rajasthan Energy Conservation Award by the Department of Energy, Government of Rajasthan, in collaboration with the Rajasthan Renewable Energy Corporation Ltd., Jaipur. This award underscores the company's dedication to promoting energy-efficient practices in its operations. Furthermore, the company has been selected as a model unit for Energy Efficiency Interventions aimed at removing barriers to energy efficiency improvement in the Steel Re-Rolling Mill sector in India, an initiative led by the United Nations Development Programme (UNDP) and the Ministry of Steel. These recognitions affirm the company's sustainable energy practices within its industry.

KEY INDUSTRY REGULATIONS AND POLICIES

*The following description is a summary of certain sector-specific statutes, regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to us in order to carry out our business and operations in India. The information detailed below has been obtained from various legislations, including rules and regulations promulgated by regulatory bodies that are available in the public domain. The description set out below is only intended to provide general information to the investors and may not be exhaustive and is neither designed nor intended to substitute for professional legal advice. The statements below are based on the current provisions of Indian law, and remain subject to judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative, or judicial decisions. The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For details of such approvals, please see the section titled “**Government And Other Approvals**” beginning on page 261 of this Draft Red Herring Prospectus.*

APPROVALS

For the purpose of the business undertaken by our Company, it is required to comply with various laws, statutes, rules, regulations, executive orders, etc. that may be applicable from time to time. The details of such approvals have more particularly been described for your reference in the chapter titled “**Government and Other Statutory Approvals**” beginning on page 261 of this Draft Red Herring Prospectus.

➤ INDUSTRY SPECIFIC REGULATIONS:

The Factories Act, 1948

The Factories Act defines a ‘factory’ to be any premises including the precincts thereof, on which on any day in the previous 12 months, 10 or more workers are or were working and in which a manufacturing process is being carried on or is ordinarily carried on with the aid of power; or where at least 20 workers are or were working on any day in the preceding 12 months and on which a manufacturing process is being carried on or is ordinarily carried on without the aid of power. State governments prescribe rules with respect to the prior submission of plans, their approval for the establishment of factories and the registration and licensing of factories.

The Factories Act provides that the ‘occupier’ of a factory (defined as the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors) shall ensure the health, safety and welfare of all workers while they are at work in the factory, especially in respect of safety and proper maintenance of the factory such that it does not pose health risks, the safe use, handling, storage and transport of factory articles and substances, provision of adequate instruction, training and supervision to ensure workers’ health and safety, cleanliness and safe working conditions.

Industries (Development and Regulation) Act, 1951, as amended (“IDR Act”)

The IDR Act has been liberalized under the New Industrial Policy dated July 24, 1991 and all industrial undertakings are exempt from licensing except for certain industries, including, among others, all types of electronic aerospace, defence equipment, ships and other vessels drawn by power. The IDR Act is administered by the Ministry of Commerce and Industry, Government of India, through the Department for Promotion of Industry and Internal Trade (DPIIT). The main objectives of the IDR Act is to empower the Government to take necessary steps for the development of industries, to regulate the pattern and direction of industrial development, and to control the activities, performance and results of industrial undertakings in the public interest. The DPITT is responsible for formulation and implementation of promotional and developmental measures for growth of the industrial sector.

National Steel Policy, 2017 (“NSP 2017”) and National Mineral Policy, 2019

The NSP 2017, notified on May 8, 2017, seeks to enhance domestic steel consumption, ensure high quality steel production, and create a technologically advanced and globally competitive steel industry in India. As per the NSP 2017, the Ministry of Steel will facilitate research and development in the sector, through the establishment of Steel Research and Technology Mission of India (SRTMI). The initiative is aimed to spearhead research and development of national importance in the iron and steel sector, by utilizing tripartite synergy amongst industry, national research and development laboratories and academic institutes. The NSP 2017 covers, inter alia, steel demand, steel capacity, raw materials, including iron ore, iron ore pellets, manganese ore, chromite ore, ferro-alloys, land, water, power, infrastructure and logistics, and environmental management. Through policy measures the Ministry of Steel will ensure availability of raw materials such as iron ore, coking coal, natural gas, etc. at competitive rates. The NSP 2017 envisions that in the steel industry, an environment will be created to promote domestic steel and thereby create a

scenario where production meets the anticipated pace of growth in consumption, through a technologically advanced and globally competitive steel industry.

National Mineral Policy is an updated framework by the Government of India to guide the development of the mining sector. It aims to foster sustainable mining practices, promote the use of minerals in economic growth, and balance the interests of stakeholders. This policy is designed to align the mineral sector with the nation's broader economic and industrial goals while ensuring environmental protection and social responsibility.

Steel and Steel Products (Quality Control) Order, 2020

The Steel and Steel Products (Quality Control) Order, 2020, as amended (the “Quality Control Order 2020”), was notified by the Ministry of Steel, Government of India, to bring 120 steel products under mandatory BIS certification. All manufacturers of steel and steel products are required to apply to the Bureau of Indian Standards for certification and ensure compliance with the Quality Control Order 2020. The Quality Control Order 2020 further provides that every steel and steel products stated therein shall bear the standard mark under a license from Bureau of Indian Standards as provided in Bureau of Indian Standards (Conformity Assessment) Regulations, 2018.

The Bureau of Indian Standards Act, 2016 (“BIS Act”)

The BIS Act provides for the establishment of the Bureau of Indian Standards (“BIS”) for the development of, inter alia, standardization, marking and quality certification of goods. Functions of the BIS include, inter alia, (a) recognizing as an Indian standard, any standard established for any article or process by any other institution in India or elsewhere; (b) specifying a standard mark to be called the Bureau of Indian Standards Certification Mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) conducting such inspection and taking such samples of any material or substance as may be necessary to see whether any article or process in relation to which the standard mark has been used conforms to the Indian standard or whether the standard mark has been improperly used in relation to any article or process with or without a license.

In addition to the above, our Company is also governed by the provisions of The Companies Act, 2013 and rules framed thereunder, foreign exchange laws, foreign trade laws, and other applicable laws and regulations imposed by the central and state government and other authorities for day to day business, operations and administration of our Company.

Bureau of Indian Standards Rules, 2018

The Bureau of India Standards Rules, 2018 (the “Bureau of Indian Standards Rules”) have been notified, in supersession of the Bureau of Indian Standards Rules, 1987, in so far as they relate to Chapter IV A of the said rules relating to registration of the articles notified by the Central Government, and in supersession of the Bureau of Indian Standards Rules, 2017 except in relation to things done or omitted to be done before such supersession. Under the Bureau of Indian Standards Rules, the bureau is required to establish Indian standards in relation to any goods, article, process, system or service and shall reaffirm, amend, revise or withdraw Indian standards so established as may be necessary.

Steel Scrap Recycling Policy 2019

The Ministry of Steel, Government of India has introduced the Steel Scrap Recycling Policy, 2019 (“Policy”) which envisages a framework to facilitate and promote establishment of metal scrapping centers in India. The policy aims to ensure scientific processing & recycling of ferrous scrap generated from various sources and a variety of products. The policy framework provides standard guidelines for collection, dismantling and shredding activities in an organized, safe and environmentally sound manner. The policy aims to achieve the following objectives – (i) to promote circular economy in the steel sector, (ii) to promote a formal and scientific collection, dismantling and processing activities for end of life products that are sources of recyclable (ferrous, non-ferrous and other non-metallic) scraps which will lead to resource conservation and energy savings and setting up of an environmentally sound management system for handling ferrous scrap; (iii) processing and recycling of products in an organized, safe and environment friendly manner; (iv) to evolve a responsive ecosystem by involving all stakeholders; (v) to produce high quality ferrous scrap for quality steel production thus minimizing the dependency on imports; (vi) To decongest the Indian cities from ELVs and reuse of ferrous scrap; (vii) to create a mechanism for treating waste streams and residues produced from dismantling and shredding facilities in compliance to Hazardous & Other Wastes (Management & Transboundary Movement) Rules , 2016 issued by MoEF & CC; and (viii) to promote 6 R’s principles of reduce, reuse, recycle, recover, redesign and remanufacture through scientific handling, processing and disposal of all types of recyclable scraps including nonferrous scraps, through authorized centers / facility.

Rajasthan Enterprises Single Window Enabling and Clearance (Amendment) Act, 2020

The Rajasthan Enterprises Single Window Enabling and Clearance (Amendment) Act, 2020 was introduced to streamline and expedite the approval process for setting up and operating businesses in Rajasthan. It amended the 2011 Act to enhance the ease of doing business by enabling a single-window clearance system for investors and entrepreneurs. The amendment introduced provisions for deemed approvals, time-bound clearances, and digital processing of applications through the Rajasthan Single Sign-On (SSO) platform. By reducing bureaucratic delays and ensuring greater transparency, the Act aims to attract investments, boost industrial development, and promote Rajasthan as a business-friendly destination.

The Assam Shops and Establishments Act, 1971

The Assam Shops and Establishments Act, 1971 is a state legislation enacted to regulate the conditions of work and employment in shops, commercial establishments, restaurants, theatres, and other establishments within Assam. The Act governs provisions related to working hours, rest intervals, overtime, weekly holidays, employment of women and young persons, wages, and leave entitlements. Employers are required to register their establishments under this Act and maintain prescribed records. The legislation aims to ensure fair labor practices, protect employee rights, and promote decent working conditions in the unorganized sector, thereby contributing to balanced labor welfare and economic development in the state.

Electricity Act, 2003 (“Electricity Act”)

The Electricity Act, 2003 is a comprehensive legislation that governs the generation, transmission, distribution, and trading of electricity in India. Enacted to promote competition, protect consumer interests, and ensure efficient electricity supply, the Act de-licenses power generation and facilitates open access to the transmission and distribution networks. It empowers both central and state electricity regulatory commissions to determine tariffs and enforce regulations.

ENVIRONMENTAL LAWS

Environment Protection Act, 1986 (“EPA”) and Environment (Protection) Rules, 1986

The EPA is the umbrella legislation in respect of the various environmental protection laws in India. Under the EPA, the GoI is empowered to take any measure it deems necessary or expedient for protecting and improving the quality of the environment and preventing and controlling environmental pollution. This includes rules for, inter alia, laying down standards for the quality of environment, standards for emission of discharge of environment pollutants from various sources, as provided under the Environment (Protection) Rules, 1986, inspection of any premises, plant, equipment, machinery, examination of manufacturing processes and materials likely to cause pollution. Penalties for violation of the EPA include fines up to ₹ 100,000 or imprisonment of up to five years, or both. If the violation continues beyond a period of one year after the date of conviction, the offender shall be punishable with imprisonment for a term which may extend upto seven years. There are provisions with respect to certain compliances by persons handling hazardous substances, furnishing of information to the authorities in certain cases, establishment of environment laboratories and appointment of Government analysts.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act has been enacted to provide for the prevention, control and abatement of air pollution. The Air Act was enacted with a view to protect the environment and surroundings from any adverse effects of the pollutants that may emanate from any factory or manufacturing operation or activity. It lays down the limits with regard to emissions and pollutants that are a direct result of any operation or activity. Periodic checks on the factories are mandated in the form of yearly approvals and consents from the respective state pollution control boards. Pursuant to the provisions of the Air Act, any person, establishing or operating any industrial plant within an air pollution control area, must obtain the consent of the relevant state pollution control board, prior to establishing or operating such industrial plant.

The state pollution control board may then grant consent, subject to mentioned conditions relating to pollution control equipment to be installed at the facilities. No person operating any industrial plant in any air pollution control area is permitted to discharge the emission of any air pollutant in excess of the standards laid down by the state pollution control board.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”) and Water (Prevention and Control of Pollution) Act, 1977

The Water Act aims to prevent and control water pollution as well as restore water quality by establishing and empowering the central and state pollution control board. Under the Water Act, any person establishing any industry,

operation or process, any treatment or disposal system, using any new or altered outlet for the discharge of sewage or new discharge of sewage, must obtain the consent of the relevant state pollution control board, which is empowered to establish standards and conditions that are required to be complied with.

In certain cases, the state pollution control board may cause the local magistrates to restrain the activities of such person who is likely to cause pollution. Penalty for the contravention of the provisions of the Water Act include imposition of fines and/or imprisonment.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, (“Hazardous Wastes Rules”)

The Hazardous Wastes Rules impose an obligation on every occupier of a facility generating hazardous waste to deploy safe and environmentally sound measures for handling of hazardous waste generated at such facility. Every person engaged in generation, processing, treatment, packaging, storage, transportation, use, collection, destruction, conversion, offering for sale and transfer of hazardous waste, must obtain an approval from the applicable state pollution control board. The occupier, the importer, the transporter and the operator of disposal facility are liable for damages to the environment or third party resulting from the improper handling and disposal of hazardous waste.

Public Liability Insurance Act, 1991 (“Public Liability Act”)

The Public Liability Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substance. A list of hazardous substances covered by the Public Liability Act has been enumerated by the Government of India by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute a sum equal to the premium paid on the insurance policies towards the environment relief fund.

TAX LEGISLATIONS

The tax related laws that are applicable to our Company include the Income-tax Act, 1961, the Income Tax Rules, the Customs Act, 1962, Customs Tariff Act, 1975, Goods and Services Tax Act, 2017, local body tax in respective states and Finance Act, 1994 and various applicable tax notifications and circulars.

Income-tax Act, 1961 (“Income Tax Act”)

The Income Tax Act is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of this Act or Rules made there under depending upon its “Residential Status” and “Type of Income” involved. The Income Tax Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every company assessable to income tax under the Income Tax Act is required to comply with the provisions thereof, including those relating to tax deduction at source, advance tax, minimum alternative tax, etc.

GST Laws, Rajasthan State GST Act

The Goods and Services Tax (“GST”) is levied on supply of goods or services or both jointly by the Central Government and state governments. It is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by the Central Government on intra-state supply of goods or services and by the state government including union territories. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017, relevant state’s Goods and Services Act, 2017, Union Territory Goods and Services Act, 2017, Integrated Goods and Services Act, 2017, Goods and Services (Compensation to States) Act, 2017 and various rules made thereunder.

Professional Tax

The Rajasthan State Tax on Professions, Trades, Callings and Employments Act, 2000 and the Assam Professions, Trades, Callings and Employments Taxation Act, 1947 govern the levy of professional tax in Rajasthan and Guwahati (Assam), respectively. These Acts impose a tax on individuals engaged in professions, trades, and employment, including salaried employees, self-employed professionals, and business entities. Employers are required to deduct and deposit tax on behalf of employees.

EMPLOYMENT AND LABOUR LAWS

The employment of workers, depending on the nature of activity, is regulated by a wide variety of generally applicable labour laws. The following is an indicative list of labour laws which may be applicable to our Company due to the nature of our business activities:

INTELLECTUAL PROPERTY LEGISLATIONS

In general, the Intellectual Property Rights includes but is not limited to the following enactment:

- The Trademarks Act, 1999
- Patents Act 1970
- The Designs Act, 2000

Trademarks Act, 1999 ("TM Act")

The Trademarks Act, 1999 provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

Patents Act 1970

The Patents Act 1970, enacted in India, establishes a legal framework for patent protection, promoting innovation while balancing public interest. It allows inventors to secure exclusive rights to their inventions for a limited period, typically 20 years, provided they meet criteria such as novelty, inventive step, and industrial applicability. The Act prohibits product patents for certain categories, including food and pharmaceuticals, to ensure accessibility and affordability, particularly in healthcare. It also includes provisions for compulsory licensing, enabling the government to authorize third parties to produce patented products under specific conditions, thereby preventing monopolistic practices. The Act has undergone several amendments, notably in 2005 and 2002, to align with international treaties like TRIPS, enhancing the patent system's robustness and user-friendliness while safeguarding national interests.

The Designs Act, 2000

The Designs Act, 2000 is a legislative framework in India that governs the registration and protection of industrial designs. It defines an industrial design as the visual features of shape, configuration, pattern, ornamentation, or composition of lines or colours applied to an article. The Act establishes a Designs Office and appoints a Controller of Designs to oversee its implementation. It outlines the registration process, criteria for design eligibility, the rights conferred upon registration, and the duration of protection, which is initially ten years, extendable by an additional five years. The Act also addresses issues such as cancellation of registrations, infringement of design rights, and the legal remedies available to aggrieved parties. By mandating registration for protection, the Act aims to encourage creativity and fair competition in the market while safeguarding the interests of both creators and consumers.

OTHER APPLICABLE LEGISLATIONS

The Micro, Small and Medium Enterprises Development Act, 2006 (the “MSME Act”)

In order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (MSME), the MSME Act was enacted. With effect from July 01, 2020 the Manufacturing enterprises and enterprises rendering Services have been re-classified as Micro enterprise, where the investment in plant and machinery does not exceed Rs.1 Crore and annual turnover does not exceed Rs. 5 Crore; Small enterprise, where the investment in plant and machinery does not exceed Rs.10 crore and annual turnover does not exceed Rs. 50 Crore; a Medium enterprise, where the investment in plant and machinery does not exceed Rs. 50 crore and annual turnover does not exceed Rs. 250 Crore.

Competition Act, 2002 (“Competition Act”)

The Competition Act aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anti-competitive agreements, abuse of dominant position and combinations. The Competition Commission of India (“**Competition Commission**”) which became operational from May 20, 2009, has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising, or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

Digital Personal Data Protection Act, 2023 (the “DPDP Act”)

The Digital Personal Data Protection Act, 2023 (DPDP Act) is India's landmark legislation focused on protecting personal data in the digital realm. This Act establishes comprehensive rules for the collection, processing, storage, and transfer of digital personal data, ensuring that the privacy of individuals is respected while balancing the needs of businesses and government entities. The Act aims to empower individuals by giving them greater control over their personal data while holding organizations accountable for how they handle this data.

Stamp Act in various states

The purpose of the Indian Stamp Act, 1889 (the “Stamp Act”) was to streamline and simplify transactions of immovable properties and securities and enable states to collect stamp duty. The Stamp Act provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule IA of the Stamp Act of the respective states. Stamp duty is payable on all instruments/ documents evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property.

The Companies Act, 1956 & 2013

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Act received the assent of the President of India on August 29, 2013. The Companies Act, 2013 deals with incorporation of companies and the procedure for incorporation and post incorporation. The conversion of private companies into public companies and vice versa is also laid down under the Companies Act, 2013. The procedure related to appointment of Directors, winding up, voluntary winding up, and appointment of liquidator also forms part of the Companies Act, 2013. Further, Schedule V (read with sections 196 and 197), Part I lay down the conditions to be fulfilled for the appointment of a managing or whole-time director or manager. It provides the list of acts under which if a person is prosecuted, he cannot be appointed as the director or Managing Director or Manager of a Company. The provisions relating to remuneration of the directors payable by the companies are under Part II of the said schedule.

The Consumer Protection Act, 1986

The Consumer Protection Act ("COPRA") aims at providing better protection to the interests of consumers and for that purpose makes provisions for the establishment of authorities for the settlement of consumer disputes. The COPRA provides a mechanism for the consumer to file a complaint against a trader or service provider in cases of unfair trade practices, restrictive trade practices, defects in goods, deficiency in services; price charged being unlawful and goods being hazardous to life and safety when used. The COPRA provided for a three-tier consumer grievance redressal mechanism at the national, state and district levels.

The Indian Contract Act, 1872 (the “Contract Act”)

The Contract Act is the legislation which lays down the general principles relating to formation, performance and enforceability of contracts. The rights and duties of parties and the specific terms of agreement are decided by the contracting parties themselves, under the general principles set forth in the Contract Act. The Contract Act also provides for circumstances under which contracts will be considered as ‘void’ or ‘voidable’. The Contract Act contains provisions governing certain special contracts, including indemnity, guarantee, bailment, pledge, and agency.

Fire prevention laws

The State legislatures in India have the power to endow the municipalities with the power and authority to implement schemes and perform functions in relation to matters listed in the Twelfth Schedule to the Constitution of India, which includes fire services.

Apart from the above list of laws, which is inclusive in nature and not exhaustive, following general laws are also applicable to the Company:

- Transfer of Property Act, 1882,
- The sale of Goods Act, 1930
- Information Technology Act, 2000,
- The Bharatiya Nyaya Sanhita, 2023,
- The Bharatiya Nagarik Suraksha Sanhita, 2023,
- The Bharatiya Sakshya Adhinyam, 2023
- The registration Act 1908 etc.
- Negotiable Instruments Act, 1881
- The Specific Relief Act, 1963

A complainant can approach any member of the committee with her written complaint.

Tenure

The President and other members of the committee shall hold office for such period, not exceeding 3 (three) years, from the date of their nomination as may be specified by the employer.

Scope

This policy is applicable to employees, workers, volunteers, probationer and trainees including those on deputation, part time, contract, working as consultants or otherwise (whether in the office premises or outside while on assignment). This policy shall be considered to be a part of the employment contract or terms of engagement of the persons in the above categories.

Where the alleged incident occurs to our employee by a third party while on a duty outside our premises, the Company shall perform all reasonable and necessary steps to support our employee.

What Constitutes Sexual Harassment?

Sexual Harassment means such unwelcome sexually determined behaviour (directly or through implication), like physical contact and advances by the employee(s) including:

- a) A demand or request for sexual favours, sexually coloured remarks, showing pornography, any other unwelcome physical conduct of sexual nature, lurid stares, physical contact or molestation, stalking, sounds, display of pictures, signs;
- b) Eve teasing, innuendos and taunts, physical confinement against one's will;
- c) A demand or request for sexual favours, whether verbally or non-verbally, where the submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or promotion / evaluation of work thereby denying an individual equal opportunity at employment;
- d) An act or conduct by a person in authority which makes the environment at workplace hostile or intimidating to a person or unreasonably interferes with the individual's privacy and productivity at work;
- e) Verbal harassment of a sexual nature, such as lewd comments, sexual jokes or references, and offensive personal references; demeaning, insulting, intimidating, or sexually suggestive comments (oral or written) about an individual's personal appearance or electronically transmitted messages (Jokes, remarks, letters, phone calls);
- f) Any other behaviour which an individual perceives as having sexual overtones.

Redressal Mechanism:

Once the complaint is received by the Committee:

- a) The person who is accused by the complainant will be informed that a complaint has been filed against him (he will be made aware of the details of the allegation and also the name of the complainant as it would be necessary for proper inquiry) and no unfair acts of retaliation or unethical action will be tolerated.
- b) The complainant has the opportunity to ask for conciliation proceedings by having communication with the accused in the presence of the Committee. Please note that in such conciliation the complainant cannot demand monetary compensation.
- c) The Committee shall provide the copies of the settlement as recorded during conciliation to the aggrieved employee and the respondent.
- d) If the matter has been settled by conciliation but the respondent is not complying with the terms and conditions, the aggrieved party can approach the Committee for Redressal.

- e) The Committee will question both the complainant and the alleged accused separately. If required, the person who has been named as a witness will need to provide the necessary information to assist in resolving the matter satisfactorily.
- f) The Committee shall call upon all witnesses mentioned by both the parties.
- g) The Committee can ask for specific documents from a person if it feels that they are important for the purpose of investigation.
- h) The complainant has the option to seek transfer or leave so that the inquiry process can continue smoothly and to prevent recurrence of similar situations or discomfort to the complainant. The leave can extend for a maximum period of 3 months. Leave granted under this provision will be paid leave and will not be counted in the number of leaves that the complainant is statutorily entitled to. The complainant may be required to work from home, if it is practicable, keeping in mind the nature of work of the complainant, health and mental condition. However, the complainant is under a good faith obligation and shall not abuse the process to request unjustifiably long periods of leave, keeping in mind the economic effects of the leave to the organization. The Committee shall have the discretion to grant leave of an appropriate duration, depending on the facts and circumstances of the case, or grant an alternate measure such as transferring the employee or the accused, as it deems fit.

Where leave is granted to the complainant, the Committee shall make all possible attempts to ensure speedy completion of the inquiry process and to minimize adverse economic consequences to the Company arising out of the absence of the complainant from the workplace.

- i. The complainant and the accused shall be informed of the outcome of the investigation. The investigation shall be completed within 3 months of the receipt of the complaint. If the investigation reveals that the complainant has been sexually harassed as claimed, the accused will be subjected to disciplinary action accordingly.
 - a) The report of the investigation shall be supplied to the employer (or the District Officer), the accused and the complainant within 10 days of completion of the investigation.
 - b) The employer or the District Officer will act on the recommendations of the Committee within 60 days of the receipt of the report.
- ii. The contents of the complaint made, the identity and addresses of the aggrieved employee, respondent and witnesses, any information relating to conciliation and inquiry proceedings, recommendations of the Internal Committee and the action taken by the employer shall not be published, communicated or made known to the public, press and media in any manner

Any party aggrieved by the report can prefer an appeal in the appropriate Court or Tribunal in accordance with the service rules within 90 days of the recommendation been given to the employer / District Officer.

Disciplinary Action:

Where any misconduct is found by the Committee, appropriate disciplinary action shall be taken against the accused. Disciplinary action may include transfer, withholding promotion, suspension or even dismissal. This action shall be in addition to any legal recourse sought by the complainant.

If it is found out through evidence by the Committee that the complainant has maliciously given false complaint against the accused, disciplinary action shall be taken against the complainant as well.

Regardless of the outcome of the complaint made in good faith, the employee lodging the complaint and any person providing information or any witness, will be protected from any form of retaliation. While dealing with complaints of sexual harassment, the Committee shall ensure that the complainant or the witness are not victimized or discriminated against by the accused. Any unwarranted pressures, retaliatory or any other type of unethical behaviour by the accused against the complainant while the investigation is in progress should be reported by the complainant to the Complaints Committee as soon as possible. Disciplinary action will be taken by the Committee against any such complaints which are found genuine.

This policy shall be disseminated to each employee of the Company as well as new recruits who will have to acknowledge that they have read and understood the policy and that they shall abide by the policy.

Annexure-IV

NOTE 1 Significant Accounting Policies :

1.1 Nature of Business

Our Company was initially incorporated as a private company in the name of "M P K Steels (I) Private Limited" on February 28, 2005, under the provision of Companies Act 1956 bearing Corporate Identification Number U27109AS2005PTC007674 issued by Registrar of Companies Assam, Mizoram, Manipur, Tripura, Nagaland, Arunachal Pradesh & Meghalaya, Shillong. Subsequently, our Company was converted into Public Limited Company pursuant to Shareholders resolution passed at the Extraordinary General Meeting of our Company held on November 12, 2024, and the name of our Company was changed to "M P K Steels (I) Limited" and a Fresh Certificate of Incorporation consequent upon conversion of Company to Public Limited dated December 16, 2024 was issued by the Registrar of Companies, Central Processing Centre. The Corporate Identification Number of the Company is U27109AS2005PLC007674.

The Company is engaged in the manufacturing of General Purposes Structure Steel products like M.S. Chanel, M.S. Joist, M.S. Angle, M.S. Square Bar, M.S. Round Bar, M.S. Flat. The channels provided by us are widely used in various structural applications. The angles manufactured by us are widely used in different sectors and only the products which are 100% flawless according to our parameters are rendered to the markets.

The registered office of the company is located at House No. 87, Rajgarh Road, Silpukhuri, Kamrup, Gmc, Assam, India, 781003 and books of accounts maintained at A-195, RIICO Industrial Area (Ext.) Phase-II, Bagru, Jaipur-303007 Rajasthan, India.

1.2 Basis of Preparation of Financial Statements

The financial statements of the Company have been prepared in accordance with Indian GAAP, the Companies Act and restated in accordance with the SEBI (ICDR) Regulations, Guidance Note on "Reports in Company Prospectus (Revised 2019)" issued by ICAI and the Indian GAAP. The company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013 read together with the Companies (Accounting Standards) Rules, 2021 and presentation requirements of Division I of Schedule III to the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention, except for derivative financial instruments which have been measured at fair value. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year, except for the change in accounting policy explained below.

1.3 Financial Statements: Presentation and disclosures

Financial Statements contain the information and disclosures mandated by Revised Schedule III, applicable accounting standards, other applicable pronouncements and regulations.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of Services and the time between the provision of services and the realization of the revenue in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current , non- current, classification of assets and liabilities.

1.4 Use of Estimates

The preparation of financial statements is in conformity with generally accepted accounting principles which requires managements to make judgements , estimates and assumptions that affect the application of accounting policies and reported amount of assets and liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements . Actual results could differ from those estimates . Estimates and assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods.

1.5 Property, Plant & Equipment and Depreciation

Property, Plant and Equipment are stated at cost less accumulated depreciation. Cost comprises of all expenses incurred to bring the assets to its present location and condition. Borrowing cost directly attributable to the acquisition /construction are included in the cost of fixed assets. Adjustments arising from exchange rate variations attributable to the Property Plant & Equipment are capitalized.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future economic benefits from the existing asset beyond its previously assessed standard of performance.

Capital assets (including expenditure incurred during the construction period) under erection / installation are stated in the Balance Sheet as "Capital Work in Progress."

All Property Plant & Equipemen, except capital work in progress, are depreciated on WDV Method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on additions to / deletions from Property Plant & Equipment made during the period is provided on pro-rata basis from / up to the date of such addition /deletion as the case may be.

1.6 Impairment of Assets

The carrying amounts of the assets are reviewed at each Balance Sheet date. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value. An impairment loss is charged when the asset is identified as impaired.

1.7 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

Sale of goods - Sales are recognized, net of returns and trade discounts, on transfer of significant risk and rewards of ownership to the buyer, which generally coincide with the delivery of goods to the customers. The Company collects Goods and Service Tax (GST) and / or Tax Collected at source on behalf of the government and, therefore, these do not form a part of economic benefits flowing to the Company.

Revenue on Interest income - Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

1.8 Current and Non-Current Classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when it is:

- i) Expected to be realised or intended to be sold or consumed in normal operating cycle
 - ii) Held primarily for the purpose of trading
 - iii) Expected to be realised within twelve months after the reporting period, or
 - iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- All other assets are classified as non-current.

A liability is current when:

- i) It is expected to be settled in normal operating cycle
- ii) It is held primarily for the purpose of trading
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Long term benefits:

a) Defined Contribution Plan

The Company contributes to a recognised provident fund for all its employees. Contributions are recognised as an expense when employees have rendered services entitling them to such benefits.

b) Gratuity

The Company provides for its gratuity liability based on actuarial valuation as at the balance sheet date which is carried out by an independent actuary using the Projected Unit Credit Method. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are credited or charged to Statement of Profit and Loss in the period in which such gains or losses arise.

1.9 Related Party Transaction

Disclosure of transactions with related parties and where control exists, as required by Accounting Standard 18 "Related Party Disclosure" has been set out in a Notes to the Financial Statement. Related parties as defined under clause 3 of the Accounting Standard have been identified based on representations made by key managerial personnel and information available with the Company. Refer Annexure XXXIII

1.10 Preliminary Expenses

Preliminary Expenses have been written off over a period of 5 years.

1.11 Disclosure of accounting Policies

The accounting policies have been disclosed to the extent applicable to the Company.

1.12 Accounting for Taxation:

Income Tax

Income Taxes are accounted for in accordance with Accounting Standard 22 on "Accounting for Taxes on Income". Taxes comprise both current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred Tax

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred tax liabilities are recognized for all taxable timing differences. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits. Deferred tax assets are recognized subject to prudence and only if there is reasonable certainty that they will be realized.

1.13 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted-average number of equity shares outstanding during the year. The weighted-average number of equity shares outstanding during the year and for all years presented is adjusted for events such as bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted-average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.14 Leases**Where the company is lessee**

Finance leases, which effectively transfer to the company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized. A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term. Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Where the company is the lessor

Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in property, plant and equipment. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

1.15 Borrowing costs

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

1.16 Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident. Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

1.17 Changes in Accounting Policies in the Period/Years Covered in The Restated Financial Statements

There is no change in significant accounting policies adopted by the Company.

1.18 Other Notes on Restated Financial statements

The financial statements including financial information have been prepared after making such regroupings and adjustments, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial statements/ information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.

Contingent liabilities and commitments (to the extent not provided for) - A disclosure for a contingent liability is also made when there is a possible obligation that may, require an outflow of the Company's resources.

Figures have been rearranged and regrouped wherever practicable and considered necessary.

The management has confirmed that adequate provisions have been made for all the known and determined liabilities and the same is not in excess of the amounts reasonably required to be provided for.

The balances of trade payables, trade receivables, loans and advances are unsecured and considered as good are subject to confirmations of respective parties concerned.

Realizations: In the opinion of the Board and to the best of its knowledge and belief, the value on realization of current assets and loans and advances are approximately of the same value as stated.

Contractual liabilities: All other contractual liabilities connected with business operations of the Company have been appropriately provided for.

Amounts in the restated financial statements: Amounts in the restated financial statements are rounded off to nearest Lakhs. Figures in brackets indicate negative values

1.19 Provisions

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Where the company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

1.20 Contingent liabilities and Contingent Assets

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent Assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by- the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize the contingent asset in its financial statements since this may result in the recognition of income that may never be realised. Where an inflow of economic benefits are probable, the company disclose a brief description of the nature of contingent assets at the end of the reporting period. And give disclosures as required by AS 29. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and the company recognize such assets. Contingent liabilities and contingent assets are reviewed at each Balance Sheet date. AS 29.10(R)

1.21 Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

1.22 Employee Benefits

Short – term employee benefits are recognized as an expense at the undiscounted amount in the profit & loss account of the year in which the related service is rendered.

Post-employment and other long term employee benefits are recognized as an expense in the profit & loss account for the year in which the liabilities are crystallized/accrued.

Provision for Gratuity has been considered as per Actuarial valuation report

1.23 Inventory

As per Accounting Standard-2, Raw materials, Consumable Stores and Spares and Packing materials are valued at cost (Net of available Cenvat Credit) on First-in-first out basis (FIFO) or at market price whichever is lower.

WIP, Scrap and Finished goods are valued at cost of production on average cost basis or net realizable value whichever is lower.

By - Products are valued at Market Price

Traded goods are valued at lower of cost and net realizable value.

The comparison between cost and net realizable value is made on an item by item basis.

Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on First-in-first out basis (FIFO)

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Note 1 - In the preceding financial year, the gain from the settlement agreement with Assets Care & Reconstruction Enterprises Ltd ("ACRE") was recorded under 'Reserve and Surplus.' However, upon review and in compliance with Accounting Standard 29 and Schedule III of the Companies Act, such gains are required to be routed through the Profit and Loss Account. Consequently, the opening balance representing the settlement gain has been reclassified and transferred to the Profit and Loss Account to ensure alignment with the prescribed accounting and reporting standards - **Refer Note Note 36.**

Note 2 - In the preceding financial year, the capital subsidy received from Project Management cell (PMC) , UNDP/GEF Project (Steel),(a project being executed by the ministry of steel(MOS) , Government of India) in FY 2012-13 for purchase of machinery / equipment for implementation of EE technology was recorded under 'Reserve and Surplus. However, upon review and in compliance with Accounting Standard 12 and Schedule III of the Companies Act , such subsidies are required to be treated as deferred income which is recognised in the profit and loss statement on a systematic and rational basis over the useful life of the asset. Such allocation to income is usually made over the periods and in the proportions in which depreciation on related assets is charged. Consequently, the opening balance representing capital subsidy of Rs. 31.53 Lakhs has been reclassified and transferred to the Profit and Loss Account to ensure alignment with the prescribed accounting and reporting standards.

Sensitivity analysis method

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase rate. Effect of change in mortality rate is negligible. Please note that the sensitivity analysis presented below may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated.

Actuarial assumptions:

Notes:-

1. The ratios have been Computed as per the following formulas

(i) Basic Earnings per Share

$$\frac{\text{Restated Profit after Tax available to equity shareholders}}{\text{Weighted average number of equity shares outstanding at the end of the year / period}}$$

(ii) Net Asset Value (NAV) per Equity Share

$$\frac{\text{Restated Net Worth of Equity Share Holders}}{\text{Number of equity shares outstanding at the end of the year / period}}$$

(iii) Return on Net worth (%)

$$\frac{\text{Restated Profit after Tax available to equity shareholders}}{\text{Restated Net Worth of Equity Share Holders}}$$

2. EBITDA represents Earnings (or Profit/ (Loss)) before Finance Costs, Income Taxes, and Depreciation and Amortization Expenses. Extraordinary and Exceptional Items have been considered in the calculation of EBITDA as they were expense items.

3. Net Profit as restated, as appearing in the Statement of Profit and Losses, has been considered for the purpose of computing the above ratios. These ratios are computed on the basis of the Restated Financial Information of the Company.

4. Earnings per share calculations are done in accordance with Accounting Standard 20 "Earning per Share", issued by the Institute of Chartered Accountants of India.

5. Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the period adjusted by the number of Equity Shares issued during period multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the period.

NOTE 36 Exceptional Item

During the financial year 2018-2019, the State Bank of India (the "Lender") entered into an Assignment Agreement with Assets Care and Reconstruction Enterprises Limited ("ACRE") on March 30, 2019. Under this agreement, ACRE took over the stressed loan extended to MPK Steel Pvt. Ltd ("the Company") and its related parties—MPK Ispat (I) Pvt. Ltd and MPK Metal Pvt. Ltd (collectively referred to as "the Group"). The aggregate loan amount of ₹6,663.03 lakhs, as of March 30, 2019, was assigned at a consideration of ₹2,400.00 lakhs.

In the financial year 2019-2020, ACRE executed a Compromise Settlement Agreement ("Settlement Agreement") on May 31, 2019, with MPK Steel Pvt. Ltd and its related parties.

Following the settlement of the outstanding balance with ACRE, the Company paid its share of liability and recognized the cessation of liability resulting from the settlement and the restructuring of borrowings, including interest, as per the resolution plan. The cessation of liability resulting from the settlement and the restructuring amounted to ₹1,149.52 lakhs and was recorded in the opening balance of the Statement of Profit & Loss Reserve account as of April 1, 2021. The Company settled its obligation due to ACRE and further obtained No dues certificate letter dated December 21, 2021.

NOTE 37 -**(a) Income Tax Demand**

The Income Tax Department reopened the Company's assessment for the Assessment Year (A.Y.) 2016-17 under Section 148 of the Income Tax Act. Following the reassessment proceedings, the Assessing Officer passed an order on March 19, 2025, determining a tax demand of Rs. 99.39 Lakhs.

The Company believes that it has a strong case against the order issued by the department, based on facts and legal provisions. In light of this, the Company is in the process of filing an appeal with the Commissioner of Income Tax (Appeals) to challenge the reassessment order and seek appropriate relief.

(b) Indirect Tax Demand - GST Demand

The Company was served an order under Section 74 of the Central Goods and Services Tax (CGST) Act, 2017, dated January 24, 2023. The order alleges that the Company had improperly availed or utilized input tax credit (ITC) under the CGST framework during the transitional filing of the TRAN-1 Form for the period from July 2017 to March 2018.

The Company believes that it has a valid case against the allegations raised in the order, based on the relevant facts. And against this the Company has filed an appeal before the Commissioner (Appeals), GST, challenging the order issued by the department.

NOTE 38 - Material Development After Balance Sheet

The authorized share capital of the company was further increased from 35,00,000 equity shares of Rs. 10/- each, to 1,00,00,000 equity shares of Rs. 10/- each vide board resolution dated January 6, 2025 and vide Ordinary Resolution passed in the Extra Ordinary General Meeting dated January 10, 2025.

The company issued 34,61,679 equity share of Rs. 10/- each as bonus share in the ratio of 1:1 (i.e. one share fully paid Bonus share of Rs. 10/- each will be allotted against the holding of 1 (one) equity share of the company) vide board resolution dated March 22, 2025 and vide ordinary resolution passed in the Extra Ordinary General Meeting dated March 24, 2025.

NOTE 39 - Previous year's figures have been regrouped wherever necessary so as to make them comparable to those of the current year.

1.2 Basis of preparation of financial statements

The financial statements of the Company have been prepared in accordance with Indian GAAP, the Companies Act and restated in accordance with the SEBI (ICDR) Regulations, Guidance Note on “Reports in Company Prospectus (Revised 2019)” issued by ICAI and the Indian GAAP. The company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013 read together with the Companies (Accounting Standards) Rules, 2021 and presentation requirements of Division I of Schedule III to the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention, except for derivative financial instruments which have been measured at fair value. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year, except for the change in accounting policy explained below

1.3 Financial Statements: Presentation and disclosures

Financial Statements contain the information and disclosures mandated by Revised Schedule III, applicable accounting standards, other applicable pronouncements and regulations.

All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of Services and the time between the provision of services and the realization of the revenue in cash and cash equivalents, the Company

has ascertained its operating cycle as 12 months for the purpose of current, non-current, classification of assets and liabilities.

1.4 Use of Estimates

The preparation of financial statements is in conformity with generally accepted accounting principles which requires managements to make judgements, estimates and assumptions that affect the application of accounting policies and reported amount of assets and liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Estimates and assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods.

1.5 Property, Plant & Equipment and Depreciation

Property, Plant and Equipment are stated at cost less accumulated depreciation. Cost comprises of all expenses incurred to bring the assets to its present location and condition. Borrowing cost directly attributable to the acquisition /construction are included in the cost of fixed assets. Adjustments arising from exchange rate variations attributable to the Property, Plant & Equipment are capitalized.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future economic benefits from the existing asset beyond its previously assessed standard of performance.

Capital assets (including expenditure incurred during the construction period) under erection / installation are stated in the Balance Sheet as "Capital Work in Progress."

All Property, Plant & Equipment, except capital work in progress, are depreciated on WDV Method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on additions to / deletions from fixed assets made during the period is provided on pro-rata basis from / up to the date of such addition /deletion as the case may be.

1.6 Impairment of Assets

The carrying amounts of the assets are reviewed at each Balance Sheet date. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value. An impairment loss is charged when the asset is identified as impaired.

1.7 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized

Sale of goods - Sales are recognized, net of returns and trade discounts, on transfer of significant risk and rewards of ownership to the buyer, which generally coincide with the delivery of goods to the customers. The Company collects Goods and Service Tax (GST) and / or Tax Collected at source on behalf of the government and, therefore, these do not form a part of economic benefits flowing to the Company.

Revenue on Interest income - Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

1.8 Current and Non-Current Classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when it is:

- i) Expected to be realised or intended to be sold or consumed in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Expected to be realised within twelve months after the reporting period, or

iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

i) It is expected to be settled in normal operating cycle

ii) It is held primarily for the purpose of trading

iii) It is due to be settled within twelve months after the reporting period, or

iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Long term benefits:

a) Defined Contribution Plan

The Company contributes to a recognised provident fund for all its employees. Contributions are recognised as an expense when employees have rendered services entitling them to such benefits.

b) Gratuity

The Company provides for its gratuity liability based on actuarial valuation as at the balance sheet date which is carried out by an independent actuary using the Projected Unit Credit Method. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are credited or charged to Statement of Profit and Loss in the period in which such gains or losses arise.

1.9 Related Party Transaction

Disclosure of transactions with related parties and where control exists, as required by Accounting Standard 18 "Related Party Disclosure" has been set out in a Notes to the Financial Statement. Related parties as defined under clause 3 of the Accounting Standard have been identified based on representations made by key managerial personnel and information available with the Company. *For further details, please refer "Related Party Transactions" on page 229 of this Draft Red Herring Prospectus.*

1.10 Preliminary Expenses

Preliminary Expenses have been written off over a period of 5 years.

1.11 Disclosure of accounting Policies

The accounting policies have been disclosed to the extent applicable to the Company.

1.12 Accounting for Taxation:

Income Tax

Income Taxes are accounted for in accordance with Accounting Standard 22 on "Accounting for Taxes on Income". Taxes comprise both current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred Tax

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred tax liabilities are recognized for all taxable timing differences. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits. Deferred tax assets are recognized subject to prudence and only if there is reasonable certainty that they will be realized.

1.13 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted-average number of equity shares outstanding during the year. The weighted-average number of equity shares outstanding during the year and for all years presented is adjusted for events such as bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted-average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.14 Leases

Where the company is lessee

Finance leases, which effectively transfer to the company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term. Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Where the company is the lessor

Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportion lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss. Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in property, plant and equipment. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

1.15 Borrowing costs

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

1.16 Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident. Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

1.17 "Changes in Accounting Policies in the Period/Years Covered in The Restated Financial Statements"

There is no change in significant accounting policies adopted by the Company.

1.18 Other Notes on Restated Financial statements

The financial statements including financial information have been prepared after making such regroupings and adjustments, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial statements/ information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.

Contingent liabilities and commitments (to the extent not provided for) - A disclosure for a contingent liability is also made when there is a possible obligation that may, require an outflow of the Company's resources.

Figures have been rearranged and regrouped wherever practicable and considered necessary.

The management has confirmed that adequate provisions have been made for all the known and determined liabilities and the same is not in excess of the amounts reasonably required to be provided for.

The balances of trade payables, trade receivables, loans and advances are unsecured and considered as good are subject to confirmations of respective parties concerned.

Realizations: In the opinion of the Board and to the best of its knowledge and belief, the value on realization of current assets and loans and advances are approximately of the same value as stated.

Contractual liabilities: All other contractual liabilities connected with business operations of the Company have been appropriately provided for.

Amounts in the restated financial statements: Amounts in the restated financial statements are rounded off to nearest Lakhs. Figures in brackets indicate negative values

1.19 Provisions

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Where the company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

1.20 Contingent liabilities and Contingent Assets

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent Assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by- the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize the contingent asset in its financial statements since this may result in the recognition of income that may never be realised. Where an inflow of economic benefits are probable, the Group disclose a brief description of the nature of contingent assets at the end of the reporting period. And give disclosures as required by AS 29. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset, and the Group recognize such assets. Contingent liabilities and contingent assets are reviewed at each Balance Sheet

date.

1.21 Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

1.22 Employee Benefits

"Short – term employee benefits are recognized as an expense at the undiscounted amount in the profit & loss account of the year in which the related service is rendered. Post-employment and other long term employee benefits are recognized as an expense in the profit & loss account for the year in which the liabilities are crystallized/accrued."

1.23 Inventory

As per Accounting Standard-2, Raw materials, Consumable Stores and Spares and Packing materials are valued at cost (Net of available Cenvat Credit) on First-in-first out basis (FIFO) or at market price whichever is lower.

WIP, Scrap and Finished goods are valued at cost of production on average cost basis or net realizable value whichever is lower.

By-Products are valued at Market Price

Traded goods are valued at lower of cost and net realizable value.

The comparison between cost and net realizable value is made on an item by item basis.

Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on First-in-first out basis (FIFO)

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

DISCUSSION ON RESULTS OF OPERATIONS

The following discussion on results of operations should be read in conjunction with the Restated Financial Results of our Company for the half year ended on September 30, 2024 and for the financial years ended on March 31 2024, 2023 and 2022.

Other Income

Our Other Income increased by ₹ 126.80 Lakhs, from ₹ 129.99 Lakhs for the financial year ended March 31, 2023, to ₹ 256.79 Lakhs for the financial year ended March 31, 2024, representing an increase of 97.55% due to increase in Bad-debts Recovered and increase in Interest income from loans given and sundry balances written back.

Expenses

Our Total Expenses excluding Finance cost, Depreciation and Tax Expenses increased by ₹ 4,769.01 Lakhs from ₹ 13,563.96 Lakhs for the financial year ended on March 31, 2023 to ₹ 18,332.97 Lakhs for the financial year ended on March 31, 2024 representing an increase of 35.16%, due to the factors described below:

Cost of Raw Materials Consumed

Our Cost of Materials Consumed increased by ₹ 2,925.22 Lakhs from ₹ 13,888.87 Lakhs for the financial year ended on March 31, 2023 to ₹ 16,814.09 Lakhs for the financial year ended on March 31, 2024 representing an increase of 21.06%.

Analysis for increase in Raw Material Consumed is as follows:

(₹ in Lakhs)

Particulars	FY 2023-24	FY 2022-23	Growth (Amount)	Growth (%)
Opening Stock of Materials	249.28	242.94	6.34	2.61%
Purchases of Materials	17,398.62	13,053.18	4,345.44	33.29%
Less: Closing Stock of Materials	1,784.42	249.28	1,535.14	615.82%

Total	16,814.09	13,888.87	2,925.22	21.06%

The increase in Cost of Material Consumed is mainly attributable to increase in material purchases and increase in other direct expenses, which is partially offset by an increase in closing stock of materials.

Purchase of Trading Goods

Our purchase of Trading goods has increased by ₹ 257.60 Lakhs from ₹ 273.15 Lakhs for the financial year ended March 31, 2023 to ₹ 530.74 Lakhs for the financial year ended March 31, 2024 due to increased trading activity in normal course of business during the Financial Year 2023-24.

Change in Inventory of Stock in Trade and Finished Goods

Our Net Change in Inventory of Finished Goods increased by ₹ 1,372.51 lakhs, from ₹ (813.26) Lakhs for the financial year ended March 31, 2023 to ₹ 559.25 Lakhs for the financial year ended March 31, 2024 due to decrease in closing inventory of finished goods as the closing inventory as on 31.03.2024 was because of maximum supply of ready to sale goods taken place towards the year end.

Employee Benefit Expenses

Our Employee Benefit Expenses increase by ₹ 63.83 Lakhs from ₹ 124.48 Lakhs for the financial year ended on March 31, 2023 to ₹ 188.31 Lakhs for the financial year ended on March 31, 2024. Tax Expenses

Our Tax Expenses for the financial year ended March 31, 2023 amounted to ₹ 64.84 Lakhs as against tax expenses of ₹ (302.95) Lakhs for the financial year ended March 31, 2022. The net increase of ₹ 367.79 Lakhs is on account of increase in Income Tax provision and Deferred Tax.

Profit After Tax (PAT)

Our Profit After Tax has decreased by ₹ 282.02 Lakhs from ₹ 462.78 Lakhs for the financial year ended March 31, 2022 to ₹ 180.75 Lakhs for the financial year ended March 31, 2023. This decrease was primarily due to the significant change in Deferred Tax Expenses between the two years which is explained as follows:

(₹ in Lakhs)

Particulars	Year ended on March 31, 2023	% of Revenue from operations	Year ended on March 31, 2022	% of Revenue from operations
Revenue from Operations	13,754.67	100.00%	6,955.29	100.00%
Profit After tax (A)	180.75	1.31%	462.78	6.65%
Deferred Tax (B)	64.84	0.47%	(302.95)	(4.36)%
Adjusted PAT (C=A+B)	245.59	1.79%	159.83	2.30%

As mentioned above if the impact of deferred tax is removed our Adjusted PAT Margin has decreased marginally by 0.51% due to marginal changes in income and expenses as mentioned above.

Off-Balance Sheet Items

We do not have any other off-balance sheet arrangements, derivative instruments or other relationships with any entity that have been established for the purposes of facilitating off-balance sheet arrangements.

Qualitative Disclosure about Market Risk

Financial Market Risks

Market risk is the risk of loss related to adverse changes in market prices, including interest rate risk. We are exposed to interest rate risk, inflation and credit risk in the normal course of our business.

Interest Rate Risk

Our financial results are subject to changes in interest rates, which may affect our debt service obligations and our access to funds.

Effect of Inflation

We are affected by inflation as it has an impact on the raw material cost, wages, etc. In line with changing inflation rates, we rework our margins so as to absorb the inflationary impact.

Credit Risk

We are exposed to credit risk on monies owed to us by our customers. If our customers do not pay us promptly, or at all, we may have to make provisions for or write-off such amounts.

Reservations, Qualifications and Adverse Remarks

Except as disclosed in chapter titled “*Financial Statements as Restated*” beginning on page 230 of this Draft Red Herring Prospectus, there have been no reservations, qualifications and adverse remarks.

Details of Default, if any, including therein the Amount Involved, Duration of Default and Present Status, in Repayment of Statutory Dues or Repayment of Deposits or Repayment of Loans from any Bank or Financial Institution.

Except as disclosed in chapter titled “*Financial Statements as Restated*” beginning on page 230 of this Draft Red Herring Prospectus, there have been no defaults in payment of statutory dues and interest thereon or repayment of deposits and interest thereon or repayment of loans from any bank or financial institution and interest thereon by the Company.

FACTORS THAT MAY AFFECT THE RESULTS OF THE OPERATIONS

Unusual or infrequent events or transactions

There are no transactions or events, which in our best judgment, would be considered unusual or infrequent that have significantly affected operations of the Company.

Significant economic changes that materially affected or are likely to affect income from continuing operations

There are no significant economic changes that materially affected Company’s operations or are likely to affect income from continuing operations. Any slowdown in the growth of Indian economy or future volatility in global commodity prices, could affect the business including the future financial performance, shareholders’ funds and ability to implement strategy and the price of the Equity Shares.

Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations

Other than as disclosed in the chapter titled “*Risk Factors*” beginning on page 35 of this Draft Red Herring Prospectus to our knowledge, there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

Future changes in relationship between costs and revenues in case of events such as future increase in labour or material cost or prices that will cause material change

According to our knowledge, there are no future relationship between cost and income that would be expected to have a material adverse impact on our operations and revenues. However, increase in the cost of the goods in which the Company deals, will affect the profitability of the Company. Further, the Company may not be able to pass on the increase in prices of the services to the customers in full and this can be offset through cost reduction.

The extent to which material increases in net sales or revenue are due to increased sales volume, introduction of new products or services or increased prices

The increase in revenue is by and large linked to increase in volume of all the activities carried out by the Company.

Total turnover of each major industry segment in which the Issuer Company operates

Our Company deals in structural steel products which includes M.S. Chanel, M.S. Joist/Beam, M.S. Angle, M.S. Square Bar, M.S. Round Bar, M.S. Flat.

Relevant industry data, as available, has been included in the chapter titled “*Our Industry*” beginning on page 120 of this Draft Red Herring Prospectus.

Status of any Publicly Announced New Business Segments

Except as disclosed elsewhere in the Draft Red Herring Prospectus, we have not announced and do not expect to announce in the near future any new business segments.

Seasonality of the Business

The business of our company is not seasonal, hence there is no impact of seasonality on our turnover and operations. However, one of the industries that we cater to, i.e., construction industry slows down its operations typically during monsoon due to unfavourable weather conditions.

Any significant dependence on a single or few suppliers or customers

We depend on external suppliers for all the raw materials required and typically purchase raw materials on a purchase order basis and place such orders with them in advance based on our projected requirements. As a result, the success of our business is significantly dependent on maintaining good relationships with our suppliers. The absence of long-term supply contracts subjects us to risks such as price volatility caused by various factors viz. commodity market fluctuations, currency fluctuations, climatic and environmental conditions, transportation cost, changes in domestic regulatory changes and trade sanctions. If we cannot fully offset the increase in raw material prices with an increase in the prices for our products, we will experience lower profit margins, which in turn may have a material adverse effect on our results of operations, and financial condition and ultimately lead to a liquidity crunch. In the absence of such contracts, we are also exposed to the risk of unavailability of raw materials in desired quantities and qualities, in a timely manner.

Competitive Conditions

We have competition with domestic and international bedding essentials manufacturers who may vertically integrate their supply chains by acquiring or establishing their own distribution operation which reduces the need for independent distributors and create additional competition in the market. We expect competition to intensify due to possible new entrants in the market, existing competitors further expanding their operations and our entry into new markets where we may compete with well-established unorganized companies/ entities. This we believe may impact our financial condition and operations. *For details, please refer to the chapter titled “Risk Factors” beginning on page 35 of this Draft Red Herring Prospectus.*

JOINT HOLDERS

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint holders with benefits of survivorship.

NOMINATION FACILITY TO INVESTOR

In accordance with Section 72 of the Companies Act, 2013, the First / Sole Applicant, along with other joint Applicant, may nominate any one person in whom, in the event of the death of Sole Applicant or in case of joint Applicant, death of all the Applicants, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013, be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of Equity Share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Section 72 of the Companies Act, 2013, any Person who becomes a nominee by virtue of this section shall upon the production of such evidence as may be required by the Board of Directors, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board of Directors may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, the Board of Directors may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the applicant would prevail. If the Applicants require changing the nomination, they are requested to inform their respective Depository Participant.

WITHDRAWAL OF THE OFFER

In accordance with the SEBI (ICDR) Regulations, our Company, in consultation with Book Running Lead Manager, reserves the right not to proceed with this issue at any time after the Offer Opening Date, but before our Board meeting for Allotment without assigning reasons thereof.

If our Company withdraws the Issue after the Offer Closing Date, we will give reason thereof within two days by way of a public notice which shall be published in the same newspapers where the pre-issue advertisements were published.

Further, the Stock Exchanges shall be informed promptly in this regard and the Book Running Lead Manager, through the Registrar to the Issue, shall notify the SCSBs to unblock the Bank Accounts of the ASBA Applicants within one Working Day from the date of receipt of such notification.

In case our Company withdraws the Issue after the Offer Closing Date and subsequently decides to undertake a public offering of Equity Shares, our Company will file a fresh Offer Document with the Stock Exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is also subject to obtaining the final Listing and Trading Approval of the Stock Exchange, which the Company shall apply for after Allotment. In terms of the SEBI Regulations, Non-Retail Applicants shall not be allowed to withdraw their Application after the Offer Closing Date.

SEBI vide circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the post offer timeline for IPOs. The revised timeline of T+3 days has been made applicable in two phases, i.e., voluntary for all public issues opening on or after September 1, 2023 and mandatory on or after December 1, 2023. Accordingly, the Offer has been made under UPI Phase III, subject to the timing of the Offer and any circulars, clarification or notification issued by the SEBI from time to time, including with respect to SEBI circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023.

The SEBI is in the process of streamlining and reducing the post offer timeline for initial public offerings. Any circulars or notifications from the SEBI after the date of the Draft Red Herring Prospectus may result in changes to the abovementioned timelines. Further, the Offer procedure is subject to change to any revised circulars issued by the SEBI to this effect.

The Book Running Lead Manager will be required to submit reports of compliance with listing timelines and activities, identifying non- adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Due to the limitation of time available for uploading the Bid-Cum-Application Forms on the Bid / Offer Closing Date, Applicants are advised to submit their applications 1(one) day prior to the Offer Closing Date and, in any case, not later than 3:00 p.m. (IST) on the Bid / Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Applicants are cautioned that, in the event a large number of Bid-Cum-Application Forms are received on the Offer Closing Date, as is typically experienced in public Offer, some Bid-Cum-Application Forms may not get uploaded due to the lack of sufficient time. Such Bid-Cum-Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Bid-Cum-Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bid-Cum-Application Forms due to faults in any software / hardware system or otherwise.

In accordance with ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application Amount) at any stage. Individual Investors can revise or withdraw their Application Forms prior to the Offer Closing Date. Allocation to Individual Investors, in this Offer will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Application Form, for a particular Applicant, the details as per the file received from SME Platform of BSE Limited may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

Our Company in consultation with the Book Running Lead Manager, reserves the right to revise the Price Band during the Bid / Offer Period. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision to the Price Band, the Bid / Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid / Offer Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the Book Running Lead Manager, for reasons to be recorded in writing, extend the Bid / Offer Period for a minimum of three Working Days, subject to the Bid / Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the Book Running Lead Manager and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

MINIMUM SUBSCRIPTION

In accordance with Regulation 260 (1) of ICDR Regulations, this Offer is 100% underwritten, so this Offer is not restricted to any minimum subscription level.

As per section 39 of the new Companies Act, if the “stated minimum amount” has not been subscribed and the sum payable on Application is not received within a period of 30 days from the date of Red Herring Prospectus, the Application Amount has to be returned within such period as may be prescribed.

If our Company does not receive the subscription of 100% of the Offer through this Offer document including devolvement of Underwriters, our Company shall forthwith unblock the entire subscription amount received.

In terms of Regulation 272(2) of SEBI ICDR Regulations, in case the Company fails to obtain listing or trading permission from the stock exchanges where the specified securities are proposed to be listed, it shall refund through verifiable means the entire monies received within four days of receipt of intimation from stock exchange(s) rejecting the application for listing of specified securities, and if any such money is not repaid within four days after the issuer becomes liable to repay it, the issuer and every director of the company who is an officer in default shall, on and from the expiry of the fourth day, be jointly and severally liable to repay that money with interest at the rate of fifteen per cent per annum.

In accordance with Regulation 260 (1) of the SEBI ICDR Regulations, our Offer shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the Offer through the Draft Red Herring Prospectus and shall not be restricted to the minimum subscription level. Further, in accordance with

Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall not be less than ₹1.00 Lakhs (Rupees One Lakhs) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

ARRANGEMENTS FOR DISPOSAL OF ODD LOTS

In accordance with Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall be two lots per application provided that minimum application size shall be above ₹2 lakhs.

The trading of the Equity Shares will happen in the minimum contract size of [●] Equity Shares in terms of the SEBI Circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, in terms of Regulation 261 (5) of the ICDR Regulations, the Market Maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the SME Platform of BSE Limited.

APPLICATION BY ELIGIBLE NRIS, FPIS / FIIS REGISTERED WITH SEBI, VCFS REGISTERED WITH SEBI AND ELIGIBLE QFIS

It is to be understood that there is no reservation for Eligible NRIs or FPIs / FIIs registered with SEBI or VCFs or Eligible QFIs. Such Eligible NRIs, Eligible QFIs, FIIs registered with SEBI will be treated on the same basis with other categories for the purpose of allocation.

NRIs, FPIs / FIIs and foreign venture capital investors registered with SEBI are permitted to purchase shares of an Indian company in a public offer without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“FDI”) Policy and the non-resident shareholding is within the sectoral limits under the FDI policy; and (ii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

The current provisions of the Foreign Exchange Management (Transfer or Offer of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Offer of Security by a Person Resident outside India) Regulations, 2000, RBI and / or SEBI regulations as may be applicable to such investors.

The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India / RBI while granting such approvals.

AS PER THE EXTANT POLICY OF THE GOVERNMENT OF INDIA, OCBs CANNOT PARTICIPATE IN THIS OFFER.

As per the existing regulations, OCBs are not eligible to participate in this Offer. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No. 20/2000-RB dated May 03, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Offer provided it obtains a prior approval from the RBI. On submission of such approval along with the Application Form, the OCB shall be eligible to be considered for Equity Share allocation.

RESTRICTIONS ON TRANSFER AND TRANSMISSION OF SHARES OR DEBENTURES AND ON THEIR CONSOLIDATION OR SPLITTING

Except for lock-in of the pre-offer Equity Shares and Promoters’ minimum contribution in the Offer as detailed in the Section titled, “*Capital Structure*”, beginning on page 78 of this Draft Red Herring Prospectus, and except as provided in the Articles of Association of our Company, there are no restrictions on transfer and transmission and on their consolidation / splitting of Equity Shares. *For further details, please refer to the Section titled, “Main Provisions of the Articles of Association”, beginning on page 330 of this Draft Red Herring Prospectus.*

The above information is given for the benefit of the Applicants. The Applicants are advised to make their own enquiries about the limits applicable to them. Our Company and the Book Running Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated hereinabove. Our Company and the Book Running Lead Manager are not liable to inform the Applicants of any amendments or modifications or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

NEW FINANCIAL INSTRUMENTS

As on the date of this Draft Red Herring Prospectus, there are no outstanding warrants, new financial instruments or any rights, which would entitle the shareholders of our Company, including our Promoters, to acquire or receive any Equity Shares after the Offer.

ALLOTMENT OF EQUITY SHARES IN DEMATERIALIZED FORM

As per the provisions of the Depositories Act, 1996 and the regulations made under and Section 29(1) of the Companies Act, 2013 the Equity Shares to be allotted must be in Dematerialized form i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through electronic mode.

Further, in accordance with the ICDR Regulations, Allotment of Equity Shares to successful Applicants will only be in the dematerialized form. Applicants will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only on the dematerialized segment of the Stock Exchange. Hence, the Equity Shares being offered can be applied for in the dematerialized form only.

SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

Subsequently, for applications by Individual Investors through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter final reduced timeline of T+3 days for the UPI Mechanism for applications by Individual Investors (“UPI Phase III”), as may be prescribed by SEBI. Further, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, and circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular is effective for initial public offers opening on / or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and the provisions of this circular are deemed to form part of this Draft Red Herring Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Investors in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹500,000 shall use the UPI Mechanism.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public Offer from existing 6 working days to 3 working days from the date of the closure of the Offer. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public issues opening on or after September 1, 2023, and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public Offer to three Working Days. Accordingly, the Offer will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>. Further, the Company and the Book Running Lead Manager are not liable for any adverse occurrence’s consequent to the implementation of the UPI Mechanism for application in this Offer.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY INDIVIDUAL BIDDERS, WHO APPLIES FOR MINIMUM APPLICATION SIZE, AS PER THE UPI CIRCULAR

SEBI has issued circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 and circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the “UPI Circulars”) in relation to streamlining the process of public Offer of equity shares and convertibles. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public Offer closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019, or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Individual Investor had the option to submit the Application Form with any of the Designated Intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Offer closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continued for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public Offer closure to listing continues to be six working days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023, and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (“T+3 Notification”). In this phase, the time duration from public Offer closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Offer is being made under Phase III of the UPI (on a mandatory basis).

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Applicants into the UPI payment mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Manager.

Pursuant to the SEBI UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer Book Running Lead Manager will be required to compensate the concerned investor.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Applicants into the UPI payment mechanism.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public Offers where the application amount is up to ₹5,00,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- a syndicate member
- a stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) (“broker”)
- a depository participant (“DP”) (whose name is mentioned on the website of the stock exchange as eligible for this activity)
- a registrar to the Offer and shares transfer agent (“RTA”) (whose name is mentioned on the website of the stock exchange as eligible for this activity)

For further details, refer to the General Information Document to be available on the website of the Stock Exchange and the Book Running Lead Manager's.

An application cannot be submitted for more than the Net Offer Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Offer Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure that the Application not less than 2 lots per application provided that the minimum application size shall be above ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the Book Running Lead Managers are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company in consultation with the Book Running Lead Manager will decide the Price Band and the minimum Bid lot size for the Issue and the same shall be advertised in English national newspaper edition of [●] (a widely circulated English National Daily Newspaper), Hindi national newspaper edition of [●] (a widely circulated Hindi National Daily Newspaper) and regional newspaper Guwahati edition of [●] (Assamese being the regional language of Assam where our registered office is located), each with wide circulation at least two Working Days prior to the Bid / Offer Opening Date. The Book Running Lead Manager and the SCSBs shall accept Bids from the Bidders during the Bid / Offer Period.

- a) The Bid / Offer Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid / Offer Period maybe extended, if required, by an additional three Working Days, subject to the total Bid / Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Offer Period, if applicable, will be published in English national newspaper edition of [●] (a widely circulated English National Daily Newspaper), Hindi national newspaper edition of [●] (a widely circulated Hindi National Daily Newspaper) and regional newspaper Guwahati edition of [●] (Assamese being the regional language of Assam where our registered office is located), each with wide circulation and also by indicating the change on the websites of the Book Running Lead Manager.
- b) During the Bid / Offer Period, Individual Bidders, who applies for minimum application size,, should approach the Book Running Lead Manager or their authorized agents to register their Bids. The Book Running Lead Manager shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid / Offer Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the Book Running Lead Manager (for the Bids to be submitted in the Specified Cities) to register their Bids.
- c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Offer Price, the maximum number of Equity Shares Bid for by a Bidder / Applicant at or above the Offer Price will be considered for allocation / Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- d) The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a Book Running Lead Manager or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another Book Running Lead Manager or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Offer. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph **“Build-up of the Book and Revision of Bids”**.
- e) Except in relation to the Bids received from the Anchor Investors, the Book Running Lead Manager / the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
- f) The Book Running Lead Manager shall accept the Bids from the Anchor Investors during the Anchor Investor Bid / Offer Period i.e., one working day prior to the Bid / Offer Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
- g) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in “Escrow Mechanism - Terms of payment and payment into the Escrow Accounts” in the section **“Offer Procedure”** beginning on page 293 of this Draft Red Herring Prospectus.
- h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.
- i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.

- k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal / failure of the Offer or until withdrawal / rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal / failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a) Our Company in consultation with the Book Running Lead Manager, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid / Offer Period, in accordance with the SEBI ICDR Regulations, provided that (i) the Cap Price shall be less than or equal to 120% of the Floor Price, (ii) the Cap Price will be at least 105% of the Floor Price, and (iii) the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e., the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.
- b) Our Company in consultation with the Book Running Lead Manager, will finalize the Offer Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c) The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Individual Bidders, who applies for minimum application size, may Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders shall be rejected.
- d) Individual Bidders, who applies for minimum application size,, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Individual Bidders, who applies for minimum application size, shall submit the Bid cum Application Form along with a cheque / demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.
- e) The price of the specified securities offered to an anchor investor shall not be lower than the price offered to other applicants.

PARTICIPATION BY ASSOCIATES / AFFILIATES OF BOOK RUNNING LEAD MANAGER AND THE SYNDICATE MEMBERS

The Book Running Lead Manager and the Syndicate Members, if any, shall not be allowed to purchase in this Offer in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the Book Running Lead Manager and the Syndicate Members, if any, may subscribe the Equity Shares in the Offer, either in the QIB Category or in the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

Neither the Book Running Lead Manager nor any persons related to the Book Running Lead Manager (other than Mutual Funds sponsored by entities related to the Book Running Lead Manager), Promoters and Promoter Group can apply in the Offer under the Anchor Investor Portion.

OPTION TO SUBSCRIBE IN THE OFFER

- a) As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.
- b) The Equity Shares, on allotment, shall be traded on the Stock Exchange in Demat segment only.
- c) A single application from any investor shall not exceed the investment limit / minimum number of Equity Shares that can be held by him / her / it under the relevant regulations / statutory guidelines and applicable law.

BIDS BY FPI INCLUDING FII'S

In terms of the SEBI FPI Regulations, any qualified foreign investor or FII who holds a valid certificate of registration from SEBI shall be deemed to be an FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. An FII or a sub-account may participate in this Issue, in accordance with Schedule 2 of the FEMA Regulations, until the expiry of its registration with SEBI as an FII or a sub-account. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued by the designated depository participant under the FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. An FII or subaccount may, subject to payment of conversion fees under the SEBI FPI Regulations, participate in the Offer, until the expiry of its registration as a FII or sub-account, or until it obtains a certificate of registration as FPI, whichever is earlier. Further, in case of Bids made by SEBI-registered FIIs or sub-accounts, which are not registered as FPIs, a certified copy of the certificate of registration as an FII issued by SEBI is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

In terms of the SEBI FPI Regulations, the Offer of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10% of our post- Offer Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectorial cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included. The existing individual and aggregate investment limits an FII or sub account in our Company is 10% and 24% of the total paid-up Equity Share capital of our Company, respectively.

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may Offer or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client norms. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority.

FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non- Residents (blue in colour).

BIDS BY SEBI REGISTERED VCF'S, AIF'S AND FVCI'S

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFs and AIFs registered with SEBI respectively. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one Investee Company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one Investee Company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Further, the shareholding of VCFs, category I AIFs or category II AIFs and FVCIs holding Equity Shares prior to Offer, shall be locked-in for a period of at least one year from the date of purchase of such Equity Shares.

- e) Our Company in consultation with the Book Running Lead Manager in their absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application form, subject to such terms and conditions that our Company and the Book Running Lead Manager may deem fit.

The above information is given for the benefit of the Bidders. Our Company, the Book Running Lead Manager and the Syndicate Members are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and Bidders are advised to ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Draft Red Herring Prospectus.

BIDS BY PROVIDENT FUNDS / PENSION FUNDS

In case of Bids made by provident funds with minimum corpus of ₹25.00 Crore (subject to applicable law) and pension funds with minimum corpus of ₹25.00 Crore, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund / pension fund must be lodged along with the Bid cum Application Form. Failing this, the Company reserves the right to accept or reject any bid in whole or in part, in either case, without assigning any reason thereof.

BIDS BY BANKING COMPANY

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid by a banking company without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended (the "Banking Regulation Act"), and the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, is 10% of the paid-up share capital of the investee company not being its subsidiary engaged in non-financial services or 10% of the banks' own paid-up share capital and reserves, whichever is lower. However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt / corporate debt restructuring / strategic debt restructuring, or to protect the banks' interest on loans / investments made to a company. The bank is required to submit a time bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary and a financial services company that is not a subsidiary (with certain exception prescribed), and (ii) investment in a nonfinancial services company in excess of 10% of such investee company's paid-up share capital as stated in 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016.

BIDS BY SCSB'S

SCSBs participating in the Offer are required to comply with the terms of the SEBI circulars dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making Bid cum Applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making Bid cum application in public issues and clear demarcated funds should be available in such account for such Bid cum applications.

ISSUANCE OF A CONFIRMATION NOTE (“CAN”) AND ALLOTMENT IN THE ISSUE

1. Upon approval of the basis of allotment by the Designated Stock Exchange, the Book Running Lead Manager or Registrar to the Offer shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Offer.
2. The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Offer. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder.

OFFER PROCEDURE FOR APPLICATION SUPPORTED BY BLOCKED ACCOUNT (ASBA) BIDDERS

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015, all the Bidders have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. ASBA Bidders are advised to make their independent investigations and to ensure that the ASBA Bid Cum Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes>. For details on designated branches of SCSB collecting the Bid Cum Application Form, please refer the above-mentioned SEBI link.

TERMS OF PAYMENT

The entire Offer price of ₹ [●] per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Bidders.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Issue Account, the balance amount after transfer will be unblocked by the SCSBs.

The Bidders should note that the arrangement with Bankers to the Offer or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Offer and the Registrar to the Offer to facilitate collections from the Bidders.

PAYMENT MECHANISM

The Bidders shall specify the bank account number in their Bid Cum Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Bid Cum Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until withdrawal / rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, Non-Retail Bidders shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Bid Cum Application Form or for unsuccessful Bid Cum Application Forms, the Registrar to the Offer shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Offer and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal / failure of the Offer or until rejection of the Application by the ASBA Bidder, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public offer shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public offer have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

PAYMENT INTO ESCROW ACCOUNT FOR ANCHOR INVESTORS

All the investors other than Anchor Investors are required to bid through ASBA Mode. Anchor Investors are requested to note the following:

Our Company in consultation with the Book Running Lead Manager, in its absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them

in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Escrow Account should be drawn in favour of:

- a) In case of resident Anchor Investors: — “[●]”
- b) In case of Non-Resident Anchor Investors: — “[●]”
- c) Bidders should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Escrow Collection Bank and the Registrar to the Offer to facilitate collections from the Anchor Investors.

- b) The Registrar to the Offer shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

PRICE DISCOVERY AND ALLOCATION

- a) Based on the demand generated at various price levels, our Company in consultation with the Book Running Lead Manager, shall finalise the Offer Price and the Anchor Investor Offer Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Red Herring Prospectus. For details in relation to allocation, the Bidder may refer to the Red Herring Prospectus.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and the in consultation with the Book Running Lead Manager and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the Red Herring Prospectus.
- e) In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.
- f) Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the Book Running Lead Manager, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹24 per share, offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%

2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22.00 in the above example. The Issuer, in consultation with the Book Running Lead Manager, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

BASIS OF ALLOCATION

- The SEBI (ICDR) Regulations specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Draft Red Herring Prospectus. For details in relation to allocation, the Bidder may refer to the Red Herring Prospectus.
- Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the Book Running Lead Manager and the Designated Stock Exchange and in accordance with the SEBI (ICDR) Regulations, Unsubscribed portion in QIB Category is not available for subscription to other categories.
- In case of under subscription in the Offer, spill-over to the extent of such under- subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the Red Herring Prospectus.

ALLOTMENT PROCEDURE

The Allotment of Equity Shares to Bidders other than Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to Red Herring Prospectus. No Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer. However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable

Flow of Events from the closure of bidding period (T DAY) Till Allotment:

1. On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.

2. RTA identifies cases with mismatch of account number as per bid file / Final Certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
3. Third party confirmation of applications to be completed by SCSBs on T+1 day.
4. RTA prepares the list of final rejections and circulate the rejections list with Book Running Lead Manager (s)/ Company for their review/ comments.
5. Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
6. The Designated Stock Exchange (DSE), post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
7. The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below:

Process for generating list of allottees: -

- a) Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- b) In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- c) In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- d) On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

BASIS OF ALLOTMENT

Allotment will be made in consultation with the BSE Limited. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
 - a) For applications where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 1. Each successful applicant shall be allotted [●] equity shares; and
 2. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
 - b) If the proportionate allotment to an applicant works out to a number that is not a multiple of [●] equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
 - c) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any

category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] equity shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Draft Red Herring Prospectus.

- d) The above proportionate allotment of shares in an Offer that is oversubscribed shall be subject to the reservation for small individual applicants as described below:
1. As the Individual Investor category is entitled to more than fifty percent on proportionate basis, the Individual Investors shall be allocated that higher percentage.
 2. The balance net offer of shares to the public shall be made available for allotment to
 - a. Individual applicants other than retails individual investors and
 - b. Other investors, including Corporate Bodies/ Institutions irrespective of number of shares applied for.
 3. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

Individual Investor' means an investor who applies for shares of value of not less than ₹ 2,00,000.00. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE Limited.

The Executive Director / Managing Director of BSE Limited – the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2) / 2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the “FDI Policy”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

The RBI also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015, as updated from time to time by RBI and Master Direction– Foreign Investment in India (updated up to March 08, 2019). In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular and Master Direction. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

In case of investment in sectors through Government Route, approval from competent authority as mentioned in Section 4 of the FDI Policy 2020 has to be obtained. The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP / RBI, from time to time.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge, or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates, and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that

- (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations;
- (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and
- (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country

(“Restricted Investors”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

Share Capital and variation of rights	
1.	Subject to the provisions of the Act and these Articles, the shares in the capital of the Company shall be under the control of the Directors who may issue, allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par and at such time as they may from time to time think fit.
2.	(i) Every person whose name is entered as a member in the register of members shall be entitled to receive within two months after incorporation, in case of subscribers to the memorandum or after allotment or

	<p>within one month after the application for the registration of transfer or transmission or within such other period as the conditions of offer shall be provided —</p> <p>(a) one certificate for all his shares without payment of any charges; or</p> <p>(b) several certificates, each for one or more of his shares, upon payment of twenty rupees for each certificate after the first.</p> <p>(ii) Every certificate shall be under the seal and shall specify the shares to which it relate and the amount paid-up thereon.</p> <p>(iii) In respect of any share or shares held jointly by several persons, the Company shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such holders.</p>
3.	<p>(i) If any share certificate be worn out, defaced, mutilated or torn or if there be no further space on the back for endorsement of transfer, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Company deem adequate, a new certificate in lieu thereof shall be given. Every certificate under this Article shall be issued on payment of twenty rupees for each certificate.</p> <p>(ii) The provisions of Articles (2) and (3) shall <i>mutatis mutandis</i> apply to debentures of the Company.</p>
4.	<p>Except as required by law, no person shall be recognised by the Company as holding any share upon any trust, and the Company shall not be bound by, or be compelled in any way to recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any share, or any interest in any fractional part of a share, or (except only as by these regulations or by law otherwise provided) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.</p>
5.	<p>(i) The Company may exercise the powers of paying commissions conferred by sub-section (6) of section 40, provided that the rate per cent. or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rules made thereunder.</p> <p>(ii) The rate or amount of the commission shall not exceed the rate or amount prescribed in rules made under sub-section (6) of section 40.</p> <p>(iii) The commission may be satisfied by the payment of cash or the allotment of fully or partly paid shares or partly in the one way and partly in the other.</p>
6.	<p>a. If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of offer of the shares of that class) may, subject to the provisions of section 48, and whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.</p> <p>(ii) To every such separate meeting, the provisions of these regulations relating to general meetings shall <i>mutatis mutandis</i> apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued shares of the class in question.</p>
7.	<p>The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of offer of the shares of that class, be deemed to be varied by the creation or offer of further shares ranking <i>pari passu</i> therewith.</p>
8.	<p>Subject to the provisions of Section 55, any preference shares may, with the sanction of an ordinary resolution, be issued on the terms that they are to be redeemed on such terms and in such manner as the Company before the issue of the shares may, by special resolution, determine.</p>
Lien	
9.	<p>(i) The Company shall have a first and paramount lien —</p> <p>(a) on every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and</p> <p>(b) on all shares (not being fully paid shares) standing registered in the name of a single person, for all monies presently payable by him or his estate to the Company:</p> <p>Provided that the Board of directors may at any time declare any share to be wholly or in part exempt from the provisions of this clause.</p> <p>(ii) The Company's lien, if any, on a share shall extend to all dividends payable and bonuses declared from time to time in respect of such shares.</p>
10.	<p>The Company may sell, in such manner as the Board thinks fit, any shares on which the Company has a lien:</p> <p>Provided that no sale shall be made—</p> <p>(c) unless a sum in respect of which the lien exists is presently payable; or</p> <p>(d) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered</p>

	holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.
11.	<p>(i) To give effect to any such sale, the Board may authorize some person to transfer the shares sold to the purchaser thereof.</p> <p>(ii) The purchaser shall be registered as the holder of the shares comprised in any such transfer.</p> <p>(iii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.</p>
12.	<p>(i) The proceeds of the sale shall be received by the Company and applied in payment of part of the amount in respect of which the lien exists as is presently payable.</p> <p>(ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.</p>
Calls on Shares	
13.	<p>(i) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times:</p> <p>Provided that no call shall exceed one-fourth of the nominal value of the share or be payable at less than one month from the date fixed for the payment of the last preceding call.</p> <p>(ii) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and places specified, the amount called on his shares.</p> <p>(iii) A call may be revoked or postponed at the discretion of the Board.</p>
14.	A call shall be deemed to have been made at the time when the resolution of the Board authorising the call was passed and may be required to be paid by instalments.
15.	The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.
16.	<p>(i) If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent. per annum or at such lower rate, if any, as the Board may determine.</p> <p>(ii) The Board shall be at liberty to waive payment of any such interest wholly or in part.</p>
17.	<p>(i) Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these regulations, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.</p> <p>(ii) In case of non-payment of such sum, all the relevant provisions of these regulations as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.</p>
18.	<p>The Board—</p> <p>(a) may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and</p> <p>(b) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the Company in general meeting shall otherwise direct, twelve per cent. per annum, as may be agreed upon between the Board and the member paying the sum in advance.</p>
Transfer of Shares	
19.	<p>(i) The instrument of transfer of any share in the Company shall be executed by or on behalf of both the transferor and transferee.</p> <p>(ii) The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.</p>
20.	<p>The Board may, subject to the right of appeal conferred by section 58 decline to register—</p> <p>(a) the transfer of a share, not being a fully paid share, to a person of whom they do not approve; or</p> <p>(b) any transfer of shares on which the Company has a lien.</p>
21.	<p>The Board may decline to recognise any instrument of transfer unless—</p> <p>(a) the instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56;</p> <p>(b) the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and</p> <p>(c) the instrument of transfer is in respect of only one class of shares.</p>

22.	<p>On giving not less than seven days' previous notice in accordance with section 91 and rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:</p> <p>Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.</p>
Transmission of Shares	
23.	<p>(i) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognised by the Company as having any title to his interest in the shares.</p> <p>(ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.</p>
24.	<p>(i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either—</p> <p>(a) to be registered himself as holder of the share; or</p> <p>(b) to make such transfer of the share as the deceased or insolvent member could have made.</p> <p>(ii) The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.</p>
25.	<p>(i) If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.</p> <p>(ii) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.</p> <p>(iii) All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.</p>
26.	<p>A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company:</p> <p>Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.</p>
Forfeiture of Shares	
27.	<p>If a member fails to pay any call, or instalment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or instalment remains unpaid, serve a notice on him requiring payment of so much of the call or instalment as is unpaid, together with any interest which may have accrued.</p>
28.	<p>The notice aforesaid shall—</p> <p>(a) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and</p> <p>(b) state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.</p>
29.	<p>If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.</p>
30.	<p>(i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.</p> <p>(ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.</p>
31.	<p>(i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the Company all monies which, at the date of forfeiture, were presently payable by him to the Company in respect of the shares.</p> <p>(ii) The liability of such person shall cease if and when the Company shall have received payment in full of all such monies in respect of the shares.</p>
32.	<p>(i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the Company, and that a share in the Company has been duly forfeited on date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;</p>

	<p>(ii) The Company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;</p> <p>(iii) The transferee shall thereupon be registered as the holder of the share; and</p> <p>(iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.</p>
33.	The provisions of these regulations as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.
Alteration of Capital	
34.	The Company may, from time to time, by ordinary resolution increase the share capital by such sum, to be divided into shares of such amount, as may be specified in the resolution.
35.	Subject to the provisions of section 61, the Company may, by ordinary resolution, — <ul style="list-style-type: none"> (a) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares; (b) convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination; (c) sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum; (d) cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.
36.	Where shares are converted into stock, — <ul style="list-style-type: none"> (a) the holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit: Provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose. (b) the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the Company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the Company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage. (c) such of the regulations of the Company as are applicable to paid-up shares shall apply to stock and the words “share” and “shareholder” in those regulations shall include “stock” and “stock-holder” respectively.
37.	The Company may, by special resolution, reduce in any manner and with, and subject to, any incident authorised and consent required by law— <ul style="list-style-type: none"> (a) its share capital; (b) any capital redemption reserve account; or (c) any share premium account.
Capitalisation of Profits	
38.	<p>(i) The Company in general meeting may, upon the recommendation of the Board, resolve—</p> <ul style="list-style-type: none"> (a) that it is desirable to capitalise any part of the amount for the time being standing to the credit of any of the Company’s reserve accounts, or to the credit of the profit and loss account, or otherwise available for distribution; and (b) that such sum be accordingly set free for distribution in the manner specified in clause (ii) amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions. <p>(ii) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (iii), either in or towards—</p> <ul style="list-style-type: none"> (A) paying up any amounts for the time being unpaid on any shares held by such members respectively; (B) paying up in full, unissued shares of the Company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid; (C) partly in the way specified in sub-clause (A) and partly in that specified in sub-clause (B); (D) A securities premium account and a capital redemption reserve account may, for the purposes of this regulation, be applied in the paying up of unissued shares to be issued to members of the Company as fully paid bonus shares; (E) The Board shall give effect to the resolution passed by the Company in pursuance of this regulation.
39.	<p>(i) Whenever such a resolution as aforesaid shall have been passed, the Board shall—</p> <ul style="list-style-type: none"> (a) Make all appropriations and applications of the undivided profits resolved to be capitalised thereby, and all allotments and issues of fully paid shares if any; and (b) Generally do all acts and things required to give effect thereto.

	<p>(ii) The Board shall have power—</p> <p>(a) to make such provisions, by the issue of fractional certificates or by payment in cash or otherwise as it thinks fit, for the case of shares becoming distributable in fractions; and</p> <p>(b) to authorise any person to enter, on behalf of all the members entitled thereto, into an agreement with the Company providing for the allotment to them respectively, credited as fully paid-up, of any further shares to which they may be entitled upon such capitalisation, or as the case may require, for the payment by the Company on their behalf, by the application thereto of their respective proportions of profits resolved to be capitalised, of the amount or any part of the amounts remaining unpaid on their existing shares;</p> <p>(iii) Any agreement made under such authority shall be effective and binding on such members.</p>
Buy-back of Shares	
40.	Notwithstanding anything contained in these articles but subject to the provisions of sections 68 to 70 and any other applicable provision of the Act or any other law for the time being in force, the Company may purchase its own shares or other specified securities.
General Meetings	
41.	All general meetings other than annual general meeting shall be called extraordinary general meeting.
42.	<p>(i) The Board may, whenever it thinks fit, call an extraordinary general meeting.</p> <p>(ii) If at any time directors capable of acting who are sufficient in number to form a quorum are not within India, any director or any two members of the Company may call an extraordinary general meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.</p>
Proceedings at General Meetings	
43.	<p>(i) No business shall be transacted at any general meeting unless a quorum of members is present at the time when the meeting proceeds to business.</p> <p>(ii) Save as otherwise provided herein, the quorum for the general meetings shall be as provided in section 103.</p>
44.	The Chairperson, if any, of the Board shall preside as Chairperson at every general meeting of the Company.
45.	If there is no such Chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting or is unwilling to act as Chairperson of the meeting, the directors present shall elect one of their members to be Chairperson of the meeting.
46.	If at any meeting no director is willing to act as Chairperson or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present shall choose one of their members to be Chairperson of the meeting.

Voting rights	
48.	Subject to any rights or restrictions for the time being attached to any class or classes of shares —
	<p>(a) on a show of hands, every member present in person shall have one vote; and</p> <p>(b) on a poll, the voting rights of members shall be in proportion to his share in the paid-up equity share capital of the Company.</p>
49.	A member may exercise his vote at a meeting by electronic means in accordance with section 108 and shall vote only once.
50.	<p>(i) In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders.</p> <p>(ii) For this purpose, seniority shall be determined by the order in which the names stand in the register of members.</p>
51.	A member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.

52.	Any business other than that upon which a poll has been demanded may be proceeded with, pending the taking of the poll.
53.	No member shall be entitled to vote at any general meeting unless all calls or other sums presently payable by him in respect of shares in the Company have been paid.
54.	(i) No objection shall be raised to the qualification of any voter except at the meeting or adjourned meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes. (ii) Any such objection made in due time shall be referred to the Chairperson of the meeting, whose decision shall be final and conclusive.
Proxy	
55.	The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the registered office of the Company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.
56.	An instrument appointing a proxy shall be in the form as prescribed in the rules made under section 105.
57.	A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the shares in respect of which the proxy is given: Provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the Company at its office before the commencement of the meeting or adjourned meeting at which the proxy is used.

(ii) In addition to the remuneration payable to them in pursuance of the Act, the directors may be paid all travelling, hotel and other expenses properly incurred by them— (a) in attending and returning from meetings of the Board of Directors or any committee thereof or general meetings of the Company; or (b) in connection with the business of the Company.
60.	The Board may pay all expenses incurred in getting up and registering the Company.
61.	The Company may exercise the powers conferred on it by section 88 with regard to the keeping of a foreign register; and the Board may (subject to the provisions of that section) make and vary such regulations as it may think fit respecting the keeping of any such register.
62.	All cheques, promissory notes, drafts, hundis, bills of exchange and other negotiable instruments, and all receipts for monies paid to the Company, shall be signed, drawn, accepted, endorsed, or otherwise executed, as the case may be, by such person and in such manner as the Board shall from time to time by resolution determine.
63.	Every director present at any meeting of the Board or of a committee thereof shall sign his name in a book to be kept for that purpose.
64.	(i) Subject to the provisions of section 149, the Board shall have power at any time, and from time to time, to appoint a person as an additional director, provided the number of the directors and additional directors together shall not at any time exceed the maximum strength fixed for the Board by the articles. (ii) Such person shall hold office only up to the date of the next annual general meeting of the Company but shall be eligible for appointment by the Company as a director at that meeting subject to the provisions of the Act.
Proceedings of the Board	
65.	(i) The Board of Directors may meet for the conduct of business, adjourn and otherwise regulate its meetings, as it thinks fit. (ii) A director may, and the manager or secretary on the requisition of a director shall, at any time, summon a meeting of the Board.

66.	<p>(i) Save as otherwise expressly provided in the Act, questions arising at any meeting of the Board shall be decided by a majority of votes.</p> <p>(ii) In case of an equality of votes, the Chairperson of the Board, if any, shall have a second or casting vote.</p>
67.	The continuing directors may act notwithstanding any vacancy in the Board; but, if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing directors or director may act for the purpose of increasing the number of directors to that fixed for the quorum, or of summoning a general meeting of the Company, but for no other purpose.
68.	<p>(i) The Board may elect a Chairperson of its meetings and determine the period for which he is to hold office.</p> <p>(ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the directors present may choose one of their number to be Chairperson of the meeting.</p>
69.	<p>(i) The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such member or members of its body as it thinks fit.</p> <p>(ii) Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on it by the Board.</p>
70.	<p>(i) A committee may elect a Chairperson of its meetings.</p> <p>(ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the members present may choose one of their members to be Chairperson of the meeting.</p>
71.	<p>(i) A committee may meet and adjourn as it thinks fit.</p> <p>(ii) Questions arising at any meeting of a committee shall be determined by a majority of votes of the members present, and in case of an equality of votes, the Chairperson shall have a second or casting vote.</p>
72.	All acts done in any meeting of the Board or of a committee thereof or by any person acting as a director, shall, notwithstanding that it may be afterwards discovered that there was some defect in the appointment of any one or more of such directors or of any person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such director or such person had been duly appointed and was qualified to be a director.
73.	Save as otherwise expressly provided in the Act, a resolution in writing, signed by all the members of the Board or of a committee thereof, for the time being entitled to receive notice of a meeting of the Board or committee, shall be valid and effective as if it had been passed at a meeting of the Board or committee, duly convened and held.
Chief Executive Officer, Manager, Company Secretary or Chief Financial Officer	
74.	<p>Subject to the provisions of the Act —</p> <p>(i) A Chief Executive Officer, Manager, Company Secretary or Chief Financial Officer may be appointed by the Board for such term, at such remuneration and upon such conditions as it may think fit; and any Chief Executive Officer, Manager, Company Secretary or Chief Financial Officer so appointed may be removed by means of a resolution of the Board;</p> <p>(ii) A Director may be appointed as Chief Executive Officer, Manager, Company Secretary or Chief Financial Officer.</p>
75.	A provision of the Act or these regulations requiring or authorising a thing to be done by or to a Director and Chief Executive Officer, Manager, Company Secretary or Chief Financial Officer shall not be satisfied by its being done by or to the same person acting both as Director and as, or in place of, Chief Executive Officer, Manager, Company Secretary or Chief Financial Officer.
Dividends and Reserve	
76.	The Company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.
77.	Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the Company.
78.	<p>(i) The Board may, before recommending any dividend, set aside out of the profits of the Company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the Company may be properly applied, including provision for meeting contingencies or for equalising dividends; and pending such application, may, at the like discretion, either be employed in the business of the Company or be invested in such investments (other than shares of the Company) as the Board may, from time to time, think fit.</p> <p>(ii) The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve.</p>
79.	(i) Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the Company, dividends

	<p>may be declared and paid according to the amounts of the shares.</p> <p>(ii) No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this regulation as paid on the share.</p> <p>(iii) All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such share shall rank for dividend accordingly.</p>
